

THE REPORTER.

H. LOVELL, Editor and Proprietor.

Guaranteed Circulation, 600.

FARMERSVILLE, JULY 5, 1887.

IMPORTANT NOTICE.

At the request of a large number of our subscribers, we have concluded to change the day of publication...

LOCAL AND OTHER NOTES.

From the Pen of our Own News-Gatherer.

The Addison threshing Syndicate will meet at O. P. Arnold's on the evening of July 6th.

Miss Bertha E. Loverin left on Saturday on an extended visit to friends in Iroquois, Lisbon and Ogdenburg.

A spurious ten cent piece was placed on the collection plate during morning service in the Methodist Church of Sunday last.

Lamb's Diarrhoea cure never fails, when taken according to directions and is perfectly safe for grown persons or children.

"The Past, Present and Future of Farmersville," a poem from the pen of Eng, the Farmersville boy, will appear next week.

The rush of tourists to Charleston like has fairly set in. Every available cottage is occupied and there are daily enquiries for rooms at the hotel and at King's summer resort.

Mrs. Dr. J. D. Stewart and daughter of Toronto, have been visiting relatives and friends here for the past few days, part of the time as guests of Mrs. Armstrong at Charleston Lake.

Mrs. Dr. Chamberlain, Mrs. Judd, of Morton, and Miss Jennie Hartwell left on Monday, for Morrisburg to be present at the silver wedding of Dr. and Mrs. Chamberlain, of Morrisburg.

Owing to unavoidable causes, we were unable to get this issue out on Tuesday morning as promised. Next week, however, we hope to be able to go to press in time for the morning's mail.

This is the season for green vegetables, which induce cramps, summer complaints, cholera morbus, diarrhoea, &c., &c., and the safest, surest and speediest remedy is Lamb's Diarrhoea Remedy. 25c. per bottle.

On Monday evening we noticed a splendid new dog cart driven by A. Armstrong, which he has just added to his already extensive livery. Mr. Armstrong has now one of the best equipped liveries in the back country.

The very bad light in the Methodist Church has been the subject of comment by those who have attended that church the last two or three Sunday evenings. The total absence of light in the galleries is too old a subject for comment.

The Driving Park track has been put in first class condition, during the past few days, and the stables are nearly all engaged. Wm. J. Lyons, the driver of Nettleport, will be here next week and take charge of the track and stables.

On Saturday last, Henry Maud, of Pine Hill, Lansdowne, had the misfortune to have two cows killed by lightning. They were in an orchard near the house and were not discovered by Mr. Maud, until he went to drive them up to milk.

We see by the Globe that although the Massey Manufacturing Company, of Toronto, made 2,000 of their all steel frame self-binders for this season, they are all sold and they are working overtime in order to get out 600 more, which are already ordered. Our local agent, Mr. Thos. Bernay, has already to order orders booked for this season, with good prospects of selling quite a few more if he can get them from the shop. Last season it took over two tons of twine to supply the machines sold by Mr. Bernay.

The case of Inspector Phillips, against J. P. Lamb, Druggist, of this village, for infraction of the Scott Act, was tried in the town hall on Wednesday last, before J. C. Judd, P. M. A. A. Fisher appearing for the prosecution and Mr. Lamb defending his own case. Between fifteen and twenty witnesses were examined for the prosecution, who all swore pointedly and positively that they had got no liquor at the drug store except on a doctor's prescription. The case was therefore dismissed.

A citizen of Farmersville told his wife recently that he had sailed across the briny deep, had visited all the large cities on this continent, and in all his wanderings to and fro he had never seen such a beautiful assortment of Tweeds suitable for Boys Clothing, as at Bulford's Tailor Shop, in the Parish Block, nearly opposite the Gamble House, Farmersville, and that in future he was determined to patronize "George" when wanting anything in the Clothing Line for the boys or himself.

On Friday last, Isaac Robeson received word of the dangerous illness of his brother Horatio, who was for many years a well known resident of this section, but who has been living at Norfolk, Jeff. Co., N. Y., for a number of years past. For nearly two years Horatio has been very poorly, and having become deranged, he was sent to an insane asylum. A few weeks ago his wife received word that as he could not possibly live but a short time he had better be taken home, which was accordingly done, and his friends notified of his condition. At latest accounts he was still alive.

We are pleased to announce that next week we will make a new departure by commencing the preparation and insertion of a number of biographical sketches of some of the most prominent citizens of this section. These biographies will be illustrated with portraits, gotten up expressly for us by the Toronto Engraving Co., and will differ from those found in the pages of our contemporaries as they will be portraits of persons who have a "local habitation and a name" amongst us. We expect to occasionally vary these sketches with cuts of several private residences and factories in this section. The illustration next week will be a portrait of W. M. Johnston, M. A., late Head Master of our High School, and now one of the School Inspectors for Leeds.

