On Dominion day some important changes in the law came into force. Mr. Mowat's measure, frequently called the Cigarette bill, from that day will be used to correct the habits of the young. It is not properly named the Cigarette bill, because it is aimed against the use of tobacco in all its forms. All persons under eighteen years of age are now prohibited from buying, using, or having tobacco in their possession, and those who sell or give it to them will be liable to heavy fines.

The matrimonial fever has struck this town. A wedding on July 6th at Temperance Lake when Mr. Charles F. Fawcett was united in marriage to Miss Eva K. Towrie, daughter of Joseph T. Towrie was the first. Then came that of Mr. Topping to Miss S. Kelly, of Rear Yonge & Escott, on Wednesday afternoon. This was followed by Allan Curtis on Sunday evening leading Miss Alecster Cameron of this village to the altar. On the 6th inst., Wm. J. Berry of Seelye's Bay, was united in marriage to Miss Eva youngest daughter of the late Henry Johnston of Escott. To-morrow there will be another matrimonial venture but as it is unprofessional to give names of brides, we will leave the names of the parties to be conjectured by our readers.

Successful Sportsman. A Ferny correspondent, writing to the Kingston Whig under date of July 6th, says: - M. A. Everett, barrister, Athens, M. F. H. A., mathematical master, Athens high school; M. S. Dennis, Delta; M. H. Ludwig, L. L. B., barrister of Toronto, and party from New York were guests at the Lake View house last week, while they angled for the fishy riches in Wolfe and Otonabee lakes. They caught a large number of splendid black bass and pike and pronounce Wolfe lake the finest lake in Ontario for black bass. The "boys" voted D. J. Rutan a right jolly good fellow and hope to find him still proprietor of the Lake View when they return next week. Of course Ditchey's "derrick" assisted materially in the large catch.

The Washington, D.C. and long carriage of Toronto, will visit Athens again on Wednesday, July 13th, and may be seen from 8 a. m. to 5 p. m. at the Gamble House, 100 St. George Street, where the carriage will be on display. The carriage is a masterpiece of art and is a fine specimen of the art of the carriage maker.

The general D. W. Dowley is president and manager again this year and the board of directors is a band of hunters. Dave has said it, and it must come to pass, that they are going to have the greatest and best show in this section this fall.

Gananogue Reporter: - Men who are mean enough to take a newspaper for five or six years without paying for it, and then the paper back to the office marked "refused" have not had their cases provided for in the statutes of the country. Nothing short of a term in gaol, after the full amount of arrears with interest thereon had been paid would be sufficient punishment for such sneaking meanness.

The aroma of the tobacco leaf is so completely conserved in the manufacture of "Myrtle Navy" that age has no effect in diminishing it; even after the plug has been kept for years it gives out its full flavor under the combustion in the pipe, mellowed in tone by its age and making the most exquisite smoke. "Myrtle Navy" tobacco can be made to give less than 100, hundreds of the plug and give to the tobacco, when cut, that almost granular appearance in which all connoisseurs delight.

The examiners made a great slaughter among the entrance candidates last week, only 25 passing out of 81. A number of the teachers are not very well pleased with the whole sale plucking of their candidates, and think that the papers must have received unusually close marking. The result in the Athens public school, however, would go to disprove this, as out of the thirteen candidates sent up by Mr. Shurman, nine were successful. This is an excellent showing and should be very gratifying to both the principal and pupils of our village school.

Card of Thanks. Those who so kindly and generously assisted in caring for the late Sara Blanche during her sickness and burial, will please accept the heart-felt appreciation of Mrs. M. L. Blanche.

Brookville Cheese Board.

Special to the Reporter. - The meeting of the Board of the Brookville Cheese Board, held on Tuesday, July 7th, - it was near 8 p. m. when Mr. Redmond, of Lansdowne, took President Singleton's chair and asked for the best of order, as he had important business for consideration to-day. Mr. Redmond enjoys the reputation of being the speaker of the house. His speech to-day for the resolution of the Board was perhaps one of the best efforts he has made in connection with the board of trade.

