As the persod is fast approaching when you will be called upon to elect a person to represent will be called upon to elect a person to represent the them the person of th

presentatives, and can only be remedied (for the present) by a protective duty; for however profitable the present system may be for speculators, mill owners, Forwarders, &c. &c., and however strenuous they may be in endeavoring to uphold and defend it, I am fully convinced that it is only done from narrow and selfish motives, and not for the general good and prosperity of the inhabitants of this Colony.

Gentlemen, in conclusion, permit me to notice the local affairs of, our District.—The last four years have placed us in no enviable situation, and leaves but a poor-chance for your future Representative doing any thing in the way of improving your condition. During the time I mention, Acts of Parliament have been passed, whereby we are saddled with a debt to the amount of fifty thousand four hundred and fifty pounds. The interest payable annually, or the whole amount in less than thirty years. Well, gentlemen, what has been the consequence? Our Taxes have already been doubled in order to meet the increased demands upon the District; and the burden falls upon a few comparatively speaking, as the most wealthy part of what, was our District, now forms the new District of Victoria—the inhabitants of which may well congratulate themselves on their good fortune in being set apart, as they are thereby saved from assisting in making good the wasteful expenditure of the District Yands. I am sure, gentlemen, that the management of our District affairs has convinced one and all of you of the necessity that exists for the establishment of elective District. Councils, responsible to you of the present, which is, I assure you, disagreeable to me, and will be, I fear, unpleasant to us all before we get through with it.
