VOL. VIII. NO 17.

Athens, Leeds County, Ontario, Tuesday, April 23 1892.

(\$1.00 a year in advance. \$1.25 if not paid within 6 months. H. Lovvick, Proprietor.)

GEO. G. HUTCHESON & CO.

We want to engage your attention about our Dress Goods Stock. If you have any thought of buying a dress you ought to see it. We are told repeatedly that there is nothing like them in Brockville for style and value. Ladies are good judges, and when they pass judgment it is generally correct. We have all the new makes and styles in Dress Goods, and some lovely new patterns in Challies. We will show the stock with pleasure.

Our stock of Spring Carpets has all arrived. As usual it is the largest selection you will see in this section, probably twice as large as any other stock. It comprises all grades of Brussels, Tapestry, Wool, Union and Hemp Carpets, also Velvet Carpets, Mattings, Carpet Squares with border all around, and Floor Oilcloths. Tapestry Carpets range from 80c. to \$1.00 per yard. Brussels Carpets at 85c., 95c., \$1.00, \$1.10 to \$1.25. Borders to match a great many patterns. Also Stair Carpets. Prices guaranteed as low or lower than the same quality of goods can be bought for, either in Brockville or in the cities. We tell no fables about our goods; we guarantee them as represented or money refunded. We solicit the favor of a call of inspection. Carpet laying and making attended to when desired.

COUNTY NEWS.

INTERESTING LETTERS FROM OUR STAFF OF CORRESPONDENTS.

A Budget of News and Gossip—Personal Intelligence—A Little of Everything Well Mixed up.

FRANKVILLE.

MONDAY, April 25.—We extend congratulations to Mr. John Loucks. It's a boy.

Mrs. Stone, of Athens, was the guest of her daughter, Mrs. Richards, last week.

Our cheese factory started on the 19th with Mr. Joe Jones, manager, and Mr. Fred Ireland, assistant.

Mrs. Israel Monroe is quite poorly.

Mrs. Henry Pierce, of Smith Falls, was some for a few days last week on account of the illness of her father, who, we are glad to learn, is improving.

Mrs. (Rev.) Radley is visiting friends in Ottawa.

Miss Annie Cross, of Jasper, is spending a few days with friends here.

The very latest novelties in Spot Curtain Muslins, Curtain Plushes, Cretonnes, &c., &c. in endless variety.

OAK LEAF.

MONDAY, April 18.—Mr. Wm. Godkin shipped a car load of lime, over the B. & W. R. R. to Newboro last week.

M. Aaron Green went to U. S. last week but happily not to stay.

Messrs. R. J. and Ormond Green are erecting buildings on their respective farms to be used for milling, &c. They will be ready in a few days.

There is a rumor of a new cheese factory to be erected near the Corner next summer. A great deal of the milk from here goes to Delta this season.

The attendance at our school is increasing rapidly.

Mr. Jno. Murphy is erecting a boat house at Fall Bay.

We hope that Johnnie may pull the trigger and transfer the load to the game. We would warn that correspondent to "beware" for Johnnie is angry.

Mr. D. J. Johnson met with a serious accident recently. He was engaged in cutting sugar wood, and as he started to cut a small tree, the axe slipped and grazing the bark of the tree entered his foot, inflicting an ugly wound. He was conveyed home and Dr. Harts summoned. At last reports he was doing well.

We saw Willie East, who cut his foot last winter, is around again, but somewhat lame.

ODEFELLOWS ANNUAL SERVICE.

A Large Audience Listened to an Excellent Sermon Delivered by the Rector of Christ Church.

On Sunday last the members of the Athens lodge of Oddfellows, with brethren from Delta and other places, assembled in the lodge room at 2 p.m. for the purpose of attending divine worship. Immediately after opening lodge an adjournment was moved and the members were marshalled for church parade by Conductor W. M. Stevens. Nearly seventy members were in the procession.

