CALEDONIA SPRINGS PROPERTY.

THE CALEDONIA SPRINGS have for two or three years past attracted a considerable share of public attention, and within the last twelve months have been visited by a large number of persons not only from the two Canadas, but from various parts of the neighbouring Union.— The Proprietor, therefore, trusts that he will be justified by the general feeling on the subject in assuming, that these SPRINGS have ceased to assuming, that these STAINGS have ceased to
be mere matter of private speculation, and have attained an importance which on the score of health
as well as amusement, renders their prosperity

since a portion of the land in the vicinity of the Springs was sold in Lots in order to raise means chiefly for the purpose of replacing a New Hotel, which had been distroyed by fire the preceding summer, to that purpose the funds have been faithfully applied, and a Hotel has been built, which in extent, elegance and convenience very much surpasses the former one, but notwithstanding all that has been expended, it is apparent from the great influx of visitors of the highest respectability the nast sea, son, that further accommodations must great influx of visitors of the highest respectability the past sea, son, that further accommodations must be provided and that upon a scale of magnitude and liberality to which the means of the Proprietor are totally inadequate. Many of those Lots, with the Buildings thereon are of great value, as will appear by the subjoined Schedule, and all worth more than the price of certificates. The leading points to theory upon which the great use of this Syrup is predicated, is that the stomach is the seat of all diseases of a feverish nature, and any disorder incident to the stomach is cured by this article. There is therefore no fever or cold, asthma, inflammation or debility, or sickness at stomach, (except with females, encience,) or grandice, or dysnepsia, but what it will sentery, or jaundice, or dyspepsia, but what it will cure. The only thing is that people should be patient and depend upon it. For asthma it has no equal.

"SEASONABLE ADVICE."
"'Take time by the forelock,' says the adage. "Take medicine at the proper time, say we. It is a matter of less difficulty to ascertain the proper time to seek relief from medicine, than it is to discover the proper medicine which is to administer comfort to the afflicted patient. Dr. Spohn's Elixir of Health, which has obtained a celebrity in the 'annals of physic,' unequalled in ancient or modern times, has performed such aspections of the faculty, in onishing cures, that numbers of the faculty, in justice to Dr. Spohn, have publicly recorded their opinions of its wonderful and extraordinary health-restoring qualities."

N. B. Let, therefore, the following Rules be strictly observed:

RULE 1st.

If your system is feverish, or bowels costive, take an active cathartic. As soon as that operates upon the bowels, or if the fever is high, commence at once the use of this medicine.
