In this discourse, founded on Pss. xlviii, 12, 14, the Anthor attempts to elucidate the Philosophy of Methodism, and to defend it from the attacks of its adversaries: he aims at delineating the principles of its constitution, origin, progress, present state and character, employing the facts of its history as proofs and illustrations. He also particularly examines the scheme of Apostolical or Episcopal succession, solely for the purpose of defence, and without the slightest feeling of hostility to any other denomination. A "Synopsis of Contents" is prefixed, which unfolds at a glance the range and scope of the discourse.

W. & J. WILSON,

Kingston, 15th March, 1849.

Gentlemen have told the proprietors often, that whether prudent or not they feel perfectly safe from any lever while they have the article. They can always throw off the worst kind of fevers in a few hours, if taken at the commencement. They rise from its use without the least debility, and feel perfectly free, well and bright. feel perfectly free, well and origin.

Will not the public give it a trial?

An uncommon fact is, that this remedy is a syrup palatable and pleasant to the taste, and children take it always with the greatest readiness.

The proprietor is now making rapid arrangements to have this article in the hands of every druggist and apothecary in this country. It may be known to be genuine by the signature of the gentleman and physician who is the author of it. gentleman and physician who is the author of it.

E. SPOHN, M. D.

It is with great pleasure that the agents are enabled thus to bring forward an article so truly meritorious as this syrup, and from such a source, and they trust the community who have occasion for its use may always find it within their reach, both as to places at which it may be found, and the low prices at which it is sold, and of all respectable Druggists.

ELIXIR OF HEALTH.

Symptoms like the following are sure to yield to use: sickness at the stomach, headache, dizzi-ness, palpitation of the heart, impaired appetite, metimes acid and putrescent eructations, col ess and weakness of the extremities, emaciation ness and weakness of the extremities, emaciation and general debility, disturbed rest, a sense of of pressure and weight at the stomach after eating, night mare, great mental despondency, severe flying pains in the chest, back and sides, costiveness, a dislike for society, or conversation, involuntary sighing and weeping, langour and lassitude upon the least exercise. To be had at No. 2 Fletcher-street, New York, and of all respectable Druzgists. ble Druggists.
DR, SPOHN'S

ELIXIR OF HEALTH. The leading points to theory upon which the great use of this Syrup is predicated, is that the stomach is the seat of all diseases of a feverish nature, and any disorder incident to the stomach is cured by this article. There is therefore no fever or cold, asthma, inflammation or debility, or sickness at stomach, (except with firmales, encenter), or dysentery, or jaundice, or dyspepsia, but what it will cure. The only thing is that people should be patient and depend upon it. For asthma it has no equal.

E. SPOHN, M. D.

Sold at No. 2, Fletcher-street, near Maiden Lane, and by all respectable Druggists.

DR. SPOHN'S ELIXIR OF HEALTH.

It has become a general practice with many to se this article in all cases of colds, pains in the use this article in all cases of colds, pains in the bones, or heavy disagreeable feelings, tending to headache or chilliness. For hoaseness, if taken through the day, it completely restores the voice without producing sickness. Whooping cough, and all coughs of children, are cured by it. The stomach is kept in perfect order by it, and it is quite impossible that any disease should commence while a person is using this Syrup.

The faken daily it produces a ruddy, healthy, and young appearance, by driving off all the humors of the system. Sold genuine at 2 Fletcherstreet, one door below Pearl st. New-York, by Comstock & Co., N. Palmer, Chemist & Druggist, Kingston, Upper Canada, and by all respectable Druggists.

OPINIONS OF THE PRESS.

"The various diseases to which persons are subject who proceed from this country to foreign climes, too often prove fatal, in consequence of unskilful treatment. We would recommend, in these cases, an excellent medicine, now well known as Spohn's Elixir of Health. In the West Indies Dr. Spohn performed some well attested cures, af-ter all other remedies had failed."
"Captains, merchants, and others proceeding on

a long voyage, cannot provide themselves with a more valuable companion than a medicine of exceeding worth and utility, known amongst all classes, high and low, rich and poor, as Dr. Spohn's Elixir of Health. Doctor Spohn has received the

maladies."

"The most popular and highly appreciated medicine in the navy and military circles, is an invention of Dr. Spohn's, known as the Elixir of Health. This medicine is deservedly spoken of as an excellent corrective, after the indulgences of the table threaten and produce those unpleasant 'next morning's reminiscences,' which never fail to annoy, worry and perplex the bon vivant."

