NATURE'S REMEDY
TAMARAC ELIXIR
A Certain Cure for Coughs, Colds,
and all Throat and Lung
Complaints.
The proprietors of Tamarac Elixir, having
substantiated evidence in the merits of their
Great Nature's Remedy, ask all who are
afflicted with coughs, colds, or pulmonary
troubles to give it a careful trial, feeling con-
vinced that some best remedial results will
ensue. A careful perusal of the following test-
imonials is also requested. We might have
given many more equally as strong, but our
space is limited, and the following are sufficient
to give you a reliable idea of its efficacy.
It is guaranteed to give relief in all cases.
What One Dozen Did.
Mr. Charles H. French, Brockville, Ont.,
states:—I was so hoarse I could not speak
above a whisper. The first dose restored my
voice. For bronchitis, coughs, and colds it
cannot be too highly recommended.
A Household Necessity.
Mrs. Helen L. French, Brockville, Ont.,
states:—I have used your Tamarac Elixir
for coughs and colds, and I find it the
best cough medicine I ever used. One bottle
completely cured me of a very bad cough.
I have also used your Tamarac Elixir for
croup, and believe it to be the best medicine now
known for the cure of this disease.

residence in Brockville, on Monday
(yesterday) morning.
Clarendon comes to the front once
more. This time the mystery is how
a snake got in the wind-pipe of a
horse and caused its death.
The spring assizes for this district
will commence on March 25, before
Chief Justice Armour. Some very
interesting cases are on the docket.
Eight converts from Philippsville
were immersed in the Baptist church
on Sunday last, the ceremony being
performed by Rev. Mr. White.

and will take his show through New
York State during 1890.
Farmers have not been slow to
avail themselves of the fine sleighing
of the past few days, and the quantity
of logs that have been drawn to
Sawyers mill shows that the prices
offered are quite an inducement for
parties to haul their logs there.
In the vicinity of Kingston bull-
heads are sold at 28c per bushel. This
is about \$6.50 less than the farmers
were to get from the agents. We
have not learned how they are
quoted here, but understand they are
being held awaiting a rise in value.

On Tuesday evening of last week
the first of a series of "As Home"
was held at the residence of Mr. H.
H. Arnold. There was a large atten-
dance, a good program, a choice re-
past—in short, everything requisite
for an evening's pleasure. The pro-
ceeds go into the organ fund of the
Methodist Church.
If any of our subscribers will send
us a postal card giving as the name of
any of their friends in any part of the
world, that they think would like to
see a sample copy of the Reporter, we
will cheerfully send them a copy with
the hope that, after looking over its
columns, they may conclude to ac-
quire us their \$1.00 and become a sub-
scriber.

