## CARNOT ASSASSINATED

The President of France Murdered by an Italian Anarchist.

STABBED IN HIS CARRIAGE

The Heroic Deed Was Committed While the President Was Attempting a Demonstration at Lyons—The Assassin Attempts Escape But is Captured.

Paris, June 23.—Sadi Carnot, President of the Republic, was stabbed mortally last evening in Lyons, by Cesare Giovanni Santeo, an Italian anarchist, 21 years of age. Carnot was returning to Lyons to visit the exhibition. He left the Chamber of Commerce banquet given in his honor shortly after 9 o'clock and walked to his carriage which was waiting in the Place de la Bourne. He had hardly taken his seat when Santeo, a newspaper in his hand, pressed through the crowd and sprang up the carriage steps. President Carnot started slightly. Santeo snatched a dagger from the newspaper and plunged it into the President's abdomen near the liver. The President sank back unconscious. An eye-witness who was walking abreast of the President's carriage with Anthon Dupuy, the Premier's brother, says that as the President's carriage approached the credit Lyonnais, his own attention was attracted by a slight disturbance in the front line of the crowd. He then saw the carriage stop. The President had fallen back against the cushions and his face had become livid. An outcry was raised at once. Haudraud shouted that an attempt on the President's life had been made and the crowd seemed suddenly to go mad with excitement.

The news spread swiftly to every part of the city. Infuriated crowds filled the streets. Before 10 o'clock an Italian restaurant had been sacked and the police were obliged to strain every nerve to protect the lan consular.

President Carnot arrived in Lyons on Saturday and intended to remain there over to be accompanied by the Italian General Borina, chief of his military household.

The news spread swiftly to every part of the city. Infuriated crowds filled the streets. Before 10 o'clock an Italian restaurant had been sacked and the police were obliged to strain every nerve to protect the lan consular.

## WILL BE ELECTROCUTED

Mrs. Lisie Halliday Sentenced to Die in the Electric Chair.

TAKES HER FATE STOICALLY

Lawyer Carpenter, the Condemned Woman's Counsel, A Pleaded to Fear as the Sentence—Execution to Take Place the First Week in August.

MONTICELLO, N.Y., June 23.—Mrs. Lisie Halliday, who was found guilty of murder, was sentenced yesterday to be electrocuted during the week beginning August 6, 1894.

Mrs. Halliday came in the court room with Sheriff Beecher, with the same measured step, the same downcast eyes, and the same exhibition of stolidity. She was pushed down into the chair, where she began the same actions carried on during the trial. She covered her face with her hands, her hands covered and rubbing her nose and stroked her chin.

While Judge Edwards was looking over the books in the case, District Attorney Hill moved that sentence be passed upon Elizabeth Halliday. Four officers then held her up. The usual questions were put to her, but she answered none. Her body arched in the grasp of the officers, but she made no sound. She jerked her head up and down, stamped with her heel once or twice, but at no time raised her head. She was closely watched by Dr. Edward C. Mann, the professional witness whose testimony did so much to convict her and even he seemed nonplussed by her behavior.

Lawyer Carpenter watched her, his eyes dim, and sincere pity showing in his face. Judge Edwards spoke in low, measured tones in imposing sentences, and the room was intensely quiet, so eager were the listeners to catch every word. Mr. Carpenter responded to the judge's invitation to speak by saying "I have nothing to say."

Tears streamed down his cheeks as the judge condemned her to death by electricity, the sentence being pronounced by the State, in the week beginning Monday, August 6, 1894. Lisie was led out without a sign of recognition of the terrible sentence.

Public opinion has changed since the verdict was given. No one expected conviction of a woman, and now that it has been given and the clamor of those who thought she was shamming has been satisfied, there is a general expression of sympathy for the woman.

Henry Collins, a negro, charged with attempting to assault a white woman near Magnolia, Ark., was captured near the Louisiana line on Friday, near the Arkansas line, and taken back to the State.

At the Anglican Church Synod for Toronto diocese on Wednesday notice was given of a motion, springing from the churchwardens in Wales over the approaching disestablishment of the church in the principality.

Thomas David Gibson, Carmichael, has been suggested by the Methodist Liberator to contest at the next election the seat now occupied by Mr. Gladstone, the ex Premier, having declined to stand for re-election.

