was sent to Ontario for burial. Mrs. Rebecca Hendricks, a sister-in-law of Mrs. Ryckman, was visiting at the lat ter's residence, in Thedford, between Christmas and New Year's Day last. On the evening previous to New Year's Day, abou 8 o'clock, and two hours after having had a hearty supper, she was taken violently sick and complained of intense pains in the re gion of her heart and across her stomach Medical aid was summoned, but nothing could be done to save her life. She died on the afternoon of New Year's Day. With the object in view of clearing up other suspicionsagainst Mrs. Ryckman while in Canada, Dr. W. Cornell, of Thedford, coroner empannelled a new jury and the remains of Mr. Hendricks were taken from the grave in the Arkona cemetery and a post-mortem held. The testimony given was strongly suspicious. The inquest then adjourned The case as it stands at present is simply this: If no poison is found in the viscera will be extracited and taken to Virginia; but, on the other hand, if the jury in this case find sufficient evidence to convict, she will appear at the Lambton Fall Assizes. In 1876 the prisoner's husband was taken suddenly ill and died. He was not in bed a day during the sickness which caused his death. About three years later a son-inlaw of Mrs. Martha Ryckman also died under suspicious circumstances. His name was John Haskett. By his death, his wife, who was consumptive, and did not long survive her husband, came into considerable property. Mrs. Haskett, when she died, left the property to the prisoner to use for the benefit of an 18-months old girl she (Mrs. Haskett) left. The child died about 18 months after its mother, and Mrs. Martha Ryckman came into the property. A gentleman in Arkona anid to a correspondent to-day : " There are eight bodies, members or connections them Mrs. Martha Ryckman derived some financial benefit.
