NATURE'S REMEDY
TAMARAC ELIXIR!
A Certain Cure for Coughs, Cold, and all Throat and Lung Complaints.

The proprietors of Tamarac Elixir, having unbounded confidence in the merits of their Great Nature's Remedy, ask all who are afflicted with coughs, colds or pulmonary troubles to give it a careful trial, feeling convinced that none but beneficial results will ensue, a careful perusal of the following testimonials is also requested. We might have given many more equally as strong, but our space is limited, and the following are sufficient to demonstrate that Tamarac Elixir is all that is claimed for it.

What One Dose Did.

Mr. Charles H. French, Brockville, Ont. states:—I was so hoarse I could not speak above a whisper. The first dose restored my voice. For hoarseness, coughs, and colds it cannot be too highly recommended.

A Household Necessity.

Hiram Baker, lumber and cheese dealer, North Augusta, Ont., says:—Tamarac Elixir is a wonderful medicine for coughs and colds, throat and lung complaints. It is without doubt the best medicine I ever used and never fails to give immediate relief. We consider it a household necessity.

Completely Cured.

Easton's Corners, Ont., Aug. 8th, 1887.
DEAR SIRS:—I have used your Tamarac Elixir for coughs and colds and I find it the best cough medicine I ever used. One bottle completely cured me of a very bad cough. I have also used your Nasal Balm for catarrh and believe it to be the best medicine now before the public. Yours, etc.,

ATHENS, ONT. JAN. 28. 1890.

LOCAL SUMMARY.

ATHENS AND NEIGHBORING LOCALITIES BRIEFLY WRITTEN UP.

Events as Seen by Our Knight of the Pencil—Local Announcements Boiled Right Down.

Mr. Beatty has commenced surveying for a plan of the village.

There are at present 25 bodies in the Athens vault, 13 males and 12 females.

A market train that carries nothing to market is about as useful as a motor that wont "mote."

Mr. Jas. Ross has let his gallery to an experienced photographer who will commence business here next week.

The village council will meet for the transaction of business at the town hall, on Monday next, at 8 p. m.

At the Methodist Sabbath School on Sunday last there was an attendance of 241, made up of 102 males and 139 females.

On Tuesday, 4th of February, T. P. Moffatt, of Rockspring, will sell by auction four horses, cutter, buggy, etc. Sale at 1 p. m.

Rev. J. J. Wright, B. A., who has accepted a call to preach at Lyn, conducted service here on Sabbath last and very favorably impressed his congregation. He is an eloquent, earnest preacher of the word, and Lyn is to be congratulated upon having secured so able a man.

On Sunday morning the funeral of William Broad took place from the residence of his daughter, Mrs. Geo. Slack, to the Methodist church where Rev. Mr. Wilson conducted service after which the remains were placed in the vault to await interment. Deceased was ninety years of age on last New's Year's day.

The many friends of the Misses Madden in this place will regret to learn of the death of their father which occurred suddenly at Delta on Sunday. For past two years Mr. Madden had been suffering from an affection of the nerves. The funeral took place this (Tuesday) afternoon and was attended by a number of Masonic friends from Athens.

Rev. Mr. Stevenson, of Brockville, who died on Wednesday last, was interred at that place on Saturday afternoon. Deceased was formerly pastor of St. Mary's church, Newboro, and a number of his Masonic friends from that place and vicinity joined the Brockville brethren and marched in regalia at his funeral.

Dr. Leggo, of Chicago, who has charge of Mr. Lamb's dental office, is meeting with great success, having given the best of good satisfaction to all his patrons. His professional fame as an expert in dentistry has extended to Brockville and a lady from that town is taking advantage of his presence here to have defective teeth made good.

The increasing attendance at the high school rendered necessary the procuring of more seats last week. The attendance at the public school has also greatly increased, and where to put the pupils has become in Miss Stevens' department a problem difficult of solution. Late arrivals are said to be accorded the space occupied in summer by the flower pots.

No business was done by the Municipal Council of Rear Yonge & Escott, at the adjourned meeting held on Saturday evening last. The Reeve is not yet able to leave his room and Mr. Johnson, the ex-reeve, was unable to attend through sickness. The council adjourned to meet again on on Saturday evening next, at 7.30 at the town hall.

At the last regular meeting of the local lodge of I. O. O. F. the following officers were appointed:—
A. C. Barnett, Warden; J. L. Gallagher, R. S. N. G.; D. Kilborn, L. S. N. G.; H. Mott, R. S. S; Ira Kelley, L. S. S.; T. G. Stevens, R. S. V. G.; A. C. Brown, L. S. V. G.; Prop. Com, T. G. Stevens, Ira Kelly.

