The Herald's third year under its present pro prietor will expire on the 14th of April next; and those of our subscribers who have paid us nothing OF A SCHEME FOR DISPOSING OF AN during that time will please take notice, that their UNDIVIDED HALF OF THE papers will then be stopped, and their accounts be placed in Court for collection.

losses that are sustained on the credit system compel us for self-protection to take a bett r plan.

In order to explain the importance of this more fully, we have copied the following article from the New Yorker, merely remarking that every thing said in it is as applicable to Canada as to

the States.

NEWSPAPERS AND CASH.

Abundant experience has convinced us, that the cash system is in the long run, the only one upon which newspapers and periodicals can be prospected. The charges for subserviction are individually so small, and poton vitally important in the aggregate, that the trouble and expense of making collections are too apt to absorb all the anticipated profits and to defeat the hopes of the proprietor. A subscriber when dunned for a two or three dollar bill is too apt inconsiderately to regard it as a pairty business to importune him for so trifling an amount. He does not reflect, that three thousand subscribers being of the same mind with himself, might, by declining the liquidation of these "palry amounts," seriously embarrass a large estivishment. For ourselves, we started upon the cash system and mean to stick to it. We can see no reason why a man should not pay his two or three dollars down when subscribing for a n-wspaper, as well as his four or five dollars when stating in a steambout or a tailroad car. You may say, there is a chance that the paper will stop before the year is up. And so may the steamboat burst a boiler, of the rale thrown off the track. The contingency in either case is the same.

Another advantage of the cash system is, that it is friendly to the perfect independence of the press. Subscribers to newspapers in this country nage on their part to take a newspaper. It there is any one word in the vocabulary for which we have a mortal aversion, it is that same word 'patronage.' It has done more to degrade and embarsas the press of the United States than all the 'bribery and corruption' that political chicanery ever engendered.

"The ungrateful fellow," said one of these profitable patrons to a collector once upon a time, 'the ungrateful fellow, I have given him my aparents. Notice of the periese day and place will be water, will take place in the month of March next. Notice of the periese day and place will be under the superincent, will take place in the month of M

"The ungrateful fellow," said one of these profitable patrons to a collector once upon a time, the ungrateful fellow, I have given him my patronage ever since his concern was started—taken his paper these ten years, and now he sends in his bill of thirty collars, and says he must have it paid or he will sue me. "Ingratitude! thou marble-hearted friend!" You may stop my paper, sir; stop it at once; the editor shall have no more of the Public as well as that of the provision.

my patronage."

"Ah, sir," says the collector, "it is to the pat-"Ah, sir," says the collector, "it is to the patronage of you and those like you, that he is indebted for his present embarrassments. If he had not continued such names as yours upon his list, in the fallacious hope that you would one day pay him his dues—actually supplying thousands of such patrons gratuitously with newspapers—he might by this time have reaped a competence." Heaven preserve us from all such "patronage," say we.—The word should be repudiated, expunged and discarded by every independent end high-minded man connected with the press. In London, the newspapers are universally conducted

don, the newspapers are universally conducted upon the cash system. You might as well ask to be trusted for your fare from Liverpool to Manchester by the railroad as for a year s subscription to the London Times.

The following is acopy of the certificates to be issued, which may be found at the offices of Mr. W. S. Hunter, N. P., St. Paul steet, J. D. Bernto the London Times.

to the London Times.

