

RECEIVED FROM OUR OWN CORRESPONDENTS DURING THE PAST WEEK. New Dublin. The large circular saw in Mr. Byron Caldwell's mill broke the other day, entailing quite a loss upon the proprietor.

FARMERSVILLE AND VICINITY. Our Reporter's Note Book Turned Inside Out for the Benefit of the Public. Mr. Isaac Cornell, of Canton, N.Y., gave us a pleasant call on Saturday.

Mr. P. Wiltse has a handsome new top buggy to sell. It is first-class in every respect, and was built at Gilroy's Carriage Works. Go to A. Parish & Son for Oils, Raw and double boiled paint, oil, Peccol machine oil, black machine oil, cylinder oil, castor oil, &c.

The Rev. Mr. Ferguson is in town this week, visiting his sister, Mrs. W. Tappin. He preached a good, plain, practical sermon in the Methodist church on Sunday evening. Miss Jennie Westlake of London, Ont., was visiting at B. Loverin's this week. Miss Westlake has been attending the Ottawa Normal School, through which she passed with honors.

A very interesting meeting in connection with the Presbyterian Church, was held on Thursday evening, at which, after devotional exercises conducted by the pastor, he introduced Mrs. Blair of Detroit, and Mrs. Parson of Kingston, the former of whom is President of the Women's Foreign Missionary Society in connection with the Presbyterian of Belleville. Both ladies were here attending the convention of the W. C. T. U., which held its sessions in the village on Wednesday and Thursday of last week.

Mr. Jos. Stacey has resigned the office of postmaster, and Mr. John Johnson has been appointed in his place. The office has been removed to the latter's residence. Three of our citizens took a trip to Hartness Lake last week, and stayed two days. They had fairly good luck fishing, but the mosquitoes did most of the hurting.

Mr. Bernier, of Gananoque, was found of crystals that he said, were of a mineral water from the well on Mr. Grant's farm, Wolfe Island.

Uncle's Chestnut Hill mare has a young foal that is a living curiosity—jaw legged, con footed, hog headed, camel backed and goggled eyed. But there is hope in future that it will be a trotter. It was sired by young Backladd, of Mud Creek, by young Snapping Turtle, of the old Rosaport stock farm. Young Backladd's dam was sired by Alf. Avery's Hickory Whip-o'-will Punch. This colt's future looks very promising. Uncle says Young Warrior is nowhere.

On last Thursday, as Mr. Omer A. Willoughby was assisting Mr. Simeon Loverin to remove the piping from his well, the chain slipped, letting the pipes fall with such force that the lever against the side of his head, rendering him insensible for some time. Dr. Cornell was summoned, and pronounced it a very close call. He said that if his patient had been struck one inch higher death would have been instantaneous. Mr. Loverin is recovering. Mr. Willoughby sustained a few slight injuries.

As Hudson Davis was returning home from the village one day last week, his horse, a very high spirited animal, became unmanageable and ran away. Huts got quite a shaking up. The road work in this division is completed, under the supervision of S. Y. Smith. We never saw as good a job done in this division as this year. Sam says it is better to say "come boys" than "go boys." He is the right man in the right place.

"Haw-rav!" for the great Jubilee Picnic at Ballycane on the 23rd inst. O. L. Potter has put a new set of bolts into his flouring mills. Some parties will go into camp at Graham Lake this summer. Some very fine fish, bull frogs and snakes are to be seen in those waters. That very popular blacksmith, R. Manuel, is at present in the employ of S. Andrews, Pleasant Valley. Strawberries are almost a failure in this township. The vines are infested with a rust, and the berries will not as a general thing come to maturity.

A highly successful social gathering, under the auspices of the Presbyterians of this place, came off in the public hall, on Friday evening. There was a large attendance of residents and friends from the surrounding neighborhood. During the assembling of the audience, the village band, under the leadership of Mr. Jas. Malroy, played a selection of suitable music, in the open air. The meeting was called to order by the Rev. Jas. Pullar, who asked the Divine blessing, after which an abundant supply of ice cream and more substantial refreshments were served. Mr. Conly was called to occupy the chair, and gave a brief congratulatory address. The programme which followed was an excellent one, embracing readings by Miss Annie Malloy, Miss Smith, Mr. Wm. J. Herlison and recitation effectively delivered by Dr. Shaw. The musical portion of the programme, vocal and instrumental, was contributed by the Messrs. Horace Triffin and Ira Thompson. During the evening, brief addresses were given by the Rev. Mr. Sanderson, of the Methodist Church, and the minister of the congregation, the Rev. Jas. Pullar. The Rev. Mr. Conly was also present and took part in the proceedings. A hearty vote of thanks was accorded to the ladies, and to all who by their valuable services, contributed to render the entertainment such a gratifying success. The entertainment was brought to a close by the singing of the National Anthem.

