A BAND OF MASKED ROBBERS Compel Their Victims to Give Up Their

Money by Torturing Them With Fire. A last (Tuesday) night's Uniontov n. Pa. despatch says: McClellandtown was terrorized last night by five armed, masked robbers. They entered Farmer Anderson's house and demanded his money. He protested he had none. They placed hot coals to his feet and compelled him to give them \$30, all he had. They then ransacked the house, but finding nothing of value rode off. They next visited Farmer Lilly. The old man said he had no money, and the desperadoes tied him in bed and set fire to it. Lilly begged for mercy and finally gave up \$130. He was unbound and the fire extinguished . A fruitless search of the house for valuables followed, after which the robbers went to the house of one Grove. The latter was put through the same torture, but had no money and after thoroughly ransacking the house the party left. They then visited the house of an old wilow named Keeler. They bound and gagged her and threatened all manner of torture until she gave them a pension cheque, which they returned. Finding nothing here they rode off into the mountains, Sourishing their weapons. The gang is believed to be the same that robbed Farmer Core, of Franklin, on Saturday, of \$300. The residents of Fayette County are greatly excluded, and armed parties will be organized to capture the robbers.