The Newboro *Standard* is endeavoring to regulate all irregular regulatable things in that village, and after intimating just how the express agent should do business, it closes with the following modest reference to its editor and the aforesaid agent:—"Canada, as often stated, is a free country; apparently, at times, the would-be bantam, forgetting his size and strength, steps upon a small hill and defiantly makes a loud crow. It would not however be brave of a lion to pander to the fighting of a lamb."

Among the many fine turn-outs which paraded the streets of Athens on Sunday was one that attracted general attention and was greatly admired. Mr. N. Williams was the owner and driver. His fine snow-white horse, all crimped and banged, was attached to a cutter of the latest style (his own manufacture) which was painted a pure white with lilac panels and pale blue striping, elegantly upholstered. These with a new harness, whip, and white robe, presented an appearance at once unique and beautiful.

Literary Society.

The first meeting of the High School Literary Society for 1890 was held on Friday Evening last. As usual the lecture room was filled to overflowing and the evening was passed very pleasantly. The *Journal* was, of course, an interesting feature of the program. An incident of the war of 1812, as related by one of the pupils, was particularly good, and showed the writer to be possessed of a talent for this kind of composition. Instrumental music was contributed by Miss Pierce, Miss Loverin, and Mrs. Donovan; Miss Hartwell Miss Richards and Miss Stone recited; Mr. M. A. Everts read a good selection; Mr. H. Kincaid sang a solo, and high school pupils gave two choruses. At the close the president, Mr. Kennedy, said that there would probably be a second entertainment on the 7th prox. and that some time during the winter an evening would be devoted exclusively to Canadian subjects.

The Women's Foreign Missionary Society of the Presbyterian Church will hold a missionary meeting in St. Paul's church on Wednesday, 5th of Feb. Readings, recitations, solos, etc. Collection for missions.

Mrs. Dr. C. M. B. Cornell, of Brockville, was in town last week.... Miss Edith Fuller, of Toledo, visited here on Friday and Saturday....Mr. W. Taber, of Belleville, is spending his holidays in Athens....Mr. Chas. Alguire returned to his home in Dakota on Saturday....Miss Sarah Moore returned last week from a visit to friends in Smith's Falls....W. G. Parish is attending County Council this week....Miss Lucy Howe, who has been ill for several weeks, is convalescent....Messrs. P. Wiltse, J. B. Saunders and Mayor Carson are all progressing favorably.

After Many Years.

Mrs. Charles Barber left on the 28th for Toronto, having just learned that she has an uncle residing in that city. This gentleman, a Mr. Davis, came out from Ireland about forty years ago, located in Toronto, and early connected himself with the Grand Trunk. Strange to say, neither knew the other was in the country until a few days ago.

High, Higher, Highest.

The above comparison describes in brief the past and present attendance at the Athens high school. Always among the first in point of attendance and character of work performed, our school last July outstripped all competitors in Eastern Ontario. As a natural consequence, the attendance this term is the largest yet enrolled. There are this week registered and in actual attendance 117 pupils, an increase of 7 over the figures given in our last issue. The engaging of a fourth master for the half-year ending in July is spoken of and will no doubt be considered by the board.

A. O. U. W.

On Tuesday last there was a large attendance at the regular meeting of the local lodge of Workmen. This lodge has prospered from the start and has now a membership of about fifty. The following officers were installed by P. M. W. Lamb:—

M. W.	D. Fisher
P. M. W.	J. P. Lamb
Foreman	T. Vanarnam
Overseer	I. C. Alguire
Financier	J Kerr
Recorder and Receiver	I. Wiltse
Guide	T. McCrady
O. W.	N. Howe
I. W.	G. Lawson

D. Fisher was elected representative to the grand lodge which meets in Toronto in February next.

Taxidermy.

A party from Athens called on Mr. R. E. Cornell of Elbe Mills. He was surprised at the fine collection of native birds set up in three cases by Mrs Cornell. There may be fifty birds in all. This lady began the work unaided except by her fine taste, good sense and a receipt. She attended to her domestic duties as well as the best and yet found time in a mysterious way to achieve this work of art. She has specimens of native birds that are rapidly disappearing and difficult to obtain now.

There is a charm of refinement radiating from birds and flowers refreshing on the journey of life as it passes on the farm. Let us never refrain from bestowing in such cases a warm expression of admiration when it is a tribute to merit due. It is the echo of divinity.

School Election.

On Wednesday last nominations for trustees for Athens public school were received by Mr. Isaac Alguire at the town hall. The attendance was small, but this goes to show only that the attendance at a meeting of this kind cannot be taken as a criterion for measuring the interest taken in the business of the meeting, as there is at this present time a deep and general interest of a most active character felt in all that pertains to the management of our educational institutions. A large number were nominated, twelve of whom will go to the polls. We are not very clear as to the precise nature of the issues upon which the different candidates will seek election, but have confidence that the general rule of the survival of the fittest will obtain in this case. The electors cannot go far wrong in selecting six representatives from the following list of candidates:—

1. Arnold, Henry H.
2. Blanchard, Amos W.
3. Cornell, Frank
4. Green, Johnson
5. Greene, George W.
6. James, Archibald
7. Judson, Rufus D.
8. Lamb, James P.
9. Stevens, Theodore G.
10. Stevens, William M.
11. Thompson, Joseph
12. Wiltse, Asa

Voting will take place on Wednesday next. The poll will open at 10 a. m. in the town hall and continue open till 4 p. m. unless after 11 o'clock one hour shall elapse during which no vote is recorded.

