THE FARMERSVILLE REPORTER.

NEWS CLIPPINGS.

What We See in Looking Over Our Exchanges.

Corn in Chicago is now worth 8½ cents more than spring wheat.

The number of convicts in Kingston penitentiary is 440, and decreasing.

Since the cholera commenced at Toronto 5,000 persons have fallen victims.

The Canadians won against the British in the artillery competition at Toronto on the 18th.

A young lady has made an arrangement at Accord, Ala., to marry a young man when Blaine is elected.

A paper balloon was picked up in Pittsburg with an inscription stating that it was sent up in New York, 441 miles away.

All policemen are not cowards. A Chicago officer was recently discovered at midnight in one of the worst quarters of that city fast asleep.

The Indian farmers on Pyramid Lake, Nevada, thresh their wheat by hand and winnow it in baskets, just as the Egyptians did 3,000 years ago.

A Mississippian ate 100 good-sized peaches the other day, just to see how many he could devour, and two days later he was carried to the cemetery.

The smallest paper in the United States is published at Glendive and is called the Star. It is a two-column weekly and the columns are less than an inch wide.

On Saturday last, for the first time in forty-seven years, there were no female prisoners brought before the police magistrate in the New York Tombs police court.

The oldest church of England origin in the United States is in the Isle of Wight county, Virginia, and it was built, it is thought, in 1632, and of imported brick. The thick walls and tower are still firm, but the windows, doors, and interior wood-work are gone.

The Catholic missionary authorities in Paris have received advices from Hong Kong stating that the Chinese have destroyed the Catholic chapels in the province of Canton, and 6,000 Christians in the province are homeless.

A Boston despatch announces that Hobbs has cabled to Ruddick for two new boats. This certainly looks as though another match with Beach was being looked forward to, and the many friends of the Canadian champion would be delighted to hear that such is the case. Should he row another race with Beach he will be nearly certain to establish his aquatic supremacy, and that is just what his many friends in Canada and the United States would like to see him do before he returns home.

There has been dug up at Echo, Umatilla county, Oregon, a fossil fish, which is one of the most beautiful things of the kind imaginable. On a piece of cream-colored stone appears the image of a fish six inches in length resembling a trout, in black flinty-looking stone, more perfect than it could be painted. The fine bones in the fins and tail and each rib are clearly defined, even the small scales can be seen plainly. The backbone is in relief and every vertebra can be easily counted.

The following is a sample of the many letters we receive for our Lamb's Lubricating Lubricant, and shows to the public its value as fast becoming known abroad as well as home. One bottle will convince the most incredulous of its wonderful curative powers:—
Lancaster, June 20th 1884.

Mr. J. P. Lamb,
Dear Sir: Please send me one dozen of your L. L. Lubricant as soon as possible, as I intend going away soon and I want to take some with me. It is such a good medicine to keep in the house for almost every complaint or accident. We think it will cure almost anything, and have us you know, and if a long time, always gives us the most satisfaction.

Mother is troubled with the rheumatism, and it always helps her, and the only thing she ever got to give her relief. We would not be without it for good deal and hope it may become known that it may give relief to my sisters.

Yours truly,
ASSIE J. NICHOLSON.