At Rochester, N. Y., on Thursday, Stephen D. King, aged 29 years, an employe of the Telephone Company, who had been pairing a wire on a pole 80 feet high, got hold of a live electric wire, and was shocked so that he died soon after.

At Windsor on Wednesday James Rogers of Detroit, for picking a lady's pocket, was sentenced by Judge Burns to King Henry, Ontario, for four years, and George T. Britton, for stealing a buggy, got five years in the same institution.

George Hamby disappeared from Windsor a short time ago, and on Thursday a bottle was found in Bed river which contained a letter from him saying he had drowned himself, being tired of life. He had weighed himself with iron.

On Wednesday a man named Roderick McDonald, who had been working at Maxwell, Ont., and was going to his home at Glen Robertson, lay down on the railway track, went to sleep and was cut to pieces by a train. He leaves a wife and several children.

Harry Spring, a young Chicagoan, who wrote letters to Helen Gould and Mrs. Emerson Blake, and attempted to obtain money from several millionaires in New York, Boston and Chicago, has been arrested, adjudged insane, and sent to a lunatic asylum.

At River du Loup, Que., on Wednesday, Germain Dufour, who was arrested on two indictments for robbery from the International and Tenesconite Railway and sentenced by Justice Chas. Fournier to five years in St. Vincent de Paul Penitentiary.

Rev. R. B. Swartwater, a native of Morocco, and a member of Livingston's exploring party in Africa, was arrested at Cincinnati on Thursday on a charge of murder, committed two years ago in Chattanooga. After being locked up, he was out his throat.

Mrs. Madeline Tucker, 60, of Philadelphia, aged about 35, is said to be engaged to marry C. H. Cramp, head of the great shipbuilding firm, whose age is 60. The prospective bride is described as a beautiful and charming woman, descended from the Stuart kings of Scotland.

James Laird, a barber, has been arrested at Toronto, Ont., on suspicion of having killed Donald Matheson, of the village of Ripley, who disappeared last November, after having committed a crime at the W. O. R. house, Kingston. Laird is a young married man, with nothing against his character. He is held on \$4,000 bail.

Missie Mae's Body Found.

At New York, June 23.—A body which had been discovered floating in the bay Friday night was identified Saturday afternoon by two young men while sitting on the Queen's wharf. They notified the police and the body was removed to the morgue, where, despite the fact that it was terribly decomposed, it was recognized as that of Thomas Gardner, who committed suicide last week.

Two Italian Dead.

New York, June 23.—The body of a man named James Tinning, a cookman, who was found floating in the bay yesterday. Fred Clever, of Newark street, and Geo. T. of No. 3 Company, E.C.I., took the body from the water and telephoned for the coroner, who conveyed it to the morgue. The deceased was known as a sober and reliable man. An inquest will be held by Coroner Allis.

Attempt to Kill the Mayor.

St. Petersburg, June 23.—The case has postponed his journey to Borki. The reason announced for the change in his plans is the conflict of interests between the Cossacks. It is understood, however, that the discovery that the railway over which he was to travel had been mined is the real reason.

Anniversary of Jean Baptiste.

MONTREAL, June 23.—The French Canadian celebrated the anniversary of their patron saint yesterday. The day was bright by a grand procession. The various societies mustered on the Grande Rue and marched through the principal streets to St. James Cathedral where high mass was celebrated by Archbishop Fabre. In the evening a 4-manual organ was held at St. James Park and a number of patriotic addresses delivered.

An Author Beaten.

Boston, June 23.—Edmond S. Selzer Jr., an author 29 years old, killed himself by cutting his throat with a razor in the city of Boston. He was a graduate of Yale.

Another Beaten.

Boston, June 23.—Edmond S. Selzer Jr., an author 29 years old, killed himself by cutting his throat with a razor in the city of Boston. He was a graduate of Yale.

## DOMINION PARLIAMENT

OTTAWA, June 23.—Yesterday was private member's day in the House and very little business of importance was done. Several questions were put to the government and correspondence in regard to the carriage of mails between Prince Edward Island and the mainland. He advocated the tunnel scheme.

This idea was supported by Mr. Wood, of Westminister, who said that it would take ten years to build the tunnel and meantime something ought to be done to improve the present service.

