—Mr. J. P. Sasse shot a very

large game near Nicklin's pond on

Monday morning. It measured 6 feet

6 inches from tip to tip, and 4 feet 10

inches from beak to toes. There are

the city.

ACCIDENTS.—The season for

threshing machine accidents has opened.

The first on the list in this neighbor-

of the late Samuel Soper was the vic-

tim. After 100 days work was over,

and while they were cleaning the floor,

he foolishly jumped on the horse power

to talk to the driver, when he acci-

dently fell off the wheels, and, had

the machine not been going slow, it

would certainly have torn the heedless

young man in pieces. As it was, he

escaped with the loss of one toe on the

right foot, and slight injuries to his

other foot and ankle. Dr. McCullough

of Rockwood, who was immediately

sent for, and who has been progressing

favorably.

This would be a warning to all

thoughtless young men against going

near threshing machines while they are in motion.
