THIS ORIGINAL DOCUMENT IS IN VERY POOR CONDITION

THE FARMERSVILLE REPORTER.

NEWS OF THE WORLD.

All the important events of the week ending on Tuesday evening.

BOILED DOWN TO A COLUMN.
Gen. Grant refuses to accept a pension.

Mr. Cleveland will not visit Montreal carnival.

Another Canadian voyageur has been drowned on the Nile.

A farmers' convention under the direction of the professors of the Agricultural College, Guelph, will be held at Kingston early in January.

The people of Sharbot Lake are getting alarmed about smallpox, it being rumored that there are two cases of the disease within ten miles of that place.

It is said that a leading Toronto firm have expressed the intention, should the B. W. & S. S. M. railway go on, to try and secure and reopen the Lyn tannery.

At the meeting of the mission board of the Ontario diocese recently, to which was referred the subject of the division of the Ontario diocese, recommended that one-third of the present episcopal fund go to the proposed new diocese of Ottawa, that \$20,000 be raised in the Kingston district to make up this amount.

Prof. L. B. Arnold says a dairy farm costs ten per cent. less to operate than grain-growing or mixed agriculture; second, the mean returns average a little more than other branches; third, prices are more uniform and more reliable; fourth, dairying exhausts the soil less; fifth, it is more secure against changes in the season, since the dairyman does not suffer so much from the wet and frost and varying seasons, and he can, if prudent, provide against drought.

Farmers who are in the habit of feeding scanty rations to their stock, will have observed that they usually lose more flesh before New Year than during all the rest of the winter months. It takes an animal some time to become accustomed to changes of circumstances, especially amidst sudden extremes of temperature, food and other conditions. Stock well managed through the first two or three months of winter, will require little attention afterwards.

Mr. Vennor's general forecast for the fall of 1884, which certainly has not been far astray, is as follows:—From all appearances we are at present in a very moist period, which, I believe, will continue for about two years, both in the United States and Canada; Europe will also be affected. The fall of 1884 is likely to be open and a mild unsettled winter will follow, with a great deal of downfall in the shape of snow and rain. I look for a green Christmas and a mild New Year, 1885. Snow in the fall will be late in coming, and in many sections the year will close with very little of the beautiful on the ground. It is believed that carnival week will open with fine cold weather, moderating to snow or rain, and the month of January will close windy and mild.
