SWEET'S CORNERS SCHOOL

Falling Apart at the Seams?

Parents at Sweet's Corners School are pressing the school Board to provide funds for desperately needed physical repairs to the school. It has been estimated that \$130,000 are needed. The Property Committee of the Board has recommended that \$65,000 be allocated this year. This proposal has presently been sent back to the Finance Committee for study. They are to meet Jan. 30.

In the meantime, students and staff at the school are dealing with a difficult learning environment. Shifting walls let cold air into the classroom. The floor of the kindergarden is very cold—about 2°C. Ventilation is poor. Central lighting controls hinder use of films. Worse yet, the roof leaks.

There are many other inadequacies in the school. There is presently no lunch room and no place for coats. Blackboards are lacking and the resource center has an extremely low ratio of books per pupil.

These problems add up to a difficult place for the children to study and learn. The basic facilities must be improved, and the money must be allocated to do it.

Dr. Cathy Ashton, chairman of the School Committee, says they hope to get a firm commitment from the Board that the funds will be provided. Even if the improvements are made over a three year period, at least they would be assured that the problems at Sweet's Corners School will not be neglected.

JUST FOR TODAY I will try to
strengthen my mind. I will study.
I will learn something useful.
I will not be a mental loafer.
I will read something that re-
quires effort, thought and con-
centration.

TD Retirement Savings Plan

Stop in at any TD branch and talk it over. But don't wait—the deadline for 1977 tax year contributions is March 1'78.
