### Drama Group Getting Ready For Presentation.

Members of the Adult Drama Group of Westport and district are inviting anyone who wishes to lend a helping hand to 'get into the act', by coming out and giving assistance in building sets, painting them or delving into their attics and cupboards for clothes depicting other eras that might be used in the plays the group is presently working on. If they cannot be used now they will become a part of the permanent wardrobe and will be of tremendous help later on.

This Group under the direction of the Instructor, Mrs. June Greisamer is sponsored by the continuing education program of St. Lawrence College and those participating are most enthusiastic about the training they are receiving. For their Spring Production they have three One Act Plays coming along well and by May and June when they will presenting them in a number of centers in North Leeds. It should be a command performance. As well, they have a children's production in which they will be joined by a number of the children from Mrs. Greisamers drama class at the school. This production will be presented at most of the schools in the area.
