YOUR COUNCIL AT WORK BASTARD & BURGESS (S)

Despite the many rumours flying around, Delta is not getting a water tower or a filtration plant! Sorry!! What you see is the Gulf Oil water purification field. By the time the water enters Delta Mill Creek it will be clear of all contaminents well as iron. This area blessed with an over abundance of iron in the water. We understand iron entering the water from such a source and in such quantity would be fatal to the fish in the lake.

Unfortunately the County has not as yet overcome all the problems posed by the Veterinarys' Association. Therefore, no further news on a rabies clinic.

We are delighted to report that, despite the weather Lower Beverley Lake Township Park had another successful increasing even season, its revenue over the previous one. Tenders are now out for the new comfort station.
