

(Lakeland Players - continued)

The Lakeland Players is a local theatre group which sprung from a theatre workshop conducted by June Greisamer for St. Lawrence College. Last spring the workshop presented three one-act plays. The success of the production was aided by financial and publicity help from Rideau Crafts. Their continuing support has helped the Players to become a fast-growing, capable and talented community theatre.

Auditions for the spring production will be held in March. We'll need male and female actors and actresses as well as help backstage. If you're interested in taking part, call one of the following:
