Mow to Dress Well. There never was a time when bad taste could so casily make a caricature of a woman. Is behooves all women to make a baked potato, cold, one ounce of sweet careful and conscientions study of the principles of taste in dress unless they are careless of the impressions they make upon their friends. Snort women should have their street dresses and mantles of the same color, as a wrap of contrasting color seems to out the ngure in two, and takes from the apparent height. A long, elender wrap, covering the wearer from head to foot, is becoming to short figures. They should have also lengthwise trimmings on their dresses. Tall figures, on the contrary, should have bands of trimmings around the figure, such as a border of fur or plush or braiding at the foot of the skirt, while a panel in front or on one side may be made of crosswise rows of Slight women look best with a little puf. fing on the tournure, and with some length-