THE APIARY.

As the principles of ventilation and their application are better understood and the effect of temperature on the humidity of the atmosphere in cellars becomes better known, bee culture will be reduced to a simplicity unthought of at present. If we paid attention to the temperature of our rooms we might accumulate health, comfort and longevity. The most of living apartments at this season, have a temperature of from 80 to 100 deg. from this we step out doors a few minutes repeatedly, each time plunging into an air bath of from 15 to 20 degrees below freezing. So long as this is so lung and throat diseases will, remain a scourge to whip common sense into the people.

There is little hope of a change unless the medical profession give lessons and persistently insist on their observance.

Bee keepers who this season have used leaves, chaff, straw, or other packing material as an absorbent will find in many cases that it is sufficiently charged with moisture to begin to must. In this case remove it from between the hives to give an inch open space under the sides of the hives for 5 or 6 inches, leaving the material under the bottom. It will also be found that the absorbing material is in much the same condition that it is when the bees are set out in the spring. When this is done close the cloth back to its place. Look often to see if water has condensed on the under side of the cloth, if so leave a small opening. Those who notice their bees in this way will soon be convinced that it would have paid well to have replaced the summer cloths with new ones in October, then moist vapors pass off unimpeded. Up to the present, in cellars with a foot of clear water in them bees are doing, well—an inch of decomposing moist earth is more to be feared.

Mr. Middleton, Athens, will have time and material only for about 200 hives; they are nearly all placed now, those who apply first may save themselves disappointment. This hive contains 84 to 80 pieces, it is a story and a half or equivalent to a double hive. It is the lowest hive made, therefore favors a greater amount of top honey. It is the cheapest and simplest; other half stories have 12 or 13 frames where in the same space I have only six yielding the same amount of honey, where other hives have 12 to 14 hundred frames to make, uncap, extract and return. I have just six hundred. There is the same difference in giving attention to the brood chamber. Come and see the inventions placed in this sash and door factory to help beginners on in their work. This hive is made ready for the bees for 75 cents, or a double hive for fifty cents to nail yourself. The above statements are not made to advertise the interest of any person, but to aid in the increase of the honey harvest and in placing abundance of cheap honey on the table of every one who reads this.

Bees in this locality, all things considered, for the last three years have wintered at a temperature of 40 deg. or under.

W. S. HOYLE.

Athens, Jan. 25.

An Apology.

The editor of a small Minnesota paper, the Sentinel, has felt it incumbent upon him to apologize to his readers for the many shortcomings of his paper, and he has done it with a frankness and thoroughness that many editors will be glad to imitate. We heartily indorse his sentiments and reproduce the apology for the benefit of all whom it may concern:

"We apologize for mistakes made in all former issues, and say they were inexcusable, as all an editor has to do is to hunt news, and clean the rollers, and set type, and sweep the floor, and pen short items, and fold papers, and write wrappers, and make the paste, and mail the papers, and talk to visitors, and distribute type, and carry water, and saw wood, and read the proofs, and correct the mistakes, and hunt the shears to write editorials, and dodge the bills, and dun delinquents, and take cusses from the whole force, and tell our subscribers that we need money. We say that we've no business making mistakes while attending to these little matters and getting our living on hopper-tail soup, flavored with imagination, and wearing old shoes and no collar and a patch on our pants, and obliged to turn a smiling countenance to the man who tells us our paper isn't worth $1 anyhow, and that he could make a better one with his eyes shut."

"La Grippe" or Lightning Catarrh.

MR. EDITOR.—"La grippe," or Russian influenza, as it is termed, is in reality an epidemic catarrh, and is called by some physicians "lightning catarrh," from the rapidity with which it sweeps over the country. Allow us to draw the attention of your readers to the fact that Nasal Balm, as well as being a thorough cure for all cases of the ordinary cold in head and catarrh, will give prompt relief in even the most severe cases of "la grippe" or "Russian influenza," as it will effectually clear the nasal passages, allay irritation and relieve the dull, oppressive headache accompanying the disease. No family should be without a bottle of Nasal Balm in the house, as cold in the head and catarrh are peculiarly liable to attack people at this season of the year, and Nasal Balm is the only prompt and speedy cure for these troubles ever offered the public. Easy to use and agreeable. If you cannot get it at your dealers it will be sent post free on receipt of price (50 cents and $1 per bott'e) by addressing
