

**SEELEY'S BAY UCW**

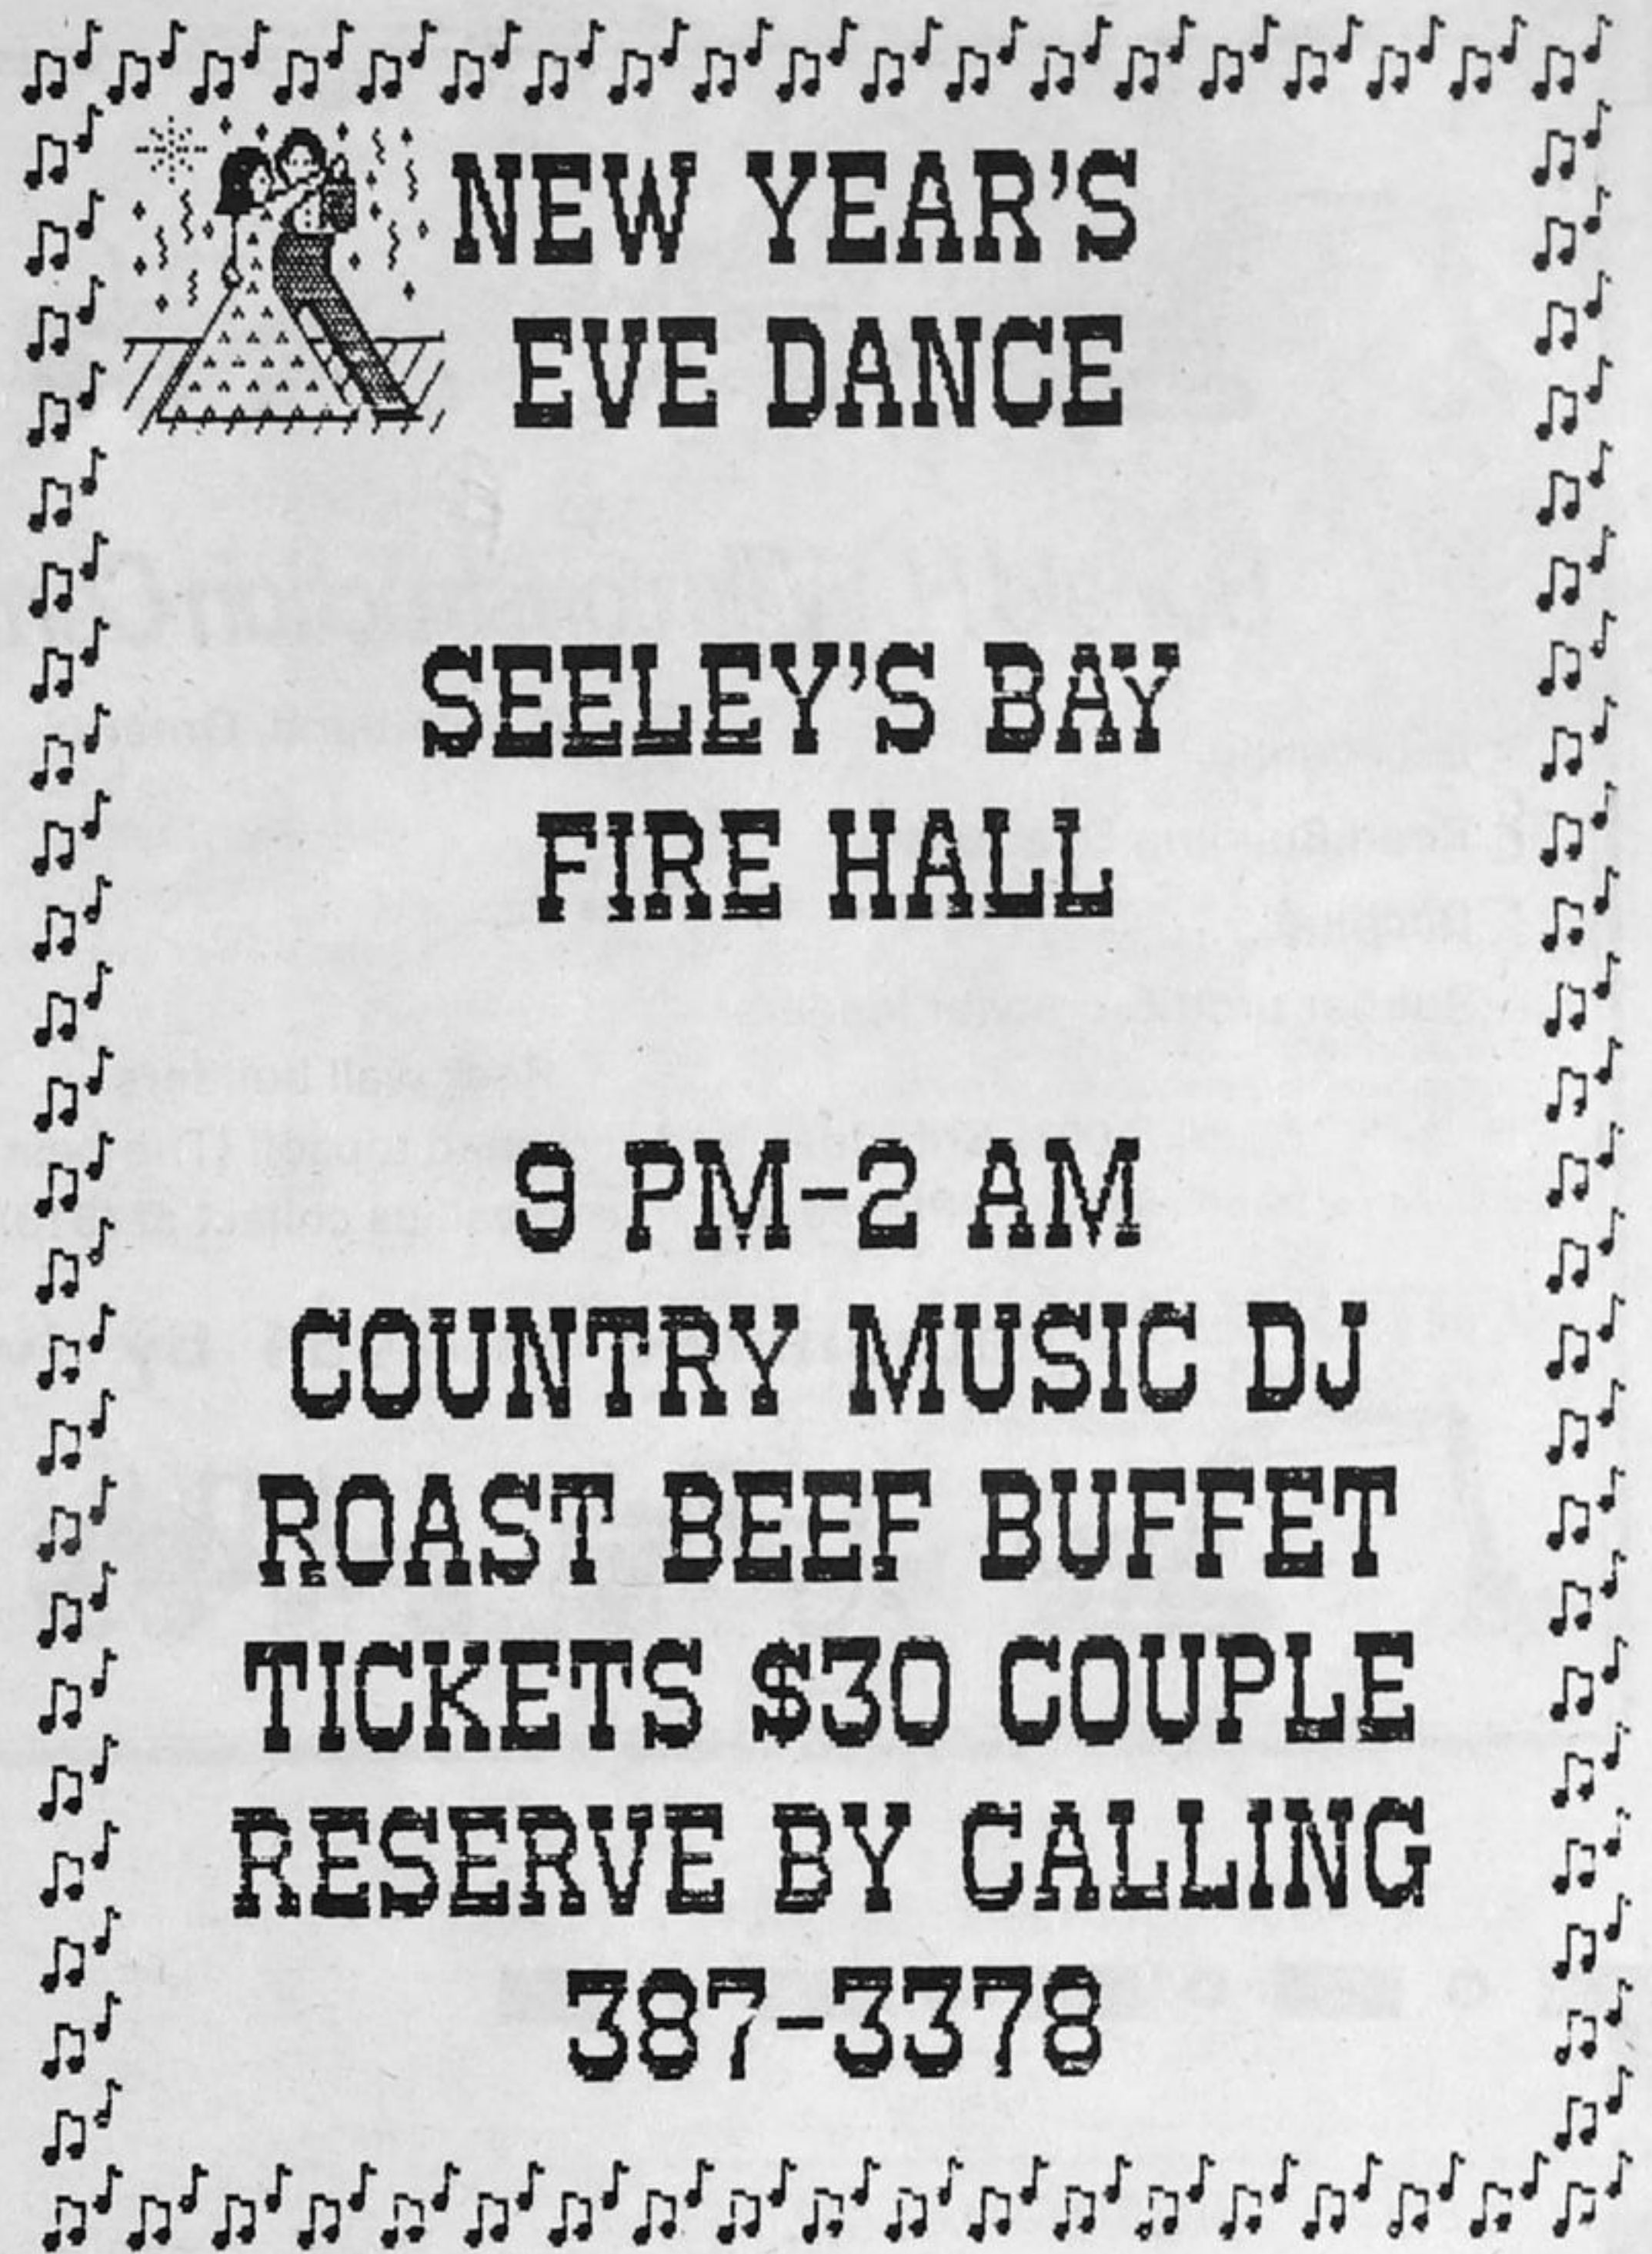

The members of the Seeley's Bay United Church Women were welcomed by Alice Leavitt. Dorothy Heys gave an inspiring devotional message on 'Hope'. Thankoffering was received and dedicated.

Dorothy presided for the business meeting. The roll call was answered by 'Where I started to church' and invoked many memories. The minutes were approved as read; the treasurer and card reports were also received. The report of the turkey supper showed a success again this year. Those who attended the Elgin Section Fall Rally at Olivet were enthusiastic and listened as Myrtle Simpson gave her impressions on '30 years and still rowing'.

Some interest was expressed in buying a church cookbook and discussion was held re buying a new microphone for the church and it was decided we would be responsible for this. Plans are to be made for the Covenanting Service to be held for Rev. Myra Garvin on Oct.25. Joyce Basely has accepted responsibility as representative for the food bank in Elgin, and we are asked to bring donations for it to our next meeting.

Mary Davies gave an interesting talk on "What people do for others without any thought of financial gain" and told of many cases where this has been done.

