NUTS FOR MILITIA OFFICERS,

From the New York Commercial Advertiser. PRELIMINARY PATRIOTISM.—The Commissary PRELIMINARY PATRIOTISM.—The Commissary General returned to this city this morning from a rapid visit to Auburn, to which place he was summoned on Sunday morning to fook after the interests of his department—it being stated that a piece of ordnance belonging to the state had been stolen from the arsenal at that place, by the so called Canadian Patriots. General Chandler states that the six pounder belonging to the state, and for the public service of Auburn, was stolen from the gun house one night last week. state, and for the public service of Auburn, was stolen from the gun house one night last week, as also was another piece of ordnance, belonging to a volunteer company of artillery, kept in another part of the town. The track of the gun carriage of the last piece mentioned was traced about eight miles, where it was entirely lost. No information could be obtained or either piece. An old man, residing near the arsenal where the gun belonging to the state was kept, states that hearing a noise in the night, he arose and on looking out, it being bright moonlight, he aw eight of ten men forcing the doors of the rsenal, and also saw them take away the gun. arsenal, and also saw them take away the gun. General Chandler has issued a proclamation, offering a reward of twenty five dollars for the gun, and a like sum for the arrest of the authors of the misdemeanor. Reports had also reached him at Auburn, that several other pieces of ordnance farther West, at Buffalo, had been stolen at the same time. But the intelligence was considered doubtful.

Since the foregoing was in type, we learn from the Auburn Journal of yesterday that two more pieces of ordnance are missing—one of them belonging to an artillery company in the town of Cato, and the other in the town of Scipio. The former was traced to the canal, but no farther. The Journal adds:—

former was traced to the canal, but no farther. The Journal adds:—
"Rumors are rife as to the object of this movement—and it cannot be denied that so long as nothing farther is known, a fine field is open for the play of the imagination. Is it possible, while all is peace in Canada, that some of their emissaries have laid hold of these war dogs for a time of need? or—which to us seems still more un-likely—that preparations are making for another "patriot" movement? In any event, it occurs to us that the proper authorities would do well to examine into the cause of these sudden disappearances, until the mystery is removed."
