Horrible Scenes -- Many Passaugers Murt --The Train a Wrook.

the collision on the New York, Fennsyls vania & Ohio Railway: At 2.27 o'clock this morning train No. 8, east bound, rounding the sharp curve a mile and a half cast of Talimadge, came suddenly upon a part of freight train No. 81. There was a dence fog, and this conspired with other things to make the accident beyond human power to avert. Engineer Robert Hunting-ton had just the figures gained steadily by force. When the figure broke out fir. McWade had just finished supper and was not got an observation for some days and did not exactly know his whereaboats; but he thought he was considerably south of the thought train No. 81. There was a thought was of his children, and he darted upstairs and supper and was did not exactly know his whereaboats; but he thought was of his children, after the little ones had been put to bed. His first thought was of his children, and he darted upstairs and suppered in getting them all out of doors safely. Then he and several neighbors formed a bucket the rest of the watch soon following. ton had just time to reverse his engine brigade, but the flames gained steadily when the dreadful grash came, and in an instant he yielded up his life. The freight was heavy, and while it was clintbing the grade a coupling parted about the middle the property next door. There is but one of the train. It was decided to resert to the common expedient of doubling up. Fingmen were sent out, one to the east and another to the west, to warn any approaching train. Brakesman Bradley, an old and experienced railroader, was sent ahead to fing the east bound ran upstairs through flame and smoke and to resert to the property next door. There is but one fire company in Wayna. It owns no engine, but has a line of hoss. The company in wayna. It owns no engine, but has a line of hoss. The company is wayna.
