FLOWERS, SHRUSS, &C.—We refer on caders to Mr. Eales' advertisement in this day ferald. We had an opportunity of seeing the stablishment when under Mr. Belonge's care, as were highly delighted with its appearance, Ar. Eales is destrous of giving up the premise urchase of the whole might be made on adva cous terms.

The navigation of the Rideau Canal comm ast week.

We are happy to say that the persons y the explosion at the fire are likely to recove

We are happy to inform the patrons of the Chronicle & Gazette that the business will be ommenced shortly. See advertisement.

To the Editor of the U. C. Herald. FIRES, AND THE WAY TO PREVENT THEM, DEAR SIR,—Having heard the opinion frequent over expressed, that our Corporation have not the ower to regulate the description of houses where to be built within the limits of the Town,

re to be built within the limits of the Town, in all matters unhanced amental as safely; to examine the Act of Palament incorporating the Town of Kingston, upon the subject. I herewith send you some extraction that Act:

The preamble of the Act begins, "Whereas the accoporation of the Town of Kingston, in consumence of its increase, has become advisable accessary for the improvement and prosperity of aid Town," Sec. The 44th section of the Act in the Act is a provide for the permanent improvement of the act in the Act is a provide for the permanent improvement of the aid Town, in all matters whatsoever, as well are amental as useful; to enforce the sweeping as leaning of chimneys; to regulate one or more companies; to regulate and require the safement companies, to regulate and require the safemence of prevent the construction or erecting and for the provide for ashes; to regulate, and or proved the construction or erecting and for the provide for the construction or erecting and provide for the provides of the construction or erecting the provide for the provides of th f any fire-place, hearth, chimney, store, sin-ipe, oven, boilet, kettle, or apparatus used in a ouse, building, manufactory or business, which hay be dangerous in causing or promoting fire

specially over the construction of apparatus used in appose, building, manufactory or business, which appears the construction of property exposed at fires, and the topping or preventing of fires; to provide for the treatment of the real property to which here are constructed as the construction of property exposed at fires, and the topping or preventing of fires; to provide for the treatment of the real property of the construction of property exposed at fires, and the corporation of property exposed at fires, and the prevention of the prevention and suppression of the prevention of adjacent houses, for the prevention of adjacent houses, for the purposes as they may deem necessary or entering the construction of the prevention of adjacent houses, for the purposes as they may deem necessary or entering the construction of the prevention of the power to regulate what kind of buildings are to be built in the Town. How much, may also be asked, have the same corporation done towards putting in force the nears of prevention, for which the law gives that unch ample powers?

Are we to go on, Mr. Editor, in this way for the very? Is the town to be disgraced by such erections on our principal streets as we see on the site of the late fire near the corner of Rear Street, and the late fire near the corner of Rear Street, and the late fire near the corner of the construction Mr. Editor, the innautants of the part of

BROCK'S MONUMENT.
This morning between the hours of 4 and 5 as attempt was made to destroy Brock's Monuser at Queenston, with the aid of gunpowder, the explosion of which has rent the shalt from top to below, having separated the stones about the nches throughout. The concussion was feltal Niagara, and had the quantity of powder used even otherwise applied, than (it is supposed) it was, not one stone would have been left upon a tother. The whole erection still stands with easting down a few stones, and from such fact as he interior damage to the wood-work and appearances, there can be no doubt but the powder was nnces, there can be no doubt but the powder was merely placed within the lower door, and that

P. S. (Saturday Morning,) We are further in-P. S. (Saturday Morning.) We are further inormed this morning, that the Monument canot
tand as the breaches are widening. The front
loor which was very massy, was shivered to fragments and thrown a great distance, the upper con
und the whole heavy stairs are broken to piece,
and its lintel displaced, which now rests on the
from ballustrade. It is also ascertained that the
ersons concerned in this act came from Lewiston,
the boat in which they crossed (owned there by
Mr. Hurd,) was found at Field's Point below
Queenston, with a pair of Gloves, and a part of
oorse canvass bag in it partly torn off, as if used to
nuffle the oars—another piece of cloth of similin
exture was found near the monument, and a log nuffle the oars—another piece of cloth of similar exture was found near the monument, and a long siece of fuse—powder was also discovered in the treets of Lewiston, similar to some found on the ill, and it appears that about two weeks ago, two legs called clover seed were stored with an lateger of the name of Raymond at Lewiston, and which remained there only a few days. The erson who left the kegs, sent another individual or them, but both were strangers to Mr. R. We rust justice will still overtake them. MacKenis as no love for this structure, which for a few rouns contained his "Colonial Advocate," under the Colonial Advocate, under the Colonial Advocate, as the moved.—Niagara Reporter.

Report of Lieut. Colonel Ward, Royal Engineers

Report of Lieut. Colonel Ward, Royal Engineers:

"The explosion took place at half-past four, A. M.
in Good Friday. Very considerable damage has
een done to the Monument, which from external spearances, would seem not capable of repair. The
electral is slightly cracked on the four sides, and the
event of the receiver the done blown out. The setterful is elightly cracked on the four sides, and use the store of the arch over the door blown out. The haft of the column is likewise cracked more than aff way up on four sides, and on two most extensively, the cracks being in some places ten inches of foot wide. The gallery and cupola are very mediate. The interior could not be examined, being hilled with runs of the wooden stair case. A combinate of the company of t

s the explosion was distinctly heard at Niagara.

An investigation was immediately instituted on behides of the river—the Americans taking up the maintrith an energy and promptitude highly creditable interest of the investigation, into the particulars of which it would probably be improper to enteroves that the parties by whom the erime was consisted came over the river, and that one of them used the consistency of the consiste A reward of £250 is offered for the disc

POSTPONEMENT.

OF THE DRAWING OF THE "CALEDO NIA SPRING TIRAGE AU SORT," TO THE 25TH OF JUNE NEXT, AND NO LONGER.

IN Postnoning the drawing of this important SCHEME, the Subscriber confidently trusts in the favourable consideration and indulgence of all concerned, when he explains that the undertaking is of far greater magnitude than could be brought about in so short a time as was at first anticipated; although, he has been unceasing in his exertions, and most liberally encouraged thus far, still, the great number of Shares to be distributed over such a wide extent of country as the two Provinces, renders utterly impossible to accomplish so great an undertaking within the time specified. But the Proprietor, now pledges himself to all that have already, or may hereofter, patronize this landable scheme, that the DRAWING will POSITIVELY take place on the day above fixed,—the Prize Money will be deposited, and every other condition set forth in the Prospectus, will be fully and faithfully verified WMM. PARKER.

Montreal, March 27, 1840.
