Mother and Home, The mother is the heart of the home. She it is who determines its characteristics, and diffuses through it that subtic atmos phere which every sensitive person can feel when introduced into the home circle, and from which can quickly be in' red the ruling spirit of the home. There an be no doubt that the most effective training for children is parental example, and this truth the mother needs constantly to bear in mind. How can the impatient, quarrelsome, fault finding mother teach patience and kindness and form good tempers? How can the mother greatly absorbed in soping up with the pomp and vanities of life, enger for the place and show, teach her children the true principles of a happy life? How can the selfish mother teach generosity, or the dir
