The family who spend their money right will succeed. The family who spend their money wrong can not. When you want Groceries and Provisions go to the store and get our prices and see our goods. We claim to give you more value for your dollar than you can get elsewhere. The question will arise, how can this be? It only requires an explanation and you will admit that we can do all we claim. We have always had a large trade in Athens, but at the present we are closely connected with another store in Lyndhaest. This enables us to buy goods in almost car lots; in fact, for the last six months we have had car lots every month, besides nearly every day's train has goods for us. This we can prove by the freight ngent. We say, and conscientiously, too, that there is no other store in Athens handling this amount of goods. Why is it?

We started business to sell goods, not to give them away. We cannot live without a little profit, but we cut that profit down to the lowest point. We prefer 5 per cent, profit on ten sales before 40 per cent, profit on one, returned home from Portage La Prairie are making lets of money this year.