We are glad to perceive symptoms of the gradual introduction of the cash principle into the newspaper establishments of this country. Among those which have set a good example, is the Fredoma Censon," a spirited weekly journal published at Fredoma in this State. In the following judicious conclusions of the editor we cordially concur. We hope they may be universally adopted by the press throughout the Union:

The Publisher of The Fredoma Censor hereby respectfully informs its patrons and the Public, that most weighty reasons have constrained him, after anxious and mature deliberation, to send out

after anxious and mature deliberation, to send out no copy of it after the commencement of the next volume except to subscribers who shall have paid for it in advance. This resolution has been well weighted, and will be inflexably adhered to. No new subscriptions will henceforth be received with new subscrptions will henceforth be received without payment, and on the 18th of March we shall
discontinue sending the Censor to any subscribers
but such as shall have paid in advance. We hope
the number thus suspended will be small—we hope
there are few of our patrons who will forego the
reading of the Censor rather than pay for it—but,
few or many, we cannot relax our rule in their be
half. Our determination henceforth to require
augment invariably in advance, is based upon the payment invariably in advance, is based upon the following, among other reasons:

1. Because the Censor is well worth the price if

tis worth any thing;

2. Because it costs us the money (our only return for our outlay of capital and labor being the profits of Advertising and Job work,) and those who want it cannot object to paying the naked

first cost;
3. Because it is fifty per cent cheaper (the com

3. Because it is nity per cent cheeper (the comparative amount of reading matter considered,) that any other paper in this region;
4. Because the good paying subscribers to a newspaper ought not to pay (as they do, indirectly, under the old system) for the delinquency of the non-paying and worthless;
5. Because it is far more reasonable and just the subscriber should trust the newspaper, which he appeared a policy that the newspaper.

a subscriber should trust the newspaper, which he knows has been regularly published for nineteer years, and is morally certain to be issued for nine teen years longer, than that the publisher should trust the subscriber, of whose character or circum

stances he knows nothing;
6. Because it is impossible to issue a good, creditatle, useful paper in a country village, and trust every body for payment, without losing money by it:

money by it;

7. Because there is a general lazity of morals with regard to paying the Printer; thousands who pay their notes and other obligations with scupuling inneganity, this is tous punctuality, think it no harm at all to keep the Printer out of his due for two or three years, until it is perfectly convenient to pay him; 3. Because mankind generally pay for a live horse more cheerfully than for a dead one.

NEW AND VALUABLE MEDICINE.

THE REV. I. COVERT'S BALM OF LIFE,
To those who are afflicted with acute and
chronic diseases of the Lungs and Windpipe.

This medi ine is suited to all climates and to
persons of all ages and sexes, will keep for any
length of time, and may be used with perfect
safety by persons in the most feeble state of health,
as it contains no ingredients that can impair the
constitution under any circumstances. It will be
found greatly serviceable in all diseases of the
Lungs and Bronclina, such as Phthusic, AsthMA, Whooping Cough, Croup, Acute and ChroNIC INFLAMATION OF THE LUNGS AND WINDPIPE;
BY THE DYSPETTIC IT HAS BEEN USED WITH DE-BY THE DYSPETIC IT HAS BEEN USED WITH DE-CIDED ADVANTOLE, and is serviceable to persons labouring under debility of any kind, if used ac-cording to the directions. To the consumptive it has invariably afforded almost immediate relief, and in several instances has wrought a permanent cure. It is not, however, expected to effect a cure upon such as are in the last stages of the disease; but even to such, it will be found to give much relief, and greatly prolong that remnant of life which has become so nearly exinguished by the dread destrover. BY THE DYSPEPTIC IT HAS BEEN USED WITH DE-

dread destroyer. The subscriber baving witnessed with pain the great destruction of the health and life of so many of his fellow beings by the above enumerated and their kirdred diseases, has with much study, care and consultation, prepared his valuable medicine, which he is willing to submit to the most scrutinizing test of the medical faculty, and to rest its

which he is willing to submit to the most scrutinizing test of the medical faculty, and to rest its reputation upon their decision. He is already assured upon their testimony, that it is superior to any thing yet discovered, and firmly believes, that if taken according to the directions it will effect a cure in nine cases out of ten, in those diseases for which it is recommended.

The proprietor is now receiving, almost daily, testimonian of the highest respectability, from Physicians, Clergymen, and others, who have become acquainted with its nature and effect.

