A Significant Departure.

With the close of another year when a review is made of the condition of affairs, it is only right that some thought be given to the physical body and its relation to the welfare of life's problem. The reporter is kindly received, and on making known his intentions, the old man's countenance brightened and his eyes sparkled with delight. It was interesting to note the fervor with which he volunteered, as he told us of his wife, and I said:—

"For twenty years I was subject to heart trouble and could get no relief, although I had tried almost everything that kind friends recommended to me.
