COMPETITION IN CANADA.

They had met increased competition between Montreal and Peterboro' to a greater lines, they had £11,500 more than in the corresponding period last year. In the present half-year they had so far done

portant work, and would add to the safety their financial resources to the smallest degree. They hoped to carry on this great work without encumbering the resources of the company. The construction of the Montreal station had been delayed, but the directors were anxious to hurry the work on before winter. The city was now doing what it ought to have done before, namely, making a dyke to keep out the river. Negotiations were proceeding to enable the company to place their rails along the dyke. Last winter was a most extraordinary one, as he had said, and it was, therefore, all the more creditable to their officers

that they had been able to reduce the working expenses to 70 per cent. THE CANADIAN PACIFIC.