We would here submit the names of a few, vizion John Wilson, M. D. Albany; N. Weaver, M. D. Auburn; A. H. Newcomb, M. D. Salina; Dr. Joseph T. Pitney, Auburn; Dr. E. Humphreys, de; J. S. DR. SPOHN'S

ELIXIR OF HEALTH. THE author of this article is very desirous that his views and assert ons should not be misunderstood, and that the public should know the real merits and effects of so important a remedy. He will state a few fact, on which the reader may most implicitly rely. They are true. It is asserted most solemnly and seriously, and the person who will investigate will find them invariable. On this assertion the author pledges his reputation and character not only as a man and physician. and character not only as a man and physician-but as a moral and correct good citizen. We re-peat, this redeficiae is all it professes to be. Gentlemen have told the proprietors often, that

Whether prudent er not they feel perfectly safe from any lever while they have the article. They can always throw off the worst kind of fevers in a few hours, if taken at the commencement. They

few hours, it taken at the commencement. They rise from its use without the least debility, and feel perfectly free, well and bright.

Will not the public give it a trial?

An uncommon fact is, that this remedy is a syrup palatable and pleasant to the taste, and children take it always with the greatest readiness.

The proprietor is now making rapid arrangements to have this article in the hands of every description and another arrangements and another arrangements. druggist and apothecary in this country. It may be known to be genuine by the signature of the gentleman and physician who is the author of it. E. SPOHN, M. D.

E. SPOHN, M. D.

It is with great pleasure that the agents are enabled thus to bring forward an article so truly meritorious as this syrup, and from such a source, and they trust the community who have occasion for its use may always find it within their reach, both as to places at which it may be found, and the low prices at which it is sold, and of all respectable Druggists.

DR. SPOHN'S

DR. SPOHN'S ELIXIR OF HEALTH.

OBSERVATION.

Symptoms like the following are sure to yield to use: sickness at the stomach, headache, dizziness, palpitation of the heart, impaired appetite, sometimes acid and putrescent eructations, coldness and weakness of the extremities, emaciation and general debility, disturbed rest, a sense of ness and weakness of the extremities, emaciation and general debility, disturbed rest, a sense of of pressure and weight at the stomach after eating, night mare, great mental despondency, severe flying pains in the chest, back and sides, costiveness, a dislike for society, or conversation, involuntary sighing and weeping, langour and lassitude upon the least exercise. To be had at No. 2 Fletcher-street, New York, and of all respectable Druggists. ble Druggists. DR. SPOHN'S

ELIXIR OF HEALTH.

The leading points to theory upon which the great use of this Syrup is predicated, is that the stomach is the seat of all diseases of a feverish nature, and any disorder incident to the stomach is cured by this article. There is therefore no fever or cold, asthma, inflammation or debility, or sickness at stomach, (except with females, encuente,) or dysentery, or jaundice, or dysepsia, but what it wilcure. The only thing is that people should be patient and depend upon it. For asthma it has no equal.

E. SPOHN, M. D. equal. E. SPOHN, M. D. Sold at No. 2, Fletcher-street, near Maiden Lane, and by all respectable Druggists.

DR. SPOHN'S

ELIXIR OF HEALTH. It has become a general practice with many to use this article in all cases of colds, pains in the bones, or heavy disagreeable feelings, tending to headache or chilliness. For hourseness, if taken headache or chilliness. For hoarseness, if taken through the day, it completely restores the voice without producing sickness. Whooping cough, and all coughs of children, are cured by it. The stomach is kept in perfect order by it, and it is quite impossible that any disease should commence while a person is using this Syrup.

The If taken daily it produces a ruddy, healthy, and young appearance, by driving off all the humors of the system. Sold genuine at 2 Fletcherstreet, one door below Pearl st. New-York, by Comstock & Co., N. Palmer, Chemist & Druggist, Kingston, Upper Canada, and by all respectable Druggists.

OPINIONS OF THE PRESS.

OPINIONS OF THE PRESS.