Service was to be conducted at Christ church by the rector, Rev. Wm. Wright, and the Oddfellows were soon comfortably seated in that neat edifice. After the opening part of the beautiful evening service of the church had been said and sung, the rector delivered a fine sermon from Galatians 2:6—"Bear ye one another's burdens and so fulfill the law of Christ." The discourse was suited alike to the occasion and to the Easter season. After speaking for some time of the rickety Christ, the very gentleman by an easy and natural transition devoted his address to establishing the fatherhood of God and the brotherhood of man, which constitute the corner-stone of Oddfellowship. The sermon was one of the finest ever preached to Athens lodge and met with the favorable approval of the very large congregation present.

At the close of his address he made a highly commendatory reference to the I. O. O. F. Quoting from the annual report of the grand lodge of Ontario, he said that the total sum expended for relief by the order during 1891 was 71,374.90. This large amount was expended where and when it was most needed and, he said, it would be hard indeed to calculate the amount of good done and relief afforded by the wise expenditure of this large sum. Then, too, he said, the sorrow and distress had the comfort of knowing that there was in their own town a company of men banded together for mutual counsel, mutual aid, and that relatives of a sick or deceased brother were the objects of their fraternal regard. Such fraternal sympathies over their existence not so much to education as to that Christ-like principle that is everywhere moving, in some cases incessantly, the hearts of men to perform deeds of charity and benevolence, ameliorating the condition of their fellow men. Oddfellowship in Ontario since 1856 had made rapid progress. In that year the total membership was 605 members who paid benefits amounting to \$299.00. In 1890 the membership had increased to 17,707, paying benefits to members in that year totalling \$71,374.90. Since 1856 the Order has paid for the sum of \$294,350.95. Membership on June 30, 1891, 18,218.

The rector closed his address with a warm eulogy of such societies as had for their primary object the betterment of the condition of mankind, and exhorted the brethren present to continue in well-doing, not forgetting to acknowledge and honor the source of their inspiration to worthy acts.

The choir had prepared a special service of song for the day, in which the congregation joined heartily.

The church was beautifully decorated with flowers. From the roof of the chancel the three links, wrought in geranium leaves, were suspended. The centre of the chancel was embellished with a tastefully arranged pyramid of flowers and the reading desk was also decorated.

At the close of the service the brethren re-formed in procession and marched to the lodge where the customary formalities were gone through with.

Resolutions were made expressing appreciation of and conveying thanks to Mr. Wright for his excellent sermon, to the choir for their services, and to those who so artistically decorated the church.

NOTES.

The Oddfellows listened with pleasure to a brief address from Mr. Chaney Blanche, a brother from Minneapolis, and have the promise of his presence at the regular meeting on Wednesday evening.

Mr. R. Stevens, D. D. G. M. of Delta was present and responded to the welcome tendered the visiting brethren.

Malorytown lodge had been invited to attend service here, and a letter was read from their secretary expressing regret that their service having been arranged for the same hour they would be unable to attend.

Services at Delta will be held on second Sunday in May at 2.30 p.m., and the members of Athens lodge are invited to attend.

The Oddfellows thank the ladies for their generous gift of bouquets.

It has now been definitely arranged that the Travelling Dairy to be sent to this section of Ontario will commence early part of May; full particulars will be made known in due time. The object of the Dairy is, to present to everyone interested a full view of the operation of scientific butter making, the design and practical use of insect improved machinery, and the methods of handling milk and cream for making butter. One of the Professors from the Ontario Agricultural College will be in charge, and will explain the several operations, and the reasons therefor, test milk samples, instruct all who desire it in the use of separators and other utensils, and give all desired information within his ability. It is a good opportunity to secure valuable knowledge, and it will be to the interest of every farmer to attend the meeting.

Pointers on the Cheese Trade.

Mr. W. H. Thompson, of Thompson Bros., Prescott, who is now in the old country, writing to the Gananoque Journal, says:—

Since my arrival in England I have noted a few points that will probably interest the cheese manufacturers of Canada. You will therefore kindly call their attention to the following.

