The French have always been enthusias tic admirers of Scotch poetry, but their efforts to translate it into their own langunge are not always successful, as the rendering of Auld Lang Syne will show. Rendered somewhat literally the translation is:

Must one neglect one s friend, should we forget the tander feelings those whom we formerly loved, In the days of our youth? In the days of our youth ! Let a sweet glass again be filled To the days of our youth.

We ran upon the grass, Palling flowers uncoasingly But oh! what tedious journeys we've had since the days of our youth.

We played in the water When the summer sun oppressed us, The ses, now separating us, has been reark ince the days of our youth. Let us embrage then, dear friend !

Let my hand press yours, Let us drink a glass quite full To the days of our youth.