"The various diseases to which persons are subject who proceed from this country to foreign climes, too often prove fatal, in consequence of unskilful treatment. We would recommend, in these cases, an excellent medicine, now well known as Sponn's Elixir of Health. In the West Indies Dr. Spohn performed some well attested cures, after all other remedies had failed."
"Captains, merchants, and others proceeding on a long voyage, cannot provide themselves with a

a long voyage, cannot provide themselves with a more valuable companion than a medicine of ex-ceeding worth and utility, known amongst all classes, high and low, rich and poer, as Dr. Spohn's Elixir of Health. Doctor Spohn has received the highest testimonials of its extraordinary efficacy from the most eminent Naval and Military Surgeons, who prescribed this medicine during a voyage with the most successful results."

age with the most succession results.

We cannot do less than call the attention of our readers to Dr. Spohn's Elixir of Health, which, we are assured, is of extraordinary efficacy, and an excellent remedy for bile, indigestion, loss of appetite, nervous affections of the head, &c. Testimonials as to its efficacy, by several of the most distinguished members of the faculty, have been so often before the public, that we do not hesitate in recommending it to the notice of such of our readers as may be afflicted with either of the above

maladies."

"The most popular and highly appreciated medicine in the navy and military circles, is an invention of Dr. Spohn's, known as the Elixir of Health. This medicine is deservedly spoken of as an excellent corrective, after the indulgences of the table threaten and produce these unpleasant next morning's reminiscences, which never fail to annoy, worry and perplex the bon vivant."

"Medical men of the highest professional reputation, have strongly recommended, in all cases of bilious affections, constipation of the bowels, and nervous and sick headache, arising from the overloading of the digestive organs, the use of this medicine as the best extant for relieving those who are laboring under the effects of these complaints.

are laboring under the effects of these complaints

are laboring under the effects of these complaints. It is a most safe and efficacious remedy, and certain in its effects."

"Dr. Spohn's Elixir of Health is a medicine which its own intense worth will always secure for it a large and ready safe. It has deservedly a high reputation; and as a family and anti-bilious remedy it would be difficult to equal it among all the patent medicines of the present day. It removes all morbid humors and purifies the blood. Our belief is, keep your bowels and blood pure, and every kind of disease will be prevented or cured. The Elixir of Health is eminently calculated to do this, and thereby much lessen the sum lated to do this, and thereby much lessen the sun of human misery."

"One of our men some time since, gave notice that he was not able to attend to the duties of, his situation, in consequence of violent pains in his back and side. We recommended him not to despair, but to use Dr. Spohn's Elixir of Health. He did so, and it cured him perfectly. This is no puff. It is an actual fact. We know the medicine is good. We speak from experience."

"Dr. Spohn's Elixir of Health is a medicine.

"Dr. Spohn's Elixir of Health is a medicine well worthy the confidence of the public. The principle on which it cures disease is the same as that of Leroy, of Paris and Swedenaux of Germany. That all the variety of diseases proceed from, or are nearly allied to the disorders of the stomach and bowels, and that by using those remedies which restore to health those organs, the disease will vanish."

ASTONISHING.

"We were for a long time among the sceptical as to the efficacy of Dr. Spohn's Elixir of Health, so justly celebrated. A recent trial of it upon a friend of ours who was attacked with a most violent bilious cholic, has removed all doubts in our minds as to its being the very best cathartic that can be administered; and, believing so, we think we do the public a benefit in saying what we have of it."

"The impression seems to be gaining ground, "The impression seems to be gaining ground,

safety and effect as a remedy for ordinary infirm-ties. There are many sensible persons in this ci-ty, as well as other parts of the country, who with

ELECTRICAL.

"We're not ourselves When nature, being oppressed, command To suffer with the body."

To suffer with the body."

"This is a truism conceived by the master mind of Shakspeare, which neither sophistry nor argument can refute. To all those who are suffering from bil ous attacks, indigestion and flatulency, we would, in all sincerity, recommend as a neverfailing remedy, this Syrup. The testimonials we have had submitted to us in favor of this admirable medicine, fully justify our speaking of it in terms of the highest praise."

