The Fat Man's Funeral.

A single story red house on Hart street, Elmira, was on the 19th of June the scene of a remarkable funeral. John Lawes, the fat man, who weighed 640 pounds, was the biggest man in America, lived there a number of years, and died there on 17th. Many ourious people went to see him in life and a crowd stood around the little house and trampled over the lawn in a fruitless attempt to see the face of the dead. The casket could not be taken through the door, and a carpenter sawed out the side of the house. Twelve men carried the cosh a out, placed it in an open wagon, and it was drawn by two horses to the cemetery. Sexton Abbot had prepared a grave that looked like a cellar. Two oak planks were placed across itshe hold the cashet. Mrs. Lawes and her five children wept while nine stalwart men lowered the collin into the grave, which was 42 inches wide. The average grave is only 23 inches.
