R. LIBBY's BI I TERS are a certain cure of Dyspepsy and Nervous Affections; they are peculiarly adapted to remove these distressing complaints, not by constantly physicing, but by strengthening the system. No greater mistake can be made than to suppose that Dyspepsy, or any other disease arising from debility, can be cured by frequent forced action on the bowels with purgative med cines. Where these complaints exist the system is already too weak, and every additional das fonds to make it more so. The Bitters, on the contrary, acting as a tonic, strengthen the disgestive organs and assist them to perform their functions as nature designed. Hence it is found to be efficacious also in those diseases peculiar to famales, which arise more frequently from weakness than from any other cause. The aged and infirm of both seves, and persons of sedentary habits prone to costiveness, who have suffered from loss of appointe, have experience great benefit from them. In convalescence from fevers, and other acute disorders, it restores strength; and individuals afflicted with Nervous Headache, and other acute disorders, it restores strength; and individuals afflicted with Nervous Headache, and other dereagements of the nervous function, have been analyely cared by this remedy. DOCTOR ALLEN'S BALSAM OF HOAR OCTOR ALLEN'S BALSAM OF HOAR-HOUND, LIVERWORT & PLEURISY FOOT, for coughy, colds, consumption & liver complaint. Consumption is a disease often secretly farking in the system for years before there is the least complaint of the lungs; and in this stage at can be cured as eff. ctually and as certainty as any other disease. Let not persons delay the age of medicine, until their lungs are sensibly inflicted, but in due season resort to Dr. Allen's Balsam of Liverwort. This medicine has proved even the "Conquerer of Physicians," for which all mankind will have abundant cause to bless the hand of providence.

Respectfully, J. D. RICHARDSON, M. D. Weak Lungs and Loss of Voice Cured—Mary Eliza, eldest daughter of Colvin J. Adam had suffered from week lungs since the age of 11 years, had generally a cough, pale countenonce and loss of streng h; this weakness of lungs inleased until she was unable to speak a loud word. He medical adviser gave it as his opinion that she was in consum, tion, and that no reasonable hope could be entertained of her recovery. The first of last March she commenced using Dr. Allen's Bream of Hoathound, Livetwort and Pieurisy R ot; the effect it had upon her was astonishing; she regained her soice and health, and is perfectly free from all symptoms of consumption or weak sings. expelling worms from the system. The unexampled success that has attended its administration in every case where the patient was really afflicted with worms certainly renders it worthy the attention of Physicians.

The proprietor has made it a point to ascertain the result of its use in such cases as came within his knowledge and observation; and he invariably found it to produce the most salutary effects; not unfrequently after nearly all the ordinary preparations recommended for worms had been previously resorted to without any permanent advantage. This fact is a tested by the certificates and statements of hundreds of respectable persons in different parts of the country; and should induce families always to keep a vial of the preparation in their pressession. It is mild in its opperation, and may be administered with perfect safety to the most deficate infant.
