DELTA LODGE I.O.O.F.

The Independent Order of Oddfellows, Third Degree Team of Delta, Lodge No. 265, travelled by bus to a Degree Rally in Ogdensburg, New York, where they were guests of Amity Lodge No. 80. Prescott conferred the Second Degree at 1 o'clock, after which a Roast Beef Dinner was served to all present. At 3 o'clock Delta conferred the Third Degree on a class of 38 candidates.

At the conclusion of the meeting, both the Grand Master of the Province of Ontario and the Grand Master of the State of New York gave short addresses.

Delta 4-H Club

The Delta 4-H club held its third meeting at the beef farm of Mr. Earl McFadden of Elgin on June 9. The meeting began as usual with the 4-H pledge and the reading of the minutes. It was then agreed to challenge the Athens and Lombardy 4-H clubs with a baseball game. A weiner roast was also planned at Jones Falls. Definite dates were not set. Out at the barn Mr. McFadden explained to us how and why he had switched from dairy to beef farming. He also pointed out the virtues of the Limousin beef breed on his champion bull and cows. A group of three cows were then judged. The meeting was concluded with Richard Chant, vice-president, thanking Mr. McFadden for showing us his beef cows, uncommon to this area. A pen set was presented to him to show our appreciation. John Gunnick, a club leader, supplied refreshments. The next meeting was scheduled for June 30 at the farm of Ron Chant of Portland.

PHILIPSVILLE W. I.

The June meeting was held in the hall on June 11 chaired by our new president, Marion Stone.

A gift was presented to retiring president, Faye Jansen.

The theme of the meeting being Agriculture and Canadian Industries, Leorene Hayes introduced the guests, Mr. and Mrs. Grant Hudson of Burnbrae Farms of Lyn. Mr. Hudson showed slides of their business. His Grandfather lived on the same land from 1893, and the business is still located on the same land. The place was named Burnbrae, which means hills and water. The slides and commentary described the arrival of the chicks, their growth, feeding, debeaking and finally the production of eggs. The eggs are then gathered, washed sorted, graded and loaded on transports for delivery from Bowmanville to the Quebec border.

Plants are located in Quebec and Toronto where they are delivered to the districts nearer. Eggs which are returned or cracked are separated and processed, put in containers and sent to Kraft and other places who buy the mixture for products they make and sell.

The meeting closed followed by lunch and gifts presented to our guests.
