1891.  
their fur. ....  
page at 2 per cent, \$1 per month.  
December 14th, 1882, the mortgage in-  
debtors was paid by money bor-  
rowed from Dr. McPherson through  
Mr. Richard Lane. On the morning of  
January 16th, 1883, he went to the Hyams' warehouse about 11 o'clock to  
collect \$150, due on a note. One of the  
brothers came up out of the cellar, with his shirt collar, shirt, and hands  
slightly smeared with blood. On be-  
ing told about the accident, witness  
left at once as possible.

Dr. McPherson was then sworn, and  
asked to identify his endorsement on  
Martha Wells' cheque which paid the  
chattel mortgage. He would not swear  
positively to his signature.

Mr. Osler asked him to write his  
signature on a piece of paper, but the  
defence objected.

Mr. Osler, however, said that this  
signature would be relevant to evidence  
that he would put in his case, and the court allowed the signature to be  
taken.

On cross-examination, Dr. McPherson  
was not sure of any of the money  
transactions with the Hyams, as he  
left the matter entirely to Mr. Richard  
Lane's hands. He was so uncertain  
about the transactions that his Lord-  
ship said, "You will not have lots of  
money long if you do business in that  
way." The court adjourned at 5  
o'clock.

It appears that the sal-  
mon in that state and in the important  
rivers of the Pacific slope states are rapidly  
becoming extinct. Some reports say it  
will not be long before the once famous  
Columbiæ river will cease to yield fish.  
The Government of Washington state, is  
now exerting itself with a view to restock-  
ing the rivers, but cannot obtain a supply  
of eggs. It has consequently applied to  
Canada for a supply, and the application is  
now under consideration. There is at present  
in the Fraser river hatchery a surplus  
of salmon eggs, more in fact than are at  
present required. From that source an  
effort is being made to stock rivers in the  
territories, but we have ample and more  
than is in demand, while it would be  
neighborly not out of an abundance to  
comply with the request. It is hard to over-  
look the extensive systematic poaching that  
is engaged in both respects the eastern and western fisheries. At present  
the United States fisherman put out great  
nets near the mouth of the Fraser river,  
which are highly detrimental to Canadian  
fishing interests. Having ruined practically  
their own fisheries, they are now forced to look to Canada for the means of  
stocking them. How far their request will  
be complied with has not yet been decided.

New Post Office.

The following new post-offices have been  
opened in Ontario—Beaver Mills, Al-

poma, Robert Reid, postmaster; Elizabet-

hton, N. R. H. J. Smith; Eras-

meau, Wellington, N. R., George Wood;

Langman, Simcoe, N. R., Richard Lang-

man; New Canaan, Essex, S. R., Mrs.

Burglars at Niagara Falls.

Niagara Falls, Ont., Nov. 14.—Burglars  
entered the residence of Mr. William L.

Lundy, on Queen street, last night, and  
succeeded in securing a quantity of cloth-

ing. Two winter overcoats of Mr.

Lundy's, some furs of Mrs. Lundy's and  
other things, are missing.

Post Office.

The number of victims of last night's  
terrible accident on the big Central Vin-

duet is to-day placed at fifteen. All  
the dead bodies have been identified, but four persons who are supposed to have  
been in the ill-fated car as it made the  
awful plunge are still missing, and there  
seems to be no doubt that their bodies  
will be taken from the bottom of the river  
when the heavy iron trucks of the wreck-  
ed motor are raised.

Notes.

The following new post-offices have been  
opened in Ontario—Beaver Mills, Al-

poma, Robert Reid, postmaster; Elizabet-

hton, N. R. H. J. Smith; Eras-

meau, Wellington, N. R., George Wood;

Burglars at Niagara Falls.

Niagara Falls, Ont., Nov. 14.—Burglars  
entered the residence of Mr. William L.

Lundy, on Queen street, last night, and  
succeeded in securing a quantity of cloth-

ing. Two winter overcoats of Mr.

Lundy's, some furs of Mrs. Lundy's and  
other things, are missing.

Mr. Lundy beat the burglars down

stairs, having been awakened by the bark-

ing of a dog. He heard some one say  
"hush," and thought it was the servant  
girl, turning over in bed and going to  
sleep. No trace of the thieves could be  
found.

A Good Move.

Kingston, Nov. 15.—The medical facul-

ty of Queen's College have taken away  
from the students the privilege of supply-

ing the dissecting-room with subjects.

Heretofores the students have been allowed  
to bring in "sub" from wherever they  
can find it for anatomical purposes.

Prof. Edward E. Prince of Ottawa, will  
be gazetted to-morrow as Commissioner  
and General Inspector of Fisheries for  
Canada. He is a most efficient officer, and  
well merits this recognition of his ser-

vices.

Spindly Crops of Corn.

Chatham, Ont., Nov. 17.—The corn crop  
in this district has probably never been

equalled before. One Tilbury farmer  
claims to have taken 200 bushels from one  
acre. A fact that is vouch'd for is that

Mr. Alex. Robert, of lot 1, con-

tinental township, raised 950 bushels of corn  
on less than seven acres.

The London press contains many refer-

ences to the vulgarity of the American

notices of the Marlborough marriage.

The London Common Council on

Thursday last refused to pass the custom

ary vote of thanks to Sir Joseph Renais

the retiring Lord Mayor.

Another Arrest in the Alger Case.

Whitby, Ont., Nov. 14.—The Home

Life Company's agent, Nick Brown was  
arrested in connection with the Alger

surrender case by High Constable Calverly

late this afternoon, at Brown's home in

Spadina, Beach township, and put in gaol

there. He was accepted by Police Magis-

trate Harper in \$500 from Sherman Brown

and \$500 from Sherman Brown

Catarrh in the Head.

It is due to impure blood and cannot  
be cured with local applications.

Hoo's Paraparil has cured hundreds

of cases of catarrh because it purifies

the blood and in this way removes the  
cause of the disease. It also builds up

the system and prevents states

pneumonia, diphtheria and

fever.
