Protest Against the United States. A Port ou Prince (Hayti) despatch says; As this despatch is being written, the deposition of Legitime by the dissatisfied citizens of the capital or by the advancing victorious troops of the North under Hypolite, appears to be shorely expected by all He has thrown into prison all prominent citizens and residents of the North in Pure

an Prince suspected of opposing him.

Three battles have been fought and loss by Legitimeists in the past ten days. The irst, near Hirobe, was the most dissatrous. Is was followed by an engagement on December 22od, a few miles northeast by road from here. During the rapid retreat on the copital two divisions of the Southern army under Gen. Sanflein Paul and Gen. Rose deserted to the pursuing Northerners. Both these generals had supported Gen. Thelemaque, but had been bribed by Legitime to support him with their armies recruited in the Central and Northern departments. Gen. Paul was captured and abot by sentence of a drumhead courtmartial under Hypolite. Gen. Ross escaped and sought protection at the French Minister's at Port au Prince. A stand was made the next day at a rising kooll of ground by the dispirited army of the South, but they were able to stand but a short time against Hypolite's assaults.

The army of the North are entreuching themselves some twenty miles from Port au Prince, completing their lines of communication, reorganizing their augmented army and awaiting the arrival of recently purchased arms and munitions of war. They are also devastating the great agricultural section where they are now on camped and from which Legitime received she greater portion of his supplies.

Gen. Hypolite, having been elected and declared Provisional President by the Central and Northern departments, on his high pitch of excitement the inhabitants of this section, and hence Legitime is imrevolt against him. He is showing great activity in securing " volunteers " through press gangs, who seize the laborers in the fields and bring them to the barracks, frequently in chains, to prevent their escaping.