Mr. Jos. Stacey has resigned the office of postmaster, and Mr. John Johnson has been appointed in his place. The office has been removed to the latter's residence. Three of our citizens took a trip to Hartness Lake last week, and stayed two days. They had fairly good luck fishing, but the mosquitoes did most of the hurting. The quiet of our peaceful neighborhood was disturbed on Friday morning last by a row at the mill. The present proprietor objected to the removal of some property claimed by the former owner, and the latter, intending to gain favorable possession, a general scrimmage took place in which a manure fork was freely used by both parties. The "King" who was present, but not taking any part in the disturbance, accidentally got a blow from the fork. "Bub" who was taking a lively interest in the row also received one from the same weapon.

While "Charlie" was trying to shut off the wind of his opponent he had a brogan planted in the lower part of his diaphragm which shut him up for a few moments but he soon recovered and was in as the finish as lively as ever. The proprietor of the mills developed a wonderful amount of energy for an invalid and proved himself to be a bad man in a row. The claimant of the property in dispute came out of the battle badly scratched and receiving a terrible blow on the head and was in a fair way of getting more when a bystander interfered and peace was restored. One of our oldest inhabitants says that there has not been such a row in this vicinity for 40 years, and no doubt it reminds him of "ye olden times."

The Mechanic's Farming Syndicate, which recently came in possession of the Bell Farm, jr., and adjacent grazing lands, for practical farming, have had difficulty in getting a sufficient number of laborers to do the work required. The president promptly applied for and secured outside labor to protect the corn and other valuable crops. This caused the "green eyed monster" to move quickly in the ranks of the local unions, who loudly protested against the Chinamen, made a cruel raid on the camp, and abused the occupants shamefully indeed. The worthy president feels the insult keenly and offers a liberal reward for the union men who set fire to the camp. The young people of our town are enjoying heaps of fun at the expense of one of their number, a young man who is said to be rather fast for one of his age. He hooked up the "Old man's" horse and carriage a few evenings ago fondly hoping to enjoy for an evening's drive, the company of a fair young maiden. But alas! how soon those fond hopes were doomed to be blasted. The young lady very properly consulted her mother, who advised her daughter to escort the young gentleman to the music room and play for his benefit "Sweet Bye and Bye" to be followed by "Home, Sweet Home."

Jubilee day was generally observed as a public holiday here, many of the people attending a fishing picnic on the beautiful waters of Charleston Lake. They enjoyed the trip very much and returned home highly pleased with the events of the day, hoping that her majesty the Queen may long live to rule the nation with joy and peace.

Up in the mountains about Marietta, Ga., we came across a tall, bare-footed, bare-legged girl, apparently about twenty years old, who sat on the ground in front of a log cabin with her feet in a sand pile. She made no move to get up, and the mother, who came to the door as we rode up noticed her and yelled out: "Sarah! Sarah!" "What?" drawled Sarah. "What's yer manners?" "Hain't got none!" "Oh you hain't! Gerts, exp'ise me." She picked up a limb and started for Sarah. Sarah jumped up, got a whisk on the back as she dodged a stump, and as she sailed over the brush fence in front of the house the limb took her again with all proper energy. "No, she hain't got no manners, and that's so," said the mother as she flung down the weapon and came back to us. "I want her to chop wood and hoe corn and read Shakespeare, and the old man he wants her to trap and shoot and learn Latin, and betwix the handling and pulling, we've got her manners all upset."

In the general distribution of Jubilee titles Lord Lansdowne, it is said, had offered a Dukolom. Mr. Butler, the engineer sent out to make the preliminary survey of the Gananoque and Perth Railway, has finished his work, and reports that there are no engineering difficulties whatever along the proposed line.

At the residence of the bride's mother, on the 15th inst., by the Rev. Jas. Pullar, J. Herlison and recitation effectively delivered by Dr. Shaw. The musical portion of the programme, vocal and instrumental, was contributed by the Messrs. Horace Triffin and Ira Thompson. During the evening, brief addresses were given by the Rev. Mr. Sanderson, of the Methodist Church, and the minister of the congregation, the Rev. Jas. Pullar. The Rev. Mr. Conly was also present and took part in the proceedings. A hearty vote of thanks was accorded to the ladies, and to all who by their valuable services, contributed to render the entertainment such a gratifying success. The entertainment was brought to a close by the singing of the National Anthem.