Mr. Davies was of opinion that the Government was only fooling with this tunnel scheme, since it would cost between ten and twenty million dollars and they were not prepared to expend that amount.

The franchise Act of 1893—the revising barrister—should be removed.

Dr. Sproule, in moving for certain correspondence, read a number of letters from Dr. Wright of Detroit, who was an inspector of cattle at Windsor and who was dismissed from the position by the Government, to show that the doctor tried to blackmail the Grand Truck Company with her handkerchiefs and ribbons to publish articles in the press which at that time (in 1888) would cause the Canadian cattle to be quarantined in England if certain concessions were not made to him by increasing his salary and otherwise. The motion was passed.

Mr. Dufferin, in moving for the House of Commons yesterday Sir Hilbert Tupper introduced an act to amend the Fisheries Act.

This bill, which does not come into operation until next year, places a license on the lobster cutting and packing industry. This the Minister of Marine and Fisheries said was the only way of preserving the industry owing to the amount of lobster cutting and canning that was going on.

Another feature of the bill was to provide for the deterring of salmon in certain places. The bill also provides for an increase in the penalties for second and third class offenses for fishing.

A bill also by Sir Charles Tupper, providing that deck loads on the West Indies be increased from three feet to six feet, was read a second time.

OTTAWA, June 23.—In the House of Commons Sir John Thompson introduced an Act to ratify the French treaty. The bill contains only one short section for the purpose of the ratification of the treaty.

Sir Charles Hibbert Tupper's bill to permit ships from Canada bound to the West Indies to carry deck loads of six feet instead of three feet was read a third time.

The greater part of the balance of the sitting of the House was taken up with a bill to consolidate the North-west mounted police.

OTTAWA, Ont., June 23.—In the House of Commons Dr. Landerkin introduced a resolution on non-confidence on going into session to apply to the Government for their having dismissed L. W. Goodenow, postmaster of Georgetown, Ontario, and appointed H. B. Henderson, a son of Mr. Henderson, member of Parliament for Haldon, in his place.

Sir Adolphe Caron, Postmaster-General, said that the reason of Goodenow being dismissed was that he was unable to attend personally to the duties of his office. He was defeated by fifty-two of a majority.

The response then went into supply for the balance of the evening.

Before the Committee of Privileges and Elections yesterday evidence was taken in the charge that Arthur T. D'Almeida, M.P., had violated the Independence of Parliament Act by furnishing groceries and provisions to the Department of Marine and Fisheries in the years of 1892 and 1893. J. B. Provest, of Quebec, the retired partner of Turolet's firm, gave evidence which made it clear that Turolet was the real contractor, and is sufficient to deprive him of his seat in the House.

OTTAWA, June 23.—In the House of Commons yesterday, Sir Richard Cartwright moved an amendment on going into supply in regard to the sale of the Thos. and Mackenzie Island. The Government has published advertisements in the press asking for tenders for a large number of these islands. The time for receiving tenders was to be July 3. Sir Richard Cartwright called the attention of the Government to the fact that the Ontario Government had made a proposal to the Dominion to deal with these islands. This proposition was dated April 30 last. There were three points in it. The first was that these islands should be sold as a public park. In the second place the Ontario Government suggested that they would pay one-half and the Dominion should pay the other half. The third proposition was that the Dominion should withdraw the notice of sale so that the Province would have an opportunity of laying the matter before the Legislature and getting a grant for the purpose of purchasing the islands.

The amendment was defeated. The balance of the sitting was taken up in supply.

OTTAWA, June 23.—In the House of Commons yesterday, Mr. P. P. Forbes, resigned his seat on account of his being brought to the attention of the House by the fact that he had accepted of the Government for a postmaster's salary.

Mr. Corley has a distillery at Belleville. Yesterday he said that he was not aware of having been notified that his name was on the list of those who had accepted of the Government for a postmaster's salary.

OTTAWA, June 23.—Word has reached the city a fatality which occurred on the main line of the Canada Atlantic railway, not far from Glen Robertson, early Thursday morning. The remains of a farmer named Macdonald, whose home is said to be in the village of Alexandria, were found on the track horribly mangled. One of the train in the early morning had evidently run over the unfortunate man, who, it is surmised, was lying asleep on the track. The remains have been conveyed to Alexandria for interment.

Horrible Death on the Track.
