A Dog's Impressive Funeral.

There was a notable funeral at Buoyrus, Ohio, the other day. Frank, the pet do of the men employed on the Toledo Ohio Central Railroad, died last week. His body was placed in a handsome cosket, and on the day of the funeral an engine and car were draped in black, the onshet being placed in the car, and the train bore Frank's remains to the grave, while all the engine bells in the yard were tolied. "Frank was an ugly dog appearance, but happy in disposition, and he had barked in a neighborly way and wagged his tail socially among the trainmen for years. He won their hearts. Some men came 50 miles to attend the funeral, and there were tears shed over Frank's grave.
