THE HORSE IN HISTORY Many Things Becoming in Honor of the

Now that the barse is losing its import ance as a fisotor in the travel of the simes, and all the world is at peace, - shot ye is not needed in warfare it is worth while to east a retrospective glance over his his-tory, and redall features of pass greatness. which must always attest his worth. It may be that he will suffer a temporary eclipse only that his record may show all the brighter when he emerges and the enforced retirement now immi, ent, but | that he should disappear altogether from the face of the earth, is an ultimate possibility which takes on the nature of a baismisy. Surely a few noble specimenswill be reserved for the racing sport, so dear to man, since not even electricity can offer a desirable substitute. The blue-grass trotter proudly points to Ten Brosek, Longfellow, Jay-Eye-See, Lexington, tury, Ethan Allan, and a host of others. whose names are indelibly written on the horse's book of peerage, the American trotting register. Among the horses of the past who led the world's record were Lady-Suffolk, one mile, 2:28; Flora Temas, 2:19 B-4; Dexter, 2:17; Barus, 2:18 1-w St. JuHen, 2:11 1-4; Maud S., 2:10 1-4 This was a wonderful record-breaking in

each instance, but now the trotter will have to do its mile in two minutes to excite attention. A 2:10 gait to slow to the | present generation. And how much were these famous horses worth in their day. Robert Bonnet is said to have paid \$38,000 for Dixter, and \$36,000 for Barus, Mr. Vanderbill paid \$20,000 for Maud S. He refused \$75,000 for her a few months later. It is said that on one occasion, when General Grant was out driving with Mr. Bonner, behind Dexter, he remarked, that in an artistic sense, the animal in the shafts was vastly superior to the two in the sulky, and that they suffered by physical comparison. It is 3,000 years since Bucephalus carried Alexander to victory. This remarkable horse had been given as a present to Philip, father of Alexander, but it would not allow him to mount. One day Alexander saw the famous animal, and began to study his character. He saw that it was bigh spirits and not viciousness that caus- Wo ed the animal to not as he did, and asked that the horse might be given to him to subjugate. Then, approaching the frantic creature, he sprung on his back with no sign of fear, and gave him his head, letting him rush across the plains at the lop of his speed, King Philip, looking on with fright,
