The Lung Association of Lanark, Leeds, Grenville is pleased to introduce a new Asthma Support Group which will be meeting in Westport on September 17, 1991 at Rideau Vista Public School. The incidence of Asthma is increasing in Ontario and the village of Westport is no exception. "We have found that there is an increasing demand for asthma information in Westport," stated Pat Dewar, volunteer Co-ordinator. Asthma is a chronic lung disease that can be serious. Typical signs of asthma include a chronic cough at rest or after exercise, shortness of breath, wheezing and chest tightness. The Lung Association through programs such as the "Air Force Asthma Program" and Asthma Support Groups such as this newly formed one in Westport, hopes

to provide information and education to asthmatics and parents of asthmatic children. Through education and understanding of Asthma, asthmatics and their parents are better able to manage their condition. The Lung Association is very pleased to have Dr. Alan Drummond as the guest speaker at the first meeting of the Asthma Support Group in Westport. "Dr. Drummond has extensive knowledge and experience in the field of asthma and we are very pleased that he has volunteered to speak to our group," stated Dewar. This program is being provided free of charge by the Lung Association and all interested persons are invited to attend. For more information regarding the Asthma Support Group, please contact Lung Association volunteer Joan Ann Hutchings at 273-2142.
