The Industrial Home.
 Elizabethtown, Dec. 12.
 Editor Review.—
 DEAR SIR.—It seems that the matter of a house of industry has got another boost. The time is Brockville that is doing the kicking, or at least some of the leading men of the town. They have got right down to business in the matter—have struck a soft thing in the way of charity. So don't receive an industrial home or anything of the kind.
 It seems to me that the county council should be thankful that matters have taken this turn, as in my humble opinion they will be far better off with nothing to do with the industrial home. As a rule the poor from county sections are anxious to do something for themselves and this home would furnish them an opportunity of doing it, while there are papers to be found in town a class of a semi-criminal nature that are very difficult to manage.
 Let the counties go on and establish the home where they think best for the general convenience, and my word for it, Brockville will very soon be ready to come in on almost any terms.
 One of the reasons for kicking was because the farm was not likely to be near Brockville. Well, I have seen it, Toronto, if so, P. I. G. will very well stand for Brockville, or at least some of the people in it.
A FRIEND TO HONEST POOR.
A Midnight Adventure.
 Farmers in the vicinity of Seely's Bay have a topic for gossip. Another case, similar to the one which occurred a few years ago, but with less success as to the interest, occurred a few nights ago. It was a dark and dreary night when four men, in a double-seated livery rig, started off "substantiating." Their road lay in the direction of Seely's Bay and despite the obscurity of the night the men seemed to be thoroughly acquainted with the route and at last pulled up at Pine Hill cemetery. Everything was dark and the four men hardly dared to speak lest the echo would bring down upon them the keeper of the place.
 The men hung well together and with revolvers in hand proceeded to make an inspection of the grounds. It was certain that they had been well posted as they did not waste much time in an inspection. From the thence source it is learned that the men were looking up the body of a young man, drowned a few days previously some distance from his home. The body had been taken to Kingston, however, and taken to Pine Hill for interment. Finding no freshly disturbed earth the men cautiously went to the vault, built of ancient design, was erected half under the ground. Besides the front entrance there was a door or sort of window at the rear, half hidden from view by the earth. It was expected that the window would be well barricaded and they were not a little surprised to find how easily the boards pulled out.
 Effecting a small aperture by pulling a plank to one side the men barely had time to see two sets of eyes on the inside before a voice from "a tomb called out": "Aha, you are here."
 "Got you at last," and at the same time two men sprang to the window, the guns in their hands. Luckily the outsiders the boards were so arranged as to be adjusted, and with remarkable presence of mind, considering their astonishment, the men pushed the planks back with alacrity, thus preventing those inside from getting out. Seeing they were in a bad fix, the men decided to escape at any cost. One man was despatched to the front door to stand guard and not let the men out, while another was sent for the horses. Upon the arrival of the other, the fellow jumped in one after another, the body being off their revolvers in the direction of the window. In this way they escaped. They think the men on guard in the vault were watching the body until buried next day. The reconstructionists say the graveyards are being so closely watched that unless the government insists on the handing over of the bodies of papers the colleges will suffer. Body snatchers make about \$30 on a person to use this valuable and lovely remedy. A trial bottle will convince you. Warranted by J. P. Lamb.

Village Council.

The Village Council met on Thursday evening, 8th inst., in the council chamber. All the members present. The minutes of last meeting were read, approved and signed by revee and clerk. On motion, the clerk was instructed to send a bill for use of corporation scraper to Lewis King for \$2.00 and Stephen Boyce for \$1.00 and request payment before 15th inst.

Mr. Henry Rowsom, collector for 1891, put in an application for pay for extra services in collecting taxes, and on motion the sum of \$5.00 was ordered to be paid him by treasurer.
 An order was given H. H. Arnold, on order of Frank Yates, for \$42 for 42 yards of broken stone delivered on order of street commissioners.
 The collector of rates for 1892 was given an order for \$10 on salary acct.
 Order given on treasurer for \$1.50, charged to charity acct, in favor of Mrs. E. Pierce.
 George Nash, street overseer, was given an order for \$25 on account of work done on streets.
 Mr. S. Bullis presented a petition to the council asking for exemption from taxation of his mill property near the B. & W. station. At the request of some members of the council the matter was laid over until next regular meeting of the council.
 The council then adjourned until Thursday evening, 15th inst., at 8 p.m., to receive the financial statement from the treasurer for the year ending on 14th Dec.

The New Teachers.
 The term of the Athens model school closed last week. The result of the examination shows the following to have obtained third class certificates:
 Cora Baker, Nellie Bulger, Bella Crossley, Mgt. Flemming, Angeline Jones, Minnie Morris, Flossie Tennant, Lizzie Rea, Minnie Rowe, Libbie Shaw, Mercy Smith, Bertha Tennant, Maggie Wilks, Gertrude Wyatt, Blanche Warren, Samuel B. Barry, Geo. B. Cross, Truman Hayes, Herbert Rhodes and Charles Whiting.
 The following having failed to make the necessary total at their examination have obtained District Certificates limited to the county and valid for one year. They will be permitted to take the model school examination in Dec. 1893:—Ann Earl, Edward Myers.