"My dear Sir—As you have requested my can-"My dear Sir-As you have requested my can-

"My dear Sir—As you have requested my candid opinion of your Elixir of Health, I have much
pleasure in stating that when laboring under a severe illness I took it by your advice, and am happy to aay, that its action on me was in every way
all that I could desire; and accordingly from its
use I date my recovery. I consider it an excellent family medicine."

"Man, alast, too frequently newlests attending."

lent family medicine. "
"Man, alas! too frequently neglects attending to his general health, until a long and dangerous illness compels him to fly to some medical man for relief. So satisfied are we, if every one who may read this would take our advice, and give a trial of this medicine, so convinced are we of its efficacy in all bowel couplaints, spasmodic and bilious affections, flatulency, habitual costiveness, nervous and sick headaches, and all scorbutic humors; in short, in all diseases arising from an impurity of the blood, we are satisfied, if this Syrup was introduced into every family in the country, (and troduced into every family in the country, (and we have no dcubt that it soon will be,) that the health of all would be wonderfally improved, and the pockets of every one considerably benefitted." "PRESERVATION OF HEALTH."

"It has been remarked, and most truly, that the three ordinary secrets of health are early rising, exercise, and personal cleanliness. Personal but to many carly using is inconvenient, and exercise impossible, in consequence of the nature of their worldly avocations. To these the use of Dr. Spohn's Elixir of Health would prove of great value in the preservation of that invaluable bles-sing-health."

PUBLIC

"SEASONABLE ADVICE."

"'Take time by the forelock,' says the adage. Take medicine at the proper time, say we. It is a matter of less difficulty to ascertain the proper time to seek relief from medicine, than it is to discover the proper medicine which is to administer comfort to the afflicted patient. Dr. Spohn's Elixir of Health, which has obtained a celebrity in the 'annals of physic,' unequalled in ancient or modern times, has performed such astonishing cures, that numbers of the faculty, in justice to Dr. Spohn, have publicly recorded their opinions of its wonderful and extraordinary health-restoring qualities."

N. B. Let, therefore, the following Rules he "SEASONABLE ADVICE."

N. B. Let, therefore, the following Rules be strictly observed: RULE 1st.

RULE 1st.

Fill a common tumbler near one fourth full of this Syrup, and fill it up with cold water. Add then as much sugar as you please to make it pleasant, or add none if you prefer it without. Mix it well. The tumbler-full to be taken at three of four drafts, at intervals of 20 or 30 minutes. Take a little clear cold water after it, which will remove all unpleasant taste instantly. If you choose mix on tablespoon-full with a quarter of a tumbler of water, and take it all at once, and repeat it every 20 minutes. RULE 2d.

RULE 2d.

If your system is fever.sh, or bowels costive, take an active cathartic. As soon as that operates upon the bowels, or if the fever is high, commence at once the use of this medicine. Free perspiration will invariably be propuced if it is taken after physic or bleeding, provided the person keeps in a warm room, or covered up in a warm bed.

It is certain that such perspiration and fever cannot exist at the same time.

Perspiration will nearly always follow without physic or blood letting, if the person dies as above.

RULE 3d.

RULE 3d.
For Dyspepsia, Costiveness, Hardness of Food after eating, or Flatulency, take it after meals, as above directed. Hardness of Food and Heartburn will be instable used. will be instantly cured.

RULE 4th.

After too m uch dinner, too much supper, or after eating any fruit, ripe or unripe, freely take it, and all unpleasant consequences are prevented. Let us not be understood as holding out inducements to indulgences, when we assert most positively that unripe fruit, and almost every thing else, may be eaten with impunity, if this is freely taken immediately after. The Persons indulging too much at evening parties by taking it on going to bed, will rest well, and feel no bad effects the next day from their indulgences.