On Thursday last, Dr. C. M. B. Cornell removed a solid ovarian tumor, weighing 30 pounds, from the body of Mrs. John Johnson of Morton, from which she had been suffering over fourteen months. Owing to its having grown to other organs the operation was very difficult, requiring three hours for its removal. Our report was allowed to inspect the tumor after its removal, and the very thought of having such an operation performed in our midst was enough to cause a shudder to pass over him. The fact however that we have in this town a surgeon of such skill that persons similarly afflicted can obtain relief without going to the city hospitals to be operated upon; is a high encouragement upon the skill of Dr. Cornell. The operation was performed at the residence of Frank Blanchard, Sarah St., where the patient now lies, and at the time of going to press, is improving as rapidly as could be expected.

The people of Farmersville do not seem to take kindly to the show business, or at least a portion of them are disgusted with the free and easy life under canvas. This spring, when the Great Hypolympian of the Lewis & Lambert young men wiped the dust of the village from their feet and went out among the great unwashed to assist in showing them tricks that were wonderful and sights that were amazing. But, alas! is a few short weeks the whole scene is changed. One evening about two weeks ago the advance agent quietly folded his tent and stole into the village under cover of the darkness, being anxious no doubt, to veil his retreat from prying eyes. On Saturday night another of the embryo showmen drove from about thirty miles out in the wilderness, beyond Perth, reaching home about daylight on Sunday morning. He did not come because of any tired feeling, but, being a dutiful son, came home to see his ma. The canvas manipulator is hourly expected by his anxious spouse and the rest of the family, and latest reports say that he too will again settle down in our midst, never again to be tempted away by the gloss and glitter of the Hypolympian.

REPORT ON THE TOLL ROAD.

TO THE PRESIDENT OF THE FARMERSVILLE PLANK ROAD COMPANY.

Sir: In accordance with the directions from H. S. McDonald, Esq., Judge of the County Court of Leeds and Grenville to examine the Farmersville Plank Road and inspect the same pursuant to Chap. 12, Revised Statutes of Ontario, and the act amending the same, I beg to state that I have examined the said road and found it in need of repair in several places, but not in such a way as to impede at the present time Her Majesty's subjects and others travelling thereon, as the travelled portions are not on the road bed proper in many places. That portion of the road commencing at or in the village of Farmersville and ending at Youngs, and running easterly to the toll gate on lot 12, of the said township, should be covered with a good coat of broken stone, to a depth of at least three inches.

From the toll gate easterly on said road allowance to lot No. 9, there are portions which also need repairs and require broken stone to the same depth, more especially in the vicinity of the creek, which feeds the Saunders saw mill. The road between the said mill and the toll gate, which is a gravel road, and is in some places in need of repairs, and requires either broken stone or gravel. The latter would probably do, on the road allowance between lot 6 and 7, and on lot 8, there are at least three places which need repairing, the portion south of the concession line being the worst and requiring stone. A good coat of gravel might answer the other places, but stone would be preferable. From the place where the road crosses the creek to the toll gate, there are only a few places which need repairs, and a quantity of gravel would answer; but there are two culverts which are closed up and require rebuilding.

It is said that the bridge crossing the creek at 2 1/2 miles requires to be raised a foot on account of ice jams in spring freshets. In my opinion it would be well to do so; but not being personally aware of the facts, could not now insert on raising it to the specified height. The road on each side of it, however, requires considerable repairs, and should be filled with broken stone.

From the easterly to the town line there are portions of the road bed which have sunk and should be filled up with broken stone, and the same remarks may apply to places along the road from the toll gate on the western boundary of Grenville to Unionville, but at a heavy coat of gravel may be sufficient for the latter portion.

I call your attention to those portions of the said road requiring repairs, but a good road will not do, unless you examine carefully and find out the places which need the necessary repairs.

In accordance with the said act I therefore require you to take notice of said repairs, and cause them to be performed on or before the tenth day of September next, at which all the necessary repairs can be performed in that time. Respectfully submitted, JOHN BURCHILL, Engineer.

thorough repairing will satisfy the requirements of the traveling public and they are determined that their protests shall be heeded, and the sooner the managers wake up to this fact the sooner will they gain the good will of the traveling public, and save themselves the expense of having an engineer sent over the road to tell them their duty.

If country newspaper proprietors were to publish the names of the subscribers who take, read and enjoy, and are gratified by, yet refuse to pay for their home papers, the reputation of most communities for moral honesty would depreciate 20 per cent. An editor's labors are seldom esteemed or compensated. A lawyer will give you five minutes' advice on a topic and charge you \$5 for it. An editor will give advice on a hundred topics and charge you five cents a copy for his paper. And very often five cents given to an editor would save \$5 given to a lawyer. In fact no other business men are so universally robbed and swindled out of their labor and capital as the country newspaper publisher.—New York Sun.
