

to understand my position when I was
at your place. I was equally satisfied
that you would have shipped me in
your Butter, as it would be much to your
interests in the end - However, I trust that
you will make a start with me when you have
your next shipment ready.

Our local market is very firm, and when
dealers are in actual want & find what suits
them, they pay extreme prices -

Awaiting your favor

Yours truly
Nicholas Pitt