Grants to High Schools.
 For the two years ending July, 1891, in accordance with the act of 1891, the following amounts will be paid by the counties council to the high schools:—
 Athens.....\$1740.00
 Brockville.....1277.00
 Prescott.....460.00
 Gananoque.....284.00
 Kempsville.....16.16

The county council, Brockville, passed a resolution of condolence to the family of the late James Birmingham, of Leeds and Lanark, Egypt. Mr. Birmingham was for many years one of the most useful members of the council.
 Christmas and New Years will fall upon Sunday this year, therefore Monday will become a legal holiday and nominations and election for municipal councillors will take place on holidays.
 Each of every kind, on human or animal, cured in 20 minutes by Woodford's Sanitary Solution. Warranted by J. P. Lamb.
 Parties driving into the village with single or double teams would confer a special favor on the ladies if they would not leave their carriages standing across the crossings while doing their shopping.
 English Spain Liniment removes all hard, soft or cancered Lumps and Rheumism from horses, Blood Spavin, Carles, Splints, Ring Bone, Sweeney, Stiffles, Sprains, Sore and Swollen Throat, Coughs, etc. Save \$50 by use of one bottle. Warranted by J. P. Lamb.
 The coal oil impostition is receiving a great airing in Canada day. The tax is declared to be equal to fifteen cents a gallon, and a hope of relief is expected when the Conservative press is pronouncing it an "outrage" and "monstrousness of monstrosities."
RHEUMATISM CURED IN A DAY.—South American Rheumatic Cure for Rheumatism and Neuralgia radically cures in 1 to 3 days. Its action upon the system is remarkable and mysterious. It removes at once the cause and the disease immediately disappears. The first dose greatly benefits. 75 cents. Warranted by J. P. Lamb.
 It is probable that congress, freed from the stress of the political considerations, will reverse its action closing the world's fair on Sunday. A vast majority desires Sunday opening and the claims of the laboring classes to such favor is beyond dispute. This fact is attested by miles of petitions from all over the country.
 On Friday last, Mr. Robt. Poole, of Poole's Summer Resort, gave us a pleasant call. He reports the past season on the St. Lawrence to have been highly successful. The cottage erected last summer by Mr. Bronson, of Ottawa, on his island, near the Resort, is the finest on the Canadian side of the international line.
 Rebecca Wilkinson, of Brownsville, Ind., says: "I had been in a distressed condition for three years from Nervousness, Weakness of the Stomach, Dyspepsia and Indigestion until my health was gone. I bought one bottle of South American Nervine, which done me more good than any \$50 worth of doctoring I ever did in my life. I would advise every weakly person to use this valuable and lovely remedy." A trial bottle will convince you. Warranted by J. P. Lamb.

The Industrial Home.
 Elizabethtown, Dec. 12.
 Editor Review.—
 DEAR SIR.—It seems that the matter of a house of industry has got another boost. The time is Brockville that is doing the kicking, or at least some of the leading men of the town. They have got right down to business in the matter—have struck a soft thing in the way of charity. So don't receive an industrial home or anything of the kind.
 It seems to me that the county council should be thankful that matters have taken this turn, as in my humble opinion they will be far better off with nothing to do with the industrial home. As a rule the poor from county sections are anxious to do something for themselves and this home would furnish them an opportunity of doing it, while there are papers to be found in town a class of a semi-criminal nature that are very difficult to manage.
 Let the counties go on and establish the home where they think best for the general convenience, and my word for it, Brockville will very soon be ready to come in on almost any terms.
 One of the reasons for kicking was because the farm was not likely to be near Brockville. Well, I have seen it, Toronto, if so, P. I. G. will very well stand for Brockville, or at least some of the people in it.
A FRIEND TO HONEST POOR.
A Midnight Adventure.
 Farmers in the vicinity of Seely's Bay have a topic for gossip. Another case, similar to the one which occurred a few years ago, but with less success as to the interest, occurred a few nights ago. It was a dark and dreary night when four men, in a double-seated livery rig, started off "substantiating." Their road lay in the direction of Seely's Bay and despite the obscurity of the night the men seemed to be thoroughly acquainted with the route and at last pulled up at Pine Hill cemetery. Everything was dark and the four men hardly dared to speak lest the echo would bring down upon them the keeper of the place.
 The men hung well together and with revolvers in hand proceeded to make an inspection of the grounds. It was certain that they had been well posted as they did not waste much time in an inspection. From the thence source it is learned that the men were looking up the body of a young man, drowned a few days previously some distance from his home. The body had been taken to Kingston, however, and taken to Pine Hill for interment. Finding no freshly disturbed earth the men cautiously went to the vault, built of ancient design, was erected half under the ground. Besides the front entrance there was a door or sort of window at the rear, half hidden from view by the earth. It was expected that the window would be well barricaded and they were not a little surprised to find how easily the boards pulled out.
 Effecting a small aperture by pulling a plank to one side the men barely had time to see two sets of eyes on the inside before a voice from "a tomb called out": "Aha, you are here."
 "Got you at last," and at the same time two men sprang to the window, the guns in their hands. Luckily the outsiders the boards were so arranged as to be adjusted, and with remarkable presence of mind, considering their astonishment, the men pushed the planks back with alacrity, thus preventing those inside from getting out. Seeing they were in a bad fix, the men decided to escape at any cost. One man was despatched to the front door to stand guard and not let the men out, while another was sent for the horses. Upon the arrival of the other, the fellow jumped in one after another, the body being off their revolvers in the direction of the window. In this way they escaped. They think the men on guard in the vault were watching the body until buried next day. The reconstructionists say the graveyards are being so closely watched that unless the government insists on the handing over of the bodies of papers the colleges will suffer. Body snatchers make about \$30 on a person to use this valuable and lovely remedy. A trial bottle will convince you. Warranted by J. P. Lamb.
