THE above News paper, now enlarged Ten additional Columns, which was established in July, 1842, is regularly published at Kingston expressly for transmission by every Steam Ship sailing from any port in Britain to any port in the United States, and its leading feature is to give, as often as an account of every important event that has occurred in Great Britain, Europe, or Asia, in the interval between the sailing of each Steam Ship, whether in politics or commerce—a correct and comprehensive Shipping List, which will be found a faithful record of the arrival and departure of American vessels at and from all the British, European, and Asiatic ports—together with notices of such casualties or disasters as may from time to time occur—a complete Price Current, in which the greatest care is taken to give the latest reports of the various descriptions of American produce, from the most unquestionable sources—thus combining in one sheet, a Newspaper, a Shipping List, and a Price Current.
