Three Guineas by Virginia Woolf.

Three guineas addresses itself to women's issues, rather than to money matters. Virginia Woolf was asked to contribute to three causes - higher education for women, acceptance of women into the professions and the prevention of war, all rather one and the same thing as she said. In her response she made a passionate plea for sexual equality. Her replies were considered shrill and too outspoken when published fifty years ago, but are much more attuned to present day thinking on the role of women in society. Hence this reissue. Virginia and her sister, Vanessa, their husbands and their friends were all members of London's highly gifted Bloomsbury Group. JR

The Accidental Tourist by Anne Tyler.

Anne Tyler's novels attract attention, are reviewed in leading newspapers and selected by the Book of the Month Club. She is a youngish mother of two daughters, lives in Baltimore and for a while worked at McGill. She writes about domestic trivialities and delicate marital situations with great wit and wisdom and is a joy to read, a very subtle mix of laughter and tears, of the homespun and the profound. Her latest and most polished novel, The Accidental Tourist, about a travel writer and his errant ways, has recently become a best-selling paperback. JR