On Christmas Mr. and Mrs. Wm.
J. Earl, of Thompsons Lake, received
a fine portrait of their children, also
painted in oil, in rich heavy frames.
The likenesses are very accurate and
reflect great credit on the young ar-
tist, Mr. William Brown, son of Rev.
T. C. Brown, of Brockville, who evi-
dently possesses talent of a very high
order.
Already preparations are being
made for the erection of a new
school building in this village as
soon as spring opens. There is a
scarcity of dwelling houses in the vil-
lage at present and a man with capital
could not find a better investment
than to use a few thousand dollars in
the erection of a good class of ten-
ment houses.
We have in stock a supply of
Chinese napkins, the latest novelties,
just the thing for tea meetings, wed-
ding breakfasts, &c. As the napkins
are made in a factory, they are not
subject to any of the usual annoyances
of the event. Managers of tea meet-
ings, wedding parties, &c., should
send for a sample and price.
Mr. T. A. Owen, of International
Bridge, who has been engaged for the
position of fourth master in Athens
high school, arrived in town on Sat-
urday. Mr. Owen has held good
positions in Port and in Trenton
high school, and coming here well
recommended will no doubt prove
a valuable help to the present efficient
staff in preparing the large number of
pupils for the July examinations.
One of the oldest and most respect-
able residents of the Rear of Yonge
passed over to the great majority on
Sunday last. We refer to Hugh P.
Holmes, who resided near Lake
Florida. Mr. Holmes was in his 82nd
year and was a nephew of Richard
Holmes the centurion. He was
born and has always lived in the
neighborhood in which he died, honor-
ed and respected by all who knew
him.
The obsequies of the late Jerusha
Alger were performed on Wednes-
day last. The Methodist church was
draped with mourning and was filled
to the doors with relatives and sym-
pathizing friends. The services were
conducted by Rev. J. Wilson and Rev.
L. A. Betts. Mr. Wilson preached a
most impressive sermon from Rev.
xv. 8; at the close of which the re-
mains were placed in the Athens
vault.
Workmen commenced yesterday
to cut a channel for the 4th schooner
which are to be placed over the wreck
of the ill-fated Armstrong at Brock-
ville. The vessels are placed about
60 feet apart and immense timbers
reach from deck to deck, where they
are securely lashed to the timber of
each vessel. Chains have been placed
under the Armstrong and the raising
will be done with a hydrostatic press,
which is calculated to raise the vessel
about ten feet per day.
Mr. C. M. Cordingley, the genial
manager of the Mason & Kitch
piano organs, was in town last
week endeavoring to effect a sale of
a vocalion to the trustees of the Meth-
odist church. The Mason and Kitch
pianos stand high in the estimation of
the music loving people of Athens,
and the reputation of their instruments,
bearing testimony to the superior ex-
cellence of the piano manufactured by
this well known Toronto firm.
We regret to say that Phil. Wilse
is still confined to his room with mus-
cular rheumatism. It is now nearly
three months since Mr. Wilse was
taken sick, and during all that time
he has been unable to attend to his
business. He is fortunate, however,
in having his brother Geo. A., as
manager, who is fully competent to
attend to all the departments of Mr.
Wilse's business during his illness.
We, with a host of Mr. Wilse's
friends in village and country, earnest-
ly hope that he may soon be able to
resume his place behind the counter
and in society.
Some parties would do well to re-
member that one requiring the re-
cognition of births, marriages and
deaths, with the clerk of the municip-
ality. A birth must be registered
within thirty days by the parents of
the child; a marriage within ninety
days by the clergyman who performs
the ceremony; a death, by the occu-
pant of the house in which it takes
place, and before the interment of the
body. Any medical man in attend-
ance may register the cause of death.
Neglect to make these returns in time
renders the party so neglecting liable
to a fine of \$20 and costs.
Recent advices from California, in-
form us of the death of the wife of
the Rev. M. J. Bates, a prominent
young Methodist minister, and one of
the late Edwin Bates, well known to
residents of this county. Mrs. Bates
had been in delicate health for years,
and it was thought that a change of
climate would prove beneficial, but
while the change did afford tempo-
rary relief, the liver disease continu-
ed and finally gained such a foothold on her
naturally delicate constitution that no
care or climate changes could do
more than delay her a few days. The in-
evitable.

A number of Athenians had the
pleasure of hearing Rev. Mr. White,
his evangelist, preach in the Meth-
odist church, Delta, on Sunday last.
His manner of presenting a subject is
excellent, his peculiar, homely illu-
strations serving to fix the truths he
desires to communicate firmly in the
minds of his hearers. His success
and popularity at Philippsville were
attested by the large number from
that place who attended the services
at Delta in the afternoon and evening
of Sunday. He possesses a rich,
strong voice and in singing plays a
guitar accompaniment.
Mr. Thos. Vanarnam, of the "Great
Bargain House," has purchased the
dry goods, groceries, &c., of Jas. H.
Ackland, Athens, and will sell them at
greatly reduced prices in the Ackland
store. 500 1/2 sheet bills were issued
from this office last week, in which
Thomas tells the public "that the
dollars and cents is what we are all
after" and quotes prices to show that
"mighty dollar" should come to bi-
cheap sale and be satisfied. The great
bargain house has during the past
week been thoroughly renovated and
rejuvenated and now presents a fine
appearance, especially when three such
good looking clerks as Joe, Kate and
Ab, are behind the counters.

