MUNICIPAL MATTERS.

As the time approaches for the cidetion of Municipal officers, some of the ratepayers are beginning to canvass the merits of those who are likely to offer their services. But very little attention has yet been given to the matter by the majority of our citizens.

We understand that requisition is going to be presented to Mr. Storey, asking him to allow himself to be nominated as Reeve. Whether Mr. S'orey" will accept the requisition we do not know, but it is most likely he will.

It appears that he went out for a walk in the evening in company with Miss Annie Ander son, to whom he was much attached, and as the letter he left indicates, intended to marry. Before they parted, some misunderstand. ing arose between them, the result of which caused them to part bad riends. This must have pained the unfortunate young man a great deal, for he shortly afterwards went over to the tannery and knocked at the door, and on John Vass, the night-watchman asking Who is there ?' be gave his usual Roche and Vass had some time ago been talking of trading revolvers. The night in question Vass had Roche's revolver, and the latter asked him to let him have it and

he would return him his own to day. He complied with his wish Roche then set a lamp chimney on top of the scales and fired one shot at it, and remarked that it fired well.
