## Ontario's Training Strategy. More than the sum of its parts.

Ontario's Training Strategy includes five flexible, progressive services. Together, they form a foundation for the common goals of prosperity and productivity.

### FOR BUSINESS: TRAINING CONSULTING AND SKILLS INCENTIVES.

A Training Consulting Service: located at over 50 Skills Development Offices across Ontario, expert consultants help businesses assess their training needs and develop training plans.

Ontario Skills Incentives: businesses with fewer than 200 employees can receive

funding for up to 80% of direct training costs. Larger firms are eligible for up to 60% funding. Assistance is also available for developing the required training materials.

### FOR EMPLOYEES: TRADES UPDATING AND ACCESS PROGRAMS

Trades Updating: short-term, accredited courses are available to help Ontario's skilled trades-people keep up to date with changing technologies. Skilled workers can find out more about the Trades Updating program through regional apprenticeship offices, their unions or by calling the Training Hotline.

Access Programs: the Ontario Basic Skills program teaches basic reading, writing, mathematics, science and computer skills. Most courses are available through Ontario's colleges of applied arts and technology. Special Support Allowances help cover the costs of child care, transportation and accommodation during training.

A special Project Fund supports community groups in the development of new training approaches and techniques.

Ontario's Training Strategy. An important initiative to ensure continued growth for all Ontarians. Because training for a better Ontario is everybody's job.

**Training.**  
**We can all profit from it.**

Canada Post must not negate its responsibilities by franchising or contracting out the services which it is required to provide. Secondly, the rural communities which have already been badly affected by the reductions will soon recover the complete postal services to which they were accustomed.
