THE CANADA COMPANY offer about Eight hindered Thousand Acres of their Lands imentioned in the printed List of this year, which are in Blocks containing from 2000 to 9000 and Superiority of Make has been studied. The Acres each, situated in almost every Township in Canada West, on terms, it is believed, the most liberal and advantageous that have yet been made public. By this new plan, the Company dispose of their Lands by why of Lease for a term of Tex Years,—

No Money being required down.

The Rents payable annually being only equal to the Interest upon the present usest value of the Lands—thus for example, suppose 100 Acres, being now worth 10s. per Acre is £50, the Interest thereon is £3, which latter sum, and no more, is the amount of Rent to be paid each year—ivil power being secured to the Settler to Purchase the Frechold, and take his Deed for the Land he occupies, at unusually low prices, also, Fine and Superficient at any time during the Lease, when most convenient to himself, at a fixed advance upon the precedupest price; and of course, thereby saving all future payment of Rents. Assuming the value to be as above, (10s. per acre,) the advance required for the Deed would be Is. 3d, if paid within the first five years from date of Lease—or 2s. 6d, per Acre advance, if paid subsequently and previous to the expiration of the Lease.

The Lands offered (excepting only the Park and Town Lets in Guells) was in the control of the Lease.