Lunch was served by Alice and Bonnie while a social hour was enjoyed.

**We're  
Breaking  
New Ground**

Model 1716 with 36" Tiller.

We designed the new Deutz-Allis 1700 to be something special. Very special.

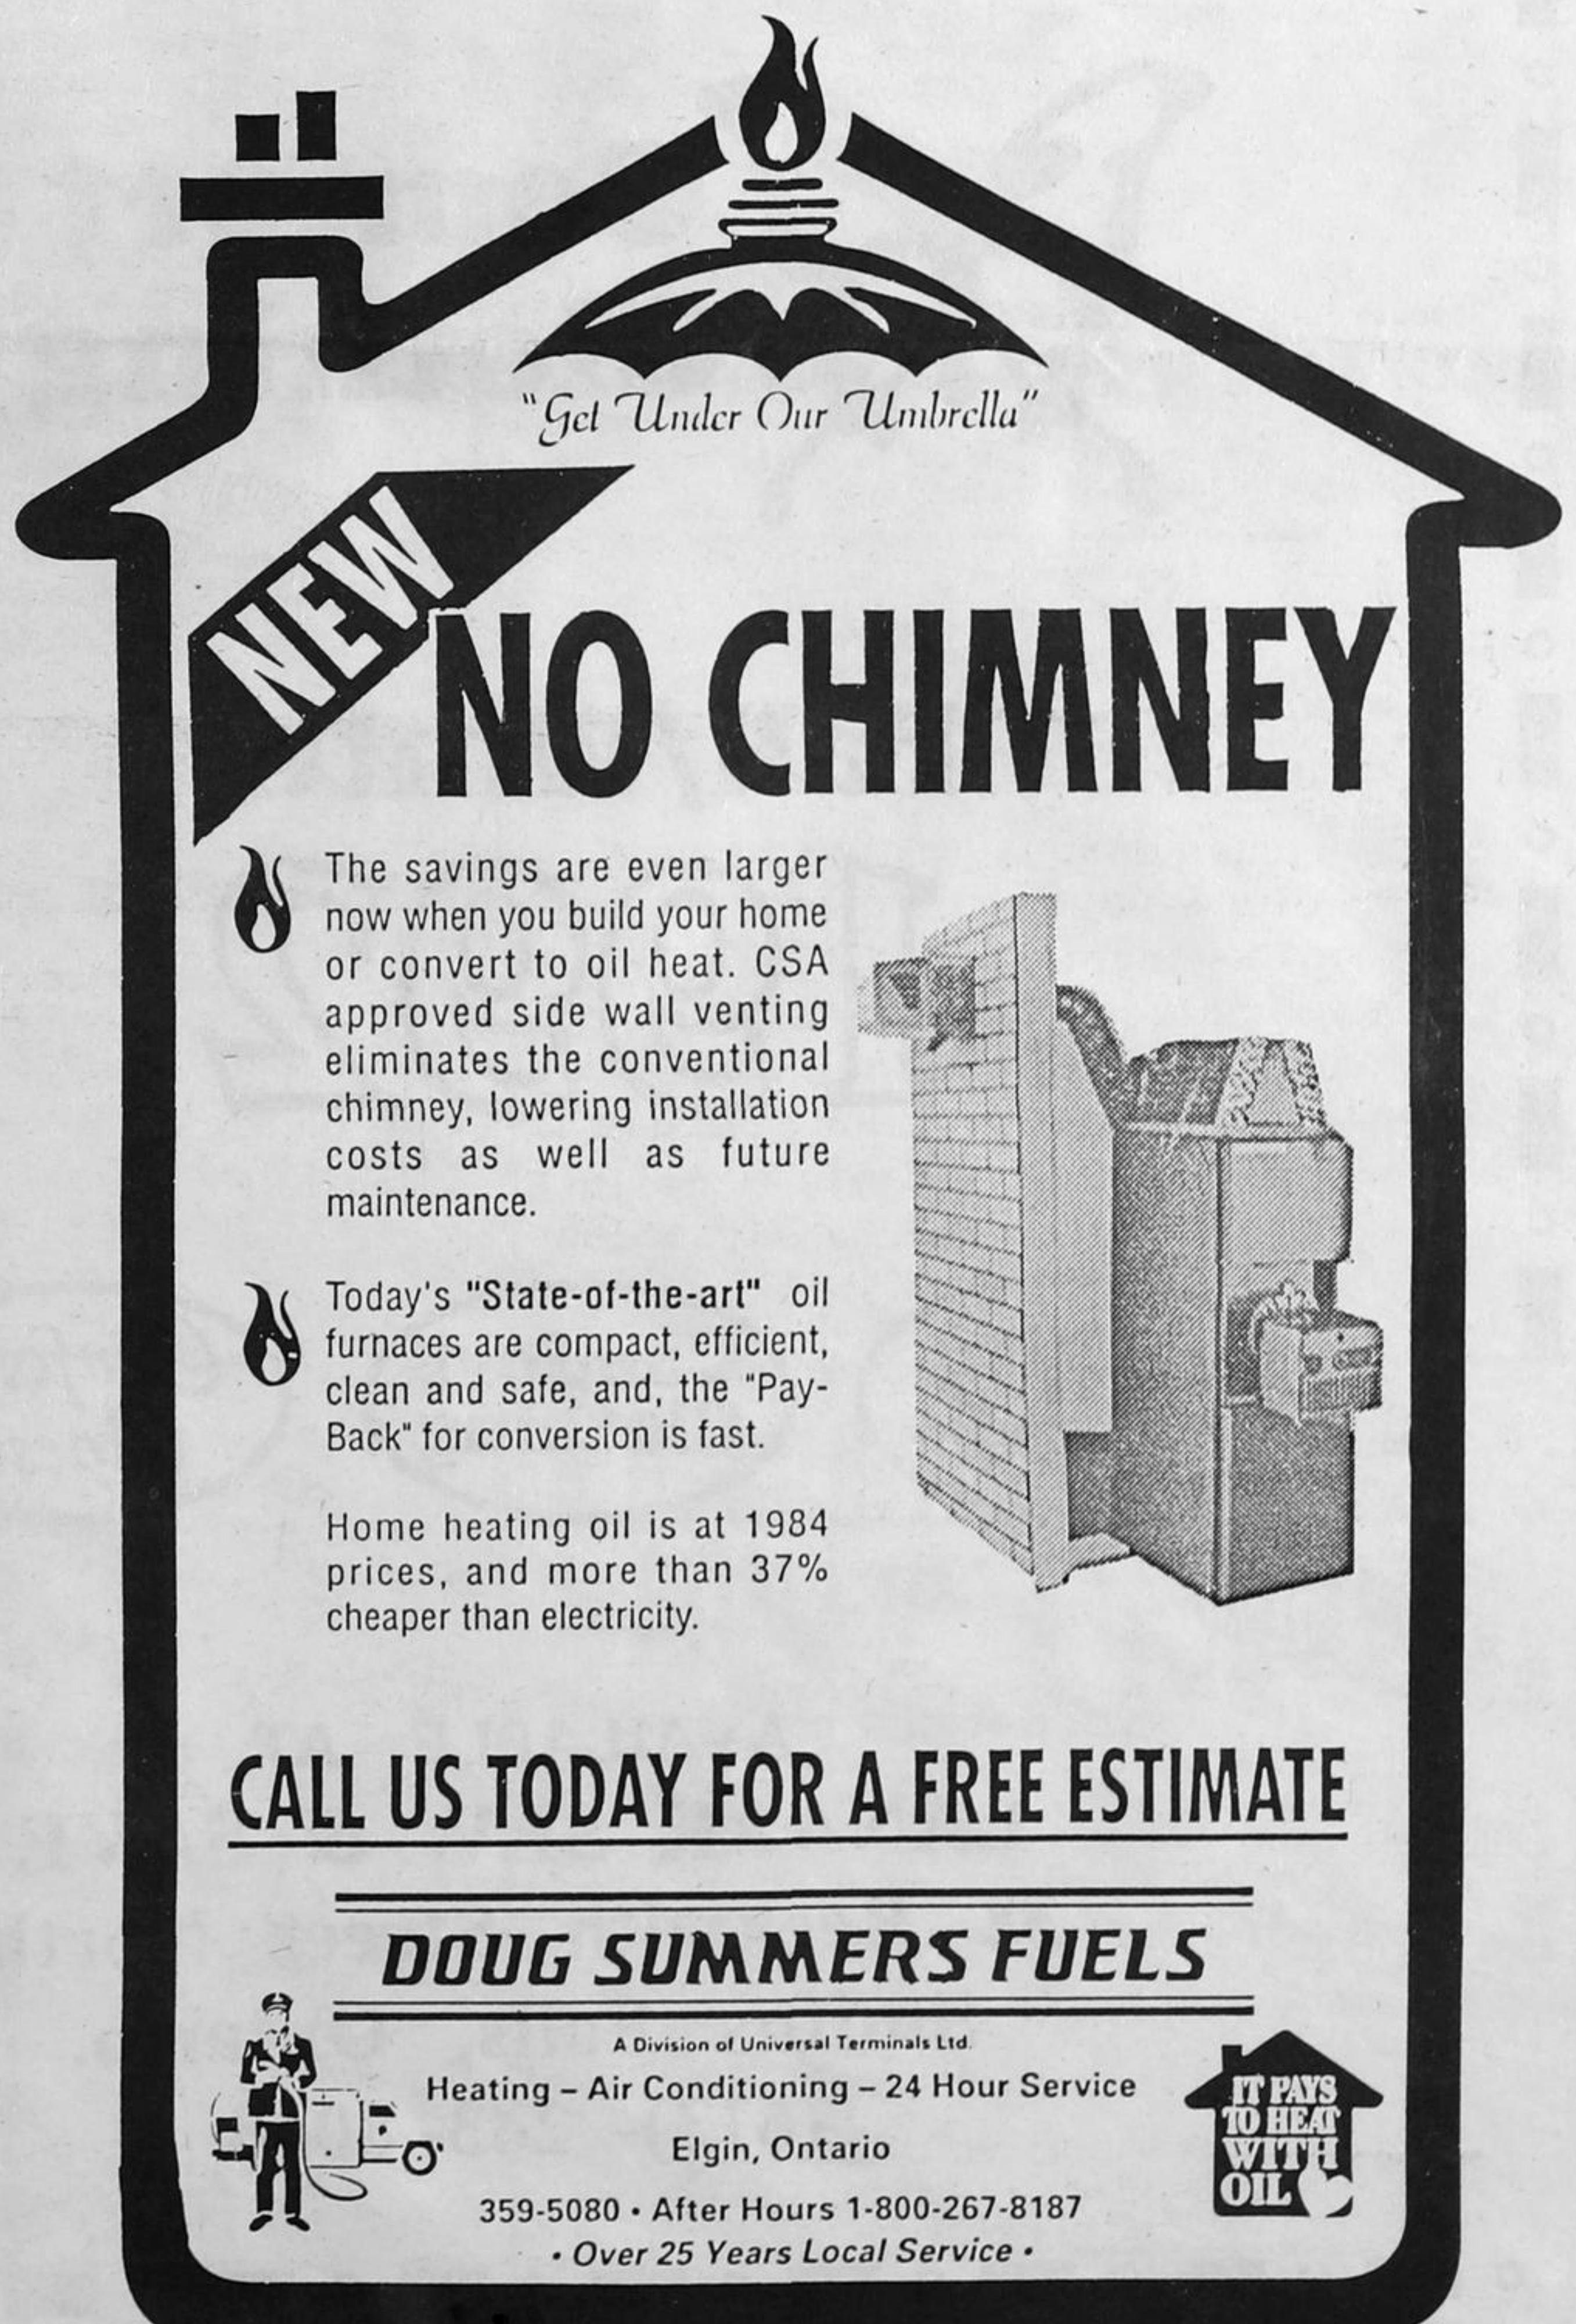

The 1700 Series is one of the most sophisticated garden tractors in the world. Using advanced engineering and computer technology, the 1700 Series mows, tills and throws snow with remarkable precision and control. It has been tested and re-tested under the worst possible conditions to ensure maximum performance. And the 1700 Series was built from the most rugged parts and components. Nothing lasts longer. Nothing works harder. Nothing does a better job.

So come in and check out a garden tractor that's really breaking new ground. The Deutz-Allis 1700 Series.

**NEW NO CHIMNEY**

 The savings are even larger now when you build your home or convert to oil heat. CSA approved side wall venting eliminates the conventional chimney, lowering installation costs as well as future maintenance.

 Today's "State-of-the-art" oil furnaces are compact, efficient, clean and safe, and the "Pay-Back" for conversion is fast.

Home heating oil is at 1984 prices, and more than 37% cheaper than electricity.
