A.Romance of Georgian Life CHAPTER L.

The Joyners, besides fifty negroes, owned a Thousand acres of Ogeechee bottom land, extending southward to the Mays, who, with na many slaves, paid taxes on over thirteen hundred scree. The mansion of the former, square, two storied, with attic, was situate a few rods from the public thoroughfare leading from Augusta on the Savannah, through Gateston, the county seat, to Milledgeville, then the capital of the state. In a similar house, with a somewhat more tasteful piazza, a mile below, a little removed from a neighborhood road extending down the river bank to the Shoals, dwelt the Mays. Equidistant, near the Gateston road, were the Dosters, in their story-and-a-half house, who, with a dozen slaves and about three hundred sores of land, rolling and much thinner than their neighbors', were doing felt a double disappointment. Yet they at least as well as could have been expected. The Joyners and Mays had been intimately friendly always, and no neighbor had ever balieved himself so dull a prophet as not to have fereseen, long before William and faculty and students, because he deported Harriet May and Hiram and Ellen Joyner were old enough to be thinking about sweet-hearts, that those two families, that those two families, that those two families, the those two families, the those two families, like their face on occasion would light into reduces as goddess.

The heads of both these families had decensed. So had that of the Dosters, the last, besides his widow, leaving Thomas, lately grown to manhood, and two younger children. Henry Doster was son of Tom's uncl who dwelt several miles beyond Gateston and whose estate was somewhat larger than that of his deceased brother. Everybody, his parents, even himself, had been expecting, ever since he first entered college, and until just before he was to leave, that he was to become a lawyer. But about a ouple of months before graduation, at the head of his class, during a revival meeting of the Methodist church in Athens, the seat of the state university, he, who always had been piously inclined, became con vinced that he had a call to the sacred ministry. His parents, not church members, but rather affiliating with the Baptists, loved and respected him too well to complain. He was as gentle as he was handsome and gifted. While in college he had the good fortune to be popular both with face on occasion would light into redness as decided as over painted the fairest cheek. When he was in animated declamation his form of five feet ten swayed with a grace more engaging because unstudied, even unconscious, and his voice, at all times sweet, rang sonorous and true as a clarion's. His college mates had prophesied for him an eminent career at the bar, and many felt regret more than surprise at the course which, suddenly, as it seemed, he had resolved to pursue. At Commencement he made his modest valedictory with much eclat, smilingly bade adieu to all his associates and acquaintances; then returned
