THE CALEDONIA SPRINGS have for two or three years past attracted a considerable share of public attention, and within the last twelve months have been visited by a large number of persons not only from the twe-Canadas, but from various parts of the neighbouring Union.—The Proprietor, therefore, trusts that he will be justified by the general feeling on the subject in assuming, that these SPRINGS have ceased to be mere matter of private speculation, and have attained an importance which on the score of health as well as amusement, renders their prosperity and the developement of their advantages an object of no small interest to the community at large. It will be remembered that about twelve months since a portion of the land in the vicinity of the Springs was sold in Lots in order to raise means chiefly for the purpose of replacing a New Hotel, which had been destroyed by fire the preceding summer, to that purpose the funds have been faithfully applied, and a Hotel has been built, which in extent, elegance and convenience very much

fully applied, and a Hotel has been built, which in extent, elegance and convenience very much surpasses the former one, but notwithstanding all that has been expended, it is apparent from the great influx of visitors of the highest respectability the past sea, son, that further accommodations must be provided and that upon a scale of magnitude and liberality to which the means of the Proprietor are totally inadequate. He is consequently after many unsuccessful efforts to obtain the capital required for immediate expenditure, reflectantly in duced to offer for Sale an UNDIVIDED HALF of the CALEDOM'S SPRINGS PROPERTY, consisting of the SPRINGS themselves, with ONE THOUSAND ACRES of LAND adjacent to them, together with all the BUILDINGS and to them, together with all the BULLDINGS and other Improvements thereon; he proposes to effect this Sale in the form of a "TIRAGE AU SORT," this Sale in the form of a Translet As South a mode which presents fewer difficulties and promises to create a more extensive interest in behalf of the Springs than any which has suggested itself. He has accordingly divided the property into ONE THOUSAND LOTS, to be distributed one thousand Lots, to be distributed among an equal number of subscribers at £5 each, payable on delivery of their Certificates. Many of those Lots, with the Buildings thereon are of great value, as will appear by the subjoined Schedule, and all worth more than the price of certificates. The Propri for will dender to the person who may be so fortunate as to draw the lot consisting of the Springs, &c. \$3,000, for the payment of which the said sum will be deposited in one of the Banks of this City, previous to the day of drawing, optional, however, with the drawer of the said lot, to accept of that sum or remain a partner in tast lot with the subscriber. Several other valuable lots with Buildings thereon, will also be redeemed for Cash, if the parties concerned can agree.

The drawing, which will be under the super n tendance of a Committee of Gentlemen choses by subscribers, will take place in the month of March next. Notice of the precise day and place will be

priceeds of this sale a Church and School House will be erected, the accommodations for visitors extended, and many other attractions added to make these Springs a fastionable resort; he therefore earnestly and confidently solicits encouragement and support in his present undertaking. WM. PARKER.

seen, that in order to afford so large a paper at so small a price, it is neceessary that the subscription list be very large. The small sum which it costs, certainly places it within the reach of every farmer, and it is confidently believed, that, with a little effort on the past of public spirited individuals, nearly every farmer in the land may be induced to subscribe for it, and a new impulse be thus given to the march of agricultural improvement. One of the publishers and co-editor, is well known as the proprietor of the Rochester seed store. His extensive correspondence and business connexions in this country and in Europe, together with his intimate knowledge of the subjects, well qualify him for the present undertaking. The other publisher is an experienced Master Printer and publisher; and the appearance of our sheet will soon listed and putrescent cructations of the extremities, emaciation and general det ility, disturbed rest, a sense of pressure and weight at the stomach after eating, night mare, great mental despondency, sew vere flying pains in the chest, back and sides, costiveness, a dislike for society, or conversation, in voluntary sighing and weeping, languar and lassitude upon the least exercise. The other publisher is an experienced Master Printer and publisher, and the appearance of our sheet will soon prove that he is well qualified to superintend the mechanical department of the business. The other gentleman, whose name we place at the head as editor, is so well known to the public as a writer on Agricul ure and Horticulture, that nothing need be \$\text{5a}\$ if respecting him. His able editorial essays and communications in the old Genesee Farmer, (together with those of his father, David Thomas, whose aid we also expect,) have contributed largely to the high reputation which that paper has sustained. In addition to the above, we have assurances of aid from many, if not most of those, who have already distinguished themselves as who have already distinguished themselves as writers on these subjects, and from several other gentlemen of science and talent, who have natheretofore contributed to this cause.

Spohn Fe Elixir of Health. In the West Indies Dr. Spohn performed some well attested cures, after all other remedies had failed.

This medi inte is suited to all climates and to persons of all ages and sexes, will keep for any length of time, and may be used with perfect safety by persons in the most feeble state of health, as it contains no ingredients that can impair the constitution under any circumstances. It will be found greatly serviceable in all diseases of the Lungs and Bronchla, such as Phthesic, Asth.

The subscriber having witnessed with pain the great destruction of the health and life of so many of his fellow beings by the above enumerated and their kindred diseases, has with much study, care and consultation, prepared his valuable medicine, which he is willing to submit to the most scrutinizing test of the medical faculty, and to rest its reputation upon their decision. He is already assured upon their testimonty, that it is superior to any thing yet discovered, and firmly believes, that if taken according to the directions it will effect a cure in nine cases out of ten, in those diseases for which it is recommended.

The proprieter is now receiving, almost daily, testimonials of the highest respectability, from physicians, Clergymen, and others, who have become acquainted with its nature and effect.

"My dear Sir—As you have requested my candid opinion of your Elixir of Health, I have much pleasure in stating that when laboring under a severe illness I took it by your advice, and am happy to say, that its action on me was in every way all that I could desire; and accordingly from its use I date my recovery. I consider it an excellent family medicine."

"Man, alas! too frequently neglects attending the is caparal health, until a long and dangerous."

So satisfied are we, if every one who may read this would take our advice, and give a trial of this medicine, so convinced are we of its efficacy in all bowel complaints, spasmodic and bilious affections, flatulency, habitual costiveness, nervous and sick headaches, and all scorbutic humors; in short, in all diseases arising from an impurity of the blood, we are satisfied, if this Syrup was introduced into every family in the country, (and we have no doubt that it soon will be,) that the health of all would be wonderfully improved, and the pockets of every one considerably benefitted."

"It has been remarked, and most truly, that the choleta, which I then had in its most seven."

"It has been remarked, and most truly, that the three ordinary secrets of health are early rising, three ordinary secrets of health are early rising, exercise, and personal cleanliness. Personal cleanliness all have it in their power to observe; but to many early rising is inconvenient, and exercise impossible, in consequence of the nature of their worldly avocations. To these the use of Dr. Spohn's Elixir of Health would prove of great value in the preservation of that invaluable blessing—health."

"SEASONABLE ADVICE."

" Take time by the forelock,' says the adage. "Take time by the forelock,' says the adage. Take medicine at the proper time, say we. It is a matter of less difficulty to ascertain the proper time to seek relief from medicine, than it is to discover the proper medicine which is to administer comfort to the afflicted patient. Dr. Spohn's Elixir of Health, which has obtained a celebrity in the 'annals of physic,' unequalled in ancient or modern times, has performed such astonishing cures, that numbers of the faculty, in justice to Dr. Spohn, have publicly recorded their opinions of its wonderful and extraordinary health-restoring qualities."