Color. The larger part of our June and July make is consumed in the Scotch and north of England markets where the color required is straw to deep straw. For this I would suggest as a standard one and a quarter ounces of Brev's or 1 1/2 oz. of Hansen's annato per 1000 lbs. milk. Our fall made cheese are largely consumed in the Liverpool and London districts which take about half white and half colored, and in the west of England where no colored is used. The larger part of the fall make therefore should be white the remainder being a little higher in color than mentioned above, say one quarter ounce more annato to the 1000 lbs. Those who were present at the Brockville Cheese board, where the propriety of coloring October (1891) cheese was discussed, will remember my advice not to color too many. White Cheese have brought from 1/- to 2/- per cwt more than colored during the winter. A further objection to the making of too many high colored cheese is that it is liable to fade and become irregular in color, so causing a deterioration in value as compared with white of several shillings per cwt.

Shapes. There is a limited demand for 1000 lbs. Cheese for Christmas trade, but the standard size is made in about 15 inch hoops and weighs 70 to 80 lbs. Cheese 50 to 60 lbs. called three quarter shapes, are disliked by the trade here. Quebec cheese are very faulty in shape and are consequently less preferred.

Boxes. These are in many cases very faulty. Many do not fit the cheese closely and almost all are made of too light timber. I examined a parcel of 600 boxes fine French cheese to-day of which 90 per cent of the boxes were broken and tied with ropes. Brockville cheese are rather in advance of Belleville as to boxes but there is room for improvement there also. Many boxes are too low, boxes should be at least 11 inches inside measurement. This should be the standard instead of 10 inches as is now used.

Cracked surfaces are also detrimental and I advise users to head cloth during July and August or even later and "followers" should fit the hoops exactly so as to make a neat face on the cheese.

Brands should be small and neatly put on. The English law requires that all imported articles must be branded with the name of the country of manufacture. It is therefore absolutely necessary that the words "Imperial Produce" be branded on every box. White and colored cheese should not under any circumstances be shipped under the same branding mark or name of the country. Soiling should be done while goods are fresh and all cheese should be shipped before damaged by heat in the factories. As Agents for the Imperial Produce Co. during the past season we shipped about 20000 boxes under the Imperial brand and I am pleased to find that most of them gave great satisfaction. The company has materially improved their arrangements in Britain and I anticipate a good demand for the same goods during the coming season.

Butter finds most ready sale during the winter and should be made when cheese making ceases during the last three months of the year, to permit shipping while fresh. I expect some of my Liverpool friends will visit Canada during the spring and I would like as many of our factory men as possible to meet him and hear his views on the importance of winter dairying, he having given much thought to this matter. I will advise you on this point later.

The Kingston people are not very sanguine about the construction of the railway between that city and Smith's Falls. The Whig of Tuesday says:—There is no definite information respecting the construction of the Kingston and Smith's Falls railroad. A citizen remarks to-day that the bonus granted to this road should be transferred to the G. T. R. company, provided the workshop in Belleville and Brockville are removed to the city.

A Simple Remedy for Lung Troubles.

It has long been known that pine needles would alleviate patients afflicted with lung troubles, and a Florida editor relates an incident in support of the fact as follows:—During a visit to the home of a most estimable lady living on Indian River, this editor was told of a discovery that had been made which may prove a boon to sufferers from lung or bronchial troubles. This lady having heard that there was peculiar virtue in a pillow made from pine straw, and having none of that material at hand, made one from soft pine shavings, and had the pleasure of noting immediate benefit. Soon all the members of the household had nice shavings pillows, and it was noticed that all coughs, asthmatic or bronchial troubles abated at once after sleeping a few nights on these pillows. An invalid suffering with lung trouble derived much benefit from sleeping upon a mattress made from pine shavings. The material is cheap, and the Christian at Work says it makes a very pleasant and comfortable mattress, the odor of the pine permeating the entire room and absorbing or dispelling all unpleasant odors.