Yesterday (Monday) Mr. Arch. Kin-
caid, of this village, saw a large blue
crane flying over the village. He was
standing near the weigh scales and
the crane flew between where he stood
and the residence of Thos. Berney, go-
ing in a southerly direction. He was
that close to the bird that he says he
could not be mistaken as to the
species. This is a most unusual occur-
rence and were it not vouched for by a
person of Mr. Kincaid's reliability,
would seem incredible. The crane is
one of the most tender of birds and
does not usually put in an appearance
in our northern climate until about the
first of May, and no reason can be
assigned for its early appearance. Can
any of our contemporaries give an in-
stance where cranes have been seen in
localities as far north as this in the
month of February.
One of the largest audiences ever
assembled in the lecture room of the
Athens high school listened to the
excellent program presented on Friday
evening last. Features of the evening
were Kindergarten songs by pupils of
the public school, a speech and recita-
tion by Dr. Addison, and a quartette
in which the Messrs. Kerfoot, in com-
pany with Messrs. Connerty and Cool-
idge, demonstrated in a pleasing man-
ner their ability to entertain. On
Friday evening, Feb. 22nd, an extra
good entertainment will be given to
those paying the ordinary admission fee.
We hope that this little fee will
not give any who were there on Fri-
day evening an attack of the "mole-
cular" grip" causing them to "hold on
and never let go" of the essential
features of the program. The Society
requires a fund for the purpose of main-
taining and increasing its efficiency and
our citizens should endeavor to provide it
by filling the hall on March 7th.

A Cheap Light.
There is a growing feeling among
our business men in favor of a better
and more efficient means of lighting
their places of business. The incan-
descent system seems to be the most
popular method of lighting, and under
the new plan of having to pay only for
what quantity is used, we think it
the cheapest and best. There are three
first class engines within reasonable
distance of the centre of the village,
the owners of which would no doubt
be willing to furnish the requisite
power for driving the machinery,
thereby saving the cost of buildings
and engine. Those interested should
move in the matter and at least ascer-
tain the difference in cost between the
old system of coal oil and incandescent
lamps. If the village expects to keep
abreast of the times, it will shortly
have to place a few lamps in some of
the most frequented localities, and it
would be unwise not to put up the
cheapest, as well as the best kind of
light. We are satisfied from recent
experience that we have made touching
this matter that a sufficient number
of parties could be induced to use the
incandescent light, to make it an object
for a company to put it in the village,
that the cost would be found cheaper
than ordinary coal oil. The users
would also have a cleaner, more con-
venient and better light, which would
apply equally as well to private resi-
dences as public buildings.

month of February.
One of the largest audiences ever
assembled in the lecture room of the
Athens high school listened to the
excellent program presented on Friday
evening last. Features of the evening
were Kindergarten songs by pupils of
the public school, a speech and recita-
tion by Dr. Addison, and a quartette
in which the Messrs. Kerfoot, in com-
pany with Messrs. Connerty and Cool-
idge, demonstrated in a pleasing man-
ner their ability to entertain. On
Friday evening, Feb. 22nd, an extra
good entertainment will be given to
those paying the ordinary admission fee.
We hope that this little fee will
not give any who were there on Fri-
day evening an attack of the "mole-
cular" grip" causing them to "hold on
and never let go" of the essential
features of the program. The Society
requires a fund for the purpose of main-
taining and increasing its efficiency and
our citizens should endeavor to provide it
by filling the hall on March 7th.

A Cheap Light.
There is a growing feeling among
our business men in favor of a better
and more efficient means of lighting
their places of business. The incan-
descent system seems to be the most
popular method of lighting, and under
the new plan of having to pay only for
what quantity is used, we think it
the cheapest and best. There are three
first class engines within reasonable
distance of the centre of the village,
the owners of which would no doubt
be willing to furnish the requisite
power for driving the machinery,
thereby saving the cost of buildings
and engine. Those interested should
move in the matter and at least ascer-
tain the difference in cost between the
old system of coal oil and incandescent
lamps. If the village expects to keep
abreast of the times, it will shortly
have to place a few lamps in some of
the most frequented localities, and it
would be unwise not to put up the
cheapest, as well as the best kind of
light. We are satisfied from recent
experience that we have made touching
this matter that a sufficient number
of parties could be induced to use the
incandescent light, to make it an object
for a company to put it in the village,
that the cost would be found cheaper
than ordinary coal oil. The users
would also have a cleaner, more con-
venient and better light, which would
apply equally as well to private resi-
dences as public buildings.
