

SOUTH CROSBY

Barker, William J. (IDR)
Reeve

- 1) With many years on council and seven as Deputy Reeve, along with an on-going concern for the taxpayers of the municipality, it gives me the opportunity to continue to work for South Crosby.
- 2) To make the tax dollar go as far as possible.

Fleming, John P. (IC)
Reeve

- 1) With knowledge gained from council experience, I feel obligated to offer this understanding to the electors again. South Crosby is my home - community concerns are mine too. The Reeve's office provides the opportunity to make the greatest contribution.
- 2) Complex challenges face us in the future, budget restraints, changing government environment, demands for assistance, etc. Councils must be informed, provide better communication, efficient administration, effective use of tax dollars and a vigilant eye for opportunities.

Smith, Bob (IC)
Reeve

- 1) In council I have worked hard to achieve prompt action for the people of South Crosby. As Reeve, I can do even more to bring responsibility and accountability to council.
- 2) Some of the most important issues will be financial planning and management, land use and community planning, and the protection of heritage landmarks and buildings.

McFadden, Earl
Deputy Reeve

- 1) I feel that my proven business experience and past experience on township and County council can be a benefit to the community.
- 2) Important issues at this time: holding the tax line so people can own a home; because farming no longer able to provide a large enough source of income to the municipality, attempts should be made to attract other basic industries to area.

Stedman, Jim (IC)
Deputy Reeve

- 1) I have found the past seven years on council rewarding and enjoy contributing to the welfare of my fellow residents. My past hard work on behalf of the taxpayer will, if re-elected, continue.
- 2) Important issues: Budget - attempting to maintain or improve present services and programs while heeding the needs of the residents of the township both in financial restraint and improving the quality of life for all in the municipality. Keeping aware of every available grant from higher levels of government can assist us in reaching these goals with minimal burden to the local home-owner.

Warren, Don *
Deputy Reeve

- 1) South Crosby deserves open, responsive, efficient local government. I believe my experience in positions of responsibility and my knowledge of the township would be useful in promoting these goals.
- 2) Major issues include: procuring larger grants from the Province for the improvement and maintenance of roads and equipment; special help for controlling the Gypsy Moth and restocking of bass in specific lakes: Efficient management of tax-payers' money so its benefits may be felt township wide.

Connell, Phyllis
Councillor

- 1) As in any organization, new ideas and new input are vital. I feel that on many issues, a woman's point of view would be beneficial. As a Christian I am concerned about the welfare of our citizens and community.
- 2) At this time, I am not fully aware of the important issues council will have to deal with in the next three years. I assure you that, if elected, all matters coming before council will be given my honest and fair consideration.

Lambert, W.J. (Bill)
Councillor

- 1) There is need for a voice in the south end of Crosby Township. After serving my country with the S.D.G. Hylanders in earlier years, I'd like to do so again.
- 2) For clean and safe streets and roads by trying to improve law enforcement, for all walks of life, also keeping taxes to a minimum.

Monaghan, Jane
Councillor

- 1) Successful and satisfying participation in local organizations, such as the Rideau Lakes Union Library Board and the Chaffey's Lock and Area Heritage Society, encouraged me to become involved with our municipality on a different, more political level, and as a lawyer, I can contribute analytical and decision-making skills to the municipal council.
- 2) Important issues to be dealt with include: land use and development and the reconciliation of the demands of year-round residents with those of seasonal residents and tourists.

Sly, Wayne
Councillor

- 1) I feel more action is needed in the township and I am willing get involved in moving the township forward.
- 2) I see roads as an important issue for all residents as well as a planned approach to recreational and cultural activities for our young people.

LEEDS AND GRENVILLE COUNTY PUBLIC SCHOOL BOARD (One to be elected)

French, Howard E.
School Trustee

- 1) The Provincial government decision to fully fund the Separate School system and the need for effective representation not in conflict with any future political hopes and aspirations.
- 2) Improve the quality of education with what funding is available and produce some concrete results on behalf of the taxpayers' dollars.

Wing, Dolores (I)
School Trustee

- 1) The role of the trustee has never been more complex. I wish to use the experience that I have gained in the past thirteen years to represent the interests of North Leeds.
- 2) Boards must work very hard to preserve the viability of the public system. Smaller schools will continue to be scrutinized in terms of cost effectiveness. Trustee experience will be essential in the next term.

NEWBORO

No responses received from any candidates.

N.B. When designing the format for the questionnaire every three years, the Lantern staff try to cover all possible variations, taking into consideration the possible space requirements. The thirty word restriction caused several candidates some concern as we realize it is limiting. However, all came through and we appreciate that, while many concerns could not be addressed, we hope the electorate will contact candidates directly for any additional information.

* On the same issue, Lantern staff did not foresee an incumbent School Board trustee resigning to run for Municipal office thus no allowance was made for indicating experience in this elected position. Mr. Warren has served the taxpayers of our area for the past five years, gaining experience in all aspects of School Board administration.