"Medical men of the highest professional reputation, have strongly recommended, in all cases of

"Medical men of the highest professional reputation, have strongly recommended, in all cases of bilious affections, constipation of the bowels, and nervous and sick headache, arising from the overloading of the digestive organs, the use of this medicine as the best extant for relieving those who are laboring under the effects of these complaints. It is a most safe and efficacious remedy, and certain in its effects."

ta'n in its effects."

"Dr. Spohn's Elixir of Health is a medicine which its own intense worth will always secure for it a large and ready sale. It has deservedly a high reputation; and as a family and anti-bilious remedy it would be difficult to equal it among all the patent medicines of the present day. It removes all morbid humors and purifies the blood. Our belief its, 'keep your bowels and blood pure,' and every kind of disease will be prevented or cured. The Elixir of Health is eminently calculated to do this, and thereby much lessen the sum lated to do this, and thereby much lessen the sur of human misery."

of human misery."

"One of our men some time since, cave notice that he was not able to attend to the duties of his situation, in consequence of violent pains in his back and side. We recommended him not to despair, but to use Dr. Spohn's Elixir of Health. He did so, and it cured him perfectly. This is no puff. It is an actual fact. We know the medicine is good. We speak from experience."

"Dr. Spohn's Elixir of Health is a medicine well worthy the confidence of the public. The principle on which it cures disease is the same as that of Leroy, of Paris and Swedenaux of Germany. That all the variety of diseases proceed from, or are nearly allied to the disorders of the stomach and bowels, and that by using those remedies which restore to health those organs, the disease will vanish."

ASTONISHING.

"We were for a long time among the sceptical as to the efficacy of Dr. Spohn's Elixir of Health, so justly celeb-ated. A recent trial of it upon a friend of ours who was attacked with a most violent bilious cholic, has removed all doubts in our minds as to its being the very best cathartic that can be administered; and, believing so, we think we do the public a benefit in saying what we have of it."

d to any the ELIXIR OF HEALTH.

THE author of this article is very desirous that his views and assert one should not be misred ments and effects of so important a remedy. He will state a few facts on which the reader may most implicitly rely. They are true. It is a serted most solemnly and seriously, and the person who will investigate will find them invariable. On this assertion the author pledges his reputation, and character not only as a man and physician, but as a moral and correct good citizen. We repeat, this medicine is all it professes to be.

Gentlemen have told the proprietors often, that whether prudent or not they feel perfortly can always.

"This is a truism conceived by the master mind of Shakspeare, which neither sophistry nor argument can refule. To all those who are suffering from bil ous attacks, indigestion and flatulency, we would, in all sincerity, recommend as a nevertailing remedy, this Syrup. The testimonials we have had submitted to us in favor of this admirable medicine, fully justify our speaking of it in terms of the highest praise."

"My dear Sir—As you have requested my candid opinion of your Elixir of Health, I have much pleasure in stating that when laboring under a severe illness I took it by your advice, and am happy to say, that its action on me was in every way all thet! "Man, alas! too frequently neglects attending to his general health, until a long and dangerous illness compels him to fly to some medical man for relief. So satisfied are we, if every one who may read this would take cur advice, and give a trial of this medicine, so convinced are we of its efficacy in all bowel complaints, spasmodic and billous affections, flatulency, habitual costiveness, nervous and sick headaches, and all scorbutic humors; in short, in all diseases arising from an impurity of the blood, we are satisfied, if this Syrup was introduced into every family in the country, (and we have no doubt that it soon will be,) that the load of the same of the sam we have no doubt that it soon will be,) that the health of all would be wonderfully improved, and the pockets of every one considerably benefitted." "PRESERVATION OF HEALTH."

"It has been remarked, and most truly, that the three ordinary secrets of health are early rising, exercise, and personal cleanliness. Personal exercise, and personal cleanliness. Personal cleanliness all have it in their power to observe; but to many carly using is inconvenient, and exercise impossible, in consequence of the nature of their worldly avocations. To these the use of Dr. Spohn's Elixir of Health would prove of great value in the preservation of that invaluable blessing—health." PUBLIC

"SEASONABLE ADVICE."

"SEASONABLE ADVICE."

"'Take time by the forelock,' says the adage.

Take medicine at the proper time, say we. It is a matter of less difficulty to ascertain the proper time to seek relief from medicine, than it is to discover the proper medicine which is to administer comfort to the afflicted patient.