B. G. Murphy requested the privilege of reading a letter that his partner, Mr. Dargavel, of Elgin, had received from Mr. Geo. Taylor, M. P., for South Leeds, announcing the passage of the Cheese Inspection Act, and asking him to secure the co-operation of the Brookville Cheese Board in making it effective. After some discussion, it was moved by O. Bush, M. P. P., seconded by W. H. Thompson, that in the opinion of the members of this board of trade, the Cheese Inspection Act, as introduced by Mr. Taylor, M. P., and passed by this house, is a move in the right direction and meets with our approval; therefore - Resolved, that we advise the Government to put the said Act in force at once and appoint a competent man for the working of said Act.

B. G. Murphy then moved, seconded by O. Bush, Esq., that in the opinion of this board of trade Mr. G. G. Public, who has been one of the inspectors for the Eastern Ontario

Della Fair managers are getting a handsome and will shortly start out on a canvassing tour for special prizes and new members.

McLaughlin's barber shop in the Armstrong block is meeting with a well deserved run of custom. On Wednesdays it is necessary for Me to have an assistant.

Quite a number of cheese factories in Western Ontario have adopted the system of paying for milk according to the percentage of fat as shown by the Babcock tester. Where this system has become general, watering and skimming milk will go out of fashion - it won't pay any longer.

John Kerfoot drove out to Wexford last week and secured a number of excellent photos of the house and grounds as well as a good likeness of Rev. Foster Kelly and members of his household. We were shown proof prints of the negatives and they were perfect art pictures of the subjects photographed.

Mrs. Martin, of Kingston, was taken suddenly ill with a pain in her side one evening last week. The pain grew worse until a doctor had to be sent for. Upon examination the physician made a sharp incision into the side against the skin, and later a needle about two inches in length was removed. How the article got there is a mystery.

Phil. Witte & Co. have been making some very fine improvements in their store lately. They have put plate glass tops on the front counters and put the show-cases, formerly on counters, in centre of floor. Besides adding greatly to the convenience of handling goods, the change has made a decided improvement in the appearance of the store.

Says the Brockville Times: - Our citizens who utilize small boats in bringing goods from the United States are probably not aware that it is illegal to use any such conveyance to bring goods into Canada even supposing the articles are duty free. The gentleman who brought a skiff in Brockville brought this point of law to the notice of the owner of the boat.

About three weeks ago gates were erected at the entrance to Thousand Island park and an admission fee of ten cents charged. Monday night a party of prominent cottage owners adverse to the scheme tore down the gates, which were locked, threw out the gates and made their way. There is great excitement among the trustees of the park.

During the past week the one all absorbing topic of interest throughout the whole civilized world has been the English elections. To-day (Tuesday) the defeat of the Salisbury government seems almost a certainty, and with many it is now merely a question of what Gladstone's majority will be in the new house. It is estimated all the way from 80 to 70, but it appears very likely that it will be no small as to greatly hamper the A. O. M. in carrying out his Home Rule program.

Draymen's Association. The first 30 years, would be a competition made out as inspector of glosses in Montreal and that was therefore recommended his appointment to such position.

This motion did not seem to suit Mr. Spenser of the House, who was evidently not conversant with Mr. Publow's political color. He was anxious that this board should not interfere with Mr. Taylor. The other members did not view this question in the same light, however, all recognizing Mr. Publow's fitness, and the motion carried unanimously. A third motion was made and set forth that a copy of the foregoing resolutions be forwarded to J. E. Wood, M. P., and Geo. Taylor, M. P., asking their co-operation to secure Mr. Publow's appointment.

When the sale of cheese commenced your correspondent was surprised to find the number of cheese offered to be less than 6,000 boxes. This was somewhat below what we believe to be the actual holdings of board members. We have but one course to believe, viz: that many salesmen had pursued the penny-wise and pound-foolish policy of selling on the quiet in hopes of getting a small margin over his neighbor. We feel ashamed of such conduct from members who by their subscription as members' fees are in honor bound to respect and uphold the rules of the board made expressly for that object. It is certainly a humiliating spectacle to see members who hold large offerings take back seats and refuse to sell goods registered, which had been practically sold before being placed on the bulletin board. Such conduct can have but one result, and that will most surely be felt most by the honest farmer who would prefer to have the business done openly and above suspicion. We think 8,000 boxes would be a low estimate of the goods sold. We heard one buyer say that they had secured nearly 1,500 boxes and did not have to take any chances on the board.
