Yet never sleep the sun up; prayer should Dawn with the day; there are set awful hours 'I wixt Heaven and us: the manna was not good After sun rising: for day sullies flowers: Rise to prevent the sun-sleep doth sin glut, Heaven's gate apens when the world is shut.

Walk with the fellow creatures, note the hush And whisperings among them. Not a sprig Or leaf but hath its morning hymn: each bush And oak doth know I AM—canst thou not sing? O leave thy cares and follies! go, this way And thou art sure to prosper all the day.

See God before the world-let him net go Until thou hast a blessing, then resign The whole unto Him, and remember who Prevail'd by wrestling ere the sun did shine : Pour oil upon the stones, weep for thy sin. Then journey on and have an eye to Heaven.

When the world's up, and every swarm abroad, Keep well thy temper, mix not with each clay: Despatch necessities—life hath a load Which must be carried on, and safely may, Yet keep these cares without thee: let the heart Be God's alone, and choose the better part.

"THE EARTH IS FULL OF THY GLORY Michighe's keeping vigils profound— Searly it is sleeping in beauty around; Hash'd are the billows—cloudless the sky, Soft 'mid the will was the night breezes sigh,

Lo! breaks the morning, o'er ocean and isle— Light is adorning the earth with her smile! Dew drops are gleaming on beds of perfume, Sunshine is streaming o'er Eden their thorn.

From valley and mountain what melodies rise? Woodland and fountain send shouts to the skies Ether is ringing with notes of delight, Sweet tones are singing the exit of night.

God of creation, whose matchless control Gives planets their station, and systems their Night speaks thy glory,—day after day Re-echoes the story as years pass away.

Some horses had been lately stolen, and were traced to his possession, which, upen demand he refused to give up, or account for. On the 1st, Sheriff A. Warner attempted to arrest Brown, but he having fortified his house, and having a party of some twenty or thirty men with him, refused to be taken. The sheriff thereupon summoned a posse of the citizens, to attack the house. Upon approach of the sheriff's party the party in the house fired upon them, killing one man. The sheriff a party returned the fire, and several fires ensued, in the course of which, the following persons were killed or wounded.

Of the thieves, W. W. Brown, Thomas Farley, both killed. An old man named Butley, a man by the name of Welsh, and several others were seriously wounded; some others were slightly wounded. A man named Filler, and nother of Brown's party, died before the Ditter left. Of the sheriff's party, there were killed, Mr. H. Palmer, Mr. Maxwell, and Mr. Vaughse. Mr. E. McDonald, and several, others were slightly wounded.

Those defending the house had the doors fastened, and defended it from the windows and other apertures, chiefly from the upper story—each man having a table before him on which he had four or five loaded rifles. The assailants forced open the doors and succeeded in capturing a number of the men in the house. When the Otter left, they had in custody eight or ten prisoners whom they intended to try and punish by lynch law that evening. The following 1r. the names of some of those arrested. He will state a few fact- on which the reader may most implicitly rely. They are true. It is asserted most solemuly and seriously, and the person who will investigate will find them invariable. DR, SPOHN'S ELIXIR OF HEALTH.

The leading points to theory upon which the great use of this Syrup is predicated, is that the stomach is the seat of all diseases of a feverish nature, and any disorder incident to the stomach is cured by this article. There is therefore no fever or cold, asthma, inflammation or debility, or sickness at stomach, (except with females, encente,) or dysentery, or jaundice, or dyspepsia, but what it will care. The only thing is that people should be patient and depend upon it. For asthma it has no equal.

OPINIONS OF THE PRESS.

"The various diseases to which persons are subject who proceed from this country to foreign climes, too otten prove fatal, no consequence of unskilful treatment. We would recommend, in these cases, an excellent medicine, now well known as Spoin's Elixir of Health. In the West Indies Dr. Spohn performed some well attested cures, after all other remedies had failed."

So highest testimonials of its extraordinary efficacy from the most eminent Naval and Military Sur-

"We cannot do less than call the attention of our readers to Dr. Spohn's Elixir of Health, which, we are assured, is of extraordinary efficacy, and an excellent remedy for bile, indigestion, loss of appetite, nervous affections of the head, &c. Testimonials as to its efficacy, by several of the most distinguished members of the faculty, have been so often before the public, that we do not hesitate in recommending it to the notice of such of our readers as may be afflicted with either of the above maladies."

residers as may be afflicted with either of the above maladies.²²

"The most popular and highly appreciated medicine in the navy and military circles, is an invention of Dr. Spohn's, known as the Elixir of Health. This medicine is deservedly spoken of as an excellent corrective, after the indulgences of the table threaten and produce those unpleasant next morning's reminiscences, which never fail to annoy, worry and perplex the bon vivant.²²

"Medical men of the highest professional reputation, have strongly recommended, in all cases of bilious affections, constipation of the bowels, and nervous and sick headache, arising from the overloading of the digestive organs, the use of this medicine as the best extant for relieving those who are laboring under the effects of these complaints. It is a most safe and efficacious remedy, and certain in its effects.²³

"Dr. Spohn's Elixir of Health is a medicine which its own intense worth will always secure for it a large and ready sale. It has deservedly a high reputation; and as a family and anti-bilious remedy, it would be difficult to equal it would be decired to the equal to the difficult to equal it and the di

for it a large and ready sale. It has deservedly a high reputation; and as a family and anti-bilious remedy it would be difficult to equal it among all the patent medicines of the present day. It removes all morbid humors and purifies the blood. Our belief is, keep your bowels and blood pure, and every kind of disease will be prevented or cured. The Elixir of Health is eminently calculated to do this, and thereby much lessen the sum of human misery.?

"One of our men some time since, gave notice that he was not able to attend to the duties of his situation, in consequence of violent pains in his back and side. We recommended him not to despair, but to use Dr. Spohn's Elixir of Health. He did so, and it cured him perfectly. This is no puff. It is an actual fact. We know the medicine is good. We speak from experience."

"Dr. Spohn's Elixir of Health is a medicine well worthy the confidence of the public. The principle on which it cures disease is the same as that of Leroy, of Paris and Swedenaux of Germany. That all the variety of diseases proceed from, or are nearly allied to the disorders of the stomach and bowels, and that hy using those remedies which restore to health those organs, the disease will vanish."

The impression seems to be gaining ground, that Dr. Spolm's medicine may be employed with safety and effect as a remedy for ordinary infirmities. There are many sensible persons in this city, as well as other parts of the country, who with great propriety testify to the good effects of Spolm's Eixir of Health, from frequent experiment; and no evil need be apprehended from the use of it, according to the directions. "PRESERVATION OF HEALTH."

"It has been remarked, and most truly, that the three ordinary secrets of health are early rising, exercise, and personal cleanliness. Personal cleanliness all have it in their power to observe; but to many early tising is inconvenient, and exercise impossible, in consequence of the nature of their worldly avocations. To these the use of Dr. Spohn's Elixir of Health would prove of great value in the preservation of that invaluable sing—health."
